Telephone Number: (406)683-2163

1. Describe the portion of the proposed recommendation with which you disagree (e.g priority date, period of use, source):
Point of Diversions
2. Describe the changes you wish to make in the proposed recommendation:
1) Change The POD in 12N,37E, Sec. 19 NWSENE to the SWSENE.
2) Possibly add a POD in the NENENE of Sec. 19, 12N,37E.
3. Give a brief explanation as to why you disagree with these portions:
1) My original filing was in error and changing number 1) better reflects reality.
2) The POD described in change 2) is the point where East Threemile splits into two channels. The Channel to the east which services the POD described in change 1) is serviced by this channel which is not the main channel of the East Fork. At times I must divert water into this minor east channel to satisfy the diversion needs in the SWSENE of Section 19.

____ I AGREE with this proposed recommendation: no changes need to be made.

RE: Three Mile Creek-Water System

To Whom it may concern:

I am representing Margaret, David J., and James F. Hagenbarth in the filing of water rights in the Snake River Basin Water System. The information contained below is in regard to water rights owned and used by the above in Three Mile Creek, a tributary to Rattlesnake Creek, which is a tributary to Beaver Creek. Three Mile Creek has the same characteristics as most creeks in this area in that the spring flow is tremendous and the summer flow is very minimal, consequently the total c.f.s.'s appropriated seem rather large for the place of use in regard to one miner's inch per acre. This maximum use is short lived. In early spring the maximum flow of water claimed has been used on the lands designated, but only for a short period of time. Later in the summer only a portion of the older rights can be filled.

All the claimants' diverted rights on Three Mile Creek are pooled and used to irrigate and provide stockwater on the designated acres. Five points of diversion are used by the claimants' to divert waters from their rights to the place of use. This use depends upon the amount of water available and the kind and place of use desired. The attached map identifies the points of diversion, conveyance facilities and the places of use for the various uses claimed. By using various combinations of points of diversions, water from any of the claimants' water rights can be delivered to any of the lands claimed.

The points of diversion used to divert the waters of Three Mile Creek consist of an array of rock dams, culverts, earthen dikes and wooden structures. Weirs measure the flow of water onto the claimants' land. The points of diversion which service the claimants' water delivery system are all in Township 12 North, Range 37 East and can be described as follows (see map):

IA-SWSE of Section 18

2A-NENE of Section 19

2B-SENE of Section 19

IB-NESW of Section 19

IC-SWSE of Section 19.

IC will be used as the primary point of diversion for all water rights.

The water put to beneficial use via the claimants' points of diversion and water delivery system is claimed from a combination of the following water rights decreed by the Federal District Court in the Suave Decree, #635 to the claimants' predecessors:

1884-April 1 3.2 c.f.s. 31-00297

1892-April 1 3.2 c.f.s. 31-00296

1910-August 22 .8 c.f.s. 31-00299

MICROFILMED

NOV 17 1992

Claimants' Three Mile Water Rights Continued:

1913-April 1 2.7 c.f.s. 31-00300

1913-April 1 3.2 c.f.s. 31-00301

These water rights were researched by the claimants' and ownership was determined by present and past use of the water from these rights on the claimants' and their predecessors' lands. Two of the original rights in the Suave Decree have been split because the claimants' do not own certain portions of land under said priorities; 1910-August 22, .8 c.f.s., and 1913-April 1 2.7 c.f.s..

Each water right by priority will be filed on separately by the claimants, but this explanation will be attached to each filing in order to tie the rights together as they have been used since the Decree 58 years ago.

Sincerely,

James F. Hagenbarth
