Re: Notice of Error Review

In response to the Notice of Error disagreeing with the number of acres recommended, I have reviewed the attached documentation provided today by claimant (attachments in 31-10503).

1. GIS illustration of adjusted place of use. Prepared by myself according to following analysis.
2. 1987 FSA map. Provided by claimant, verified by phone call to Steve at FSA office in Rigby.
3. Affidavit of Brent Ashcraft.
4. 1978 FSA map.
5. County plat map.
6. Excerpts from Boyd Ashcraft diary, 1978 (three pages).

I also reviewed again the license exam for 31-7203, copy in AJ file 31-7203.

Based on the Brent Ashcraft affidavit and the Boyd Ashcraft diaries, it appears irrigation took place on the west side of the old Hamer Canal. The 1978 map was inconclusive to me, as was the 1980 black and white NAPP in the office (copy not included). I relied on the license exam sketch to add more acres in the NWNW of section 23, and I relied on the 1987 FSA photo to add more acres in NENE of section 22.

I called Steve at the FSA office in Rigby, because the copy Mrs. Ashcraft provided was difficult to interpret. Steve confirmed that Mrs. Ashcraft picked up a copy of the 1987 photo just a few days ago. We reviewed enough details of the map that I am confident that is what she provided to me.

Steve carefully described to me what was and was not irrigated in the NENE of 22. Mrs. Ashcraft had proposed that there was a rectangular area in the very NENENE that was irrigated, but Steve said his maps showed it as non cropped.

The final shape I propose recommending is 462 acres, as shown on the attached layout. The licenses and Hamer Canal rights with appropriate overlaps cover 407 acres, and the enlargement 31-10503 is for 45 acres. This adds up to only 452 acres, so an amended enlargement claim will be presented to Mrs. Ashcraft for signature.

Re: Overlap analysis, Quantity and Acreage Limitations

These five claims are overlapping, and effectively are for a permissible place of use. The first four rights were addressed in the overlap review of 31-07203, and 31-10503 is an enlargement claim.

Since the four licensed or decreed rights were addressed in the overlap review and license for the most recent license, I will use the rate and volume limitations included on the license.

The POU sketch on the license exam closely parallels the GIS POU. However, the license is for 407 acres while the GIS totals 446, for an enlargement of 39 acres. The enlargement claim 31-10503 is for 45 acres, so recommendation can proceed w/o an amended claim.

I plan to limit the licensed rights to the original licensed acres. The splits of the Hamer Canal rights (A31-00062S and A31-00063S) have their origin in 20 shares referenced as owned by Ashcrafts in a 1980 stipulation and agreement, at 5 miners inch/share. This works out to 100 miners inches, or 100 acres at one inch per acre. This is quite rolling ground but it is conceivable that up to 100 acres could have historically been irrigated from the Hamer Canal. Therefore I plan to recommend the Hamer rights at 1 acre/0.02 cfs. based on the original 20 shares or 2.0 cfs.
