Con. Use 156 ac. x 2.5 AF/ac = 390 AF

NOTES: A31-02258E is for 145 acres within a 156 ac. permissible place of use.
A31-02351A is from a right that was licensed at 0.02 cfs/ac. from previously unlicensed lands, and brought previously licensed lands that were less than 0.02 cfs/ac. up to 0.02 cfs/ac. Therefore, since these 4 1/4's were licensed for a total of 3.20 cfs, the combined diversion rates of A31-02258E and A31-02351A cannot exceed 3.20 cfs. Because this is a flood irrigation system, the combined diversion rate recommended is 3.20 cfs rather than 3.12 cfs. $[3.20 - 0.08 (\text{for the 4 acres out for roads and buildings}) = 3.12]$

COMMUNICATION DOCUMENTATION

Claim No.: A31-02258E

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent: Carter Fritschle

Date: October 27, 1994

Contact Person(s): Shirley Caudle

Nature of Contact and Substance of Communication: Ms. Caudle called the Hotline in response to my letter of 10-20-1994. She stated she would like to amend her claim for the amount of water that her land was entitled to under the 1935 priority date. I told her I would prepare and amended claim and send it out for her signature. I also stated that the 1955 priority water right (A31-02351A) would likely be reduced in order to recommend more water under the 1935 priority. She acknowledged that she understood the necessity of reducing the diversion rate of the junior right.

RE: Snake River Basin Adjudication - SRBA
Jefferson County - A31-02258E & A31-02351A
Identification Number Changes

Dear Claimants:

The Identification Numbers of two of your Notices of Claim to a Water Right have been changed from A31-02258D to A31-02258E and A31-02351C to A31-02351A respectively. The suffices were changed in order to keep the Adjudication Bureau's record of these water rights consistent with what has been recorded with the Water Allocations Bureau of IDWR. This change does not affect your claims in any other way. Enclosed are computer-generated copies of your claims with the new identification numbers.

In reviewing claim no. A31-02258E I noticed that you may be entitled to claim a higher diversion rate for your water right. Our records indicate that you own 145 acres of the original place of use of right 31-02258. Since that right was licensed at 0.02 cfs per acre, you may wish to amend the diversion rate claimed from 1.93 cfs to 2.80 cfs if your diversion system has the capacity to divert this amount. You may contact me at 1-800-451-4129 if you wish to have me prepare an amended claim for your signature.

Also, I will be contacting you next spring to field verify certain elements of your claims such as the point of diversion and place of use. Please do not hesitate to contact this office, if you have any questions.

Can allow 2.90 cfs

RE: Snake River Basin Adjudication - SRBA
Jefferson County - A31-02258E & A31-02351A
Identification Number Changes

Dear Claimants:

The Identification Numbers of two of your Notices of Claim to a Water Right have been changed from A31-02258D to A31-02258E and A31-02351C to A31-02351A respectively. The suffices were changed in order to keep the Adjudication Bureau's record of these water rights consistent with what has been recorded with the Water Allocations Bureau of IDWR. This change does not affect your claims in any other way. Enclosed are computer-generated copies of your claims with the new identification numbers.

In reviewing claim no. A31-02258E I noticed that you may be entitled to claim a higher diversion rate for your water right. Our records indicate that you own 145 acres of the original place of use of right 31-02258. Since that right was licensed at 0.02 cfs per acre, you may wish to amend the diversion rate claimed from 1.93 cfs to 2.80 cfs if your diversion system has the capacity to divert this amount. You may contact me at 1-800-451-4129 if you wish to have me prepare an amended claim for your signature.

Also, I will be contacting you next spring to field verify certain elements of your claims such as the point of diversion and place of use. Please do not hesitate to contact this office, if you have any questions.

Sincerely,

Carter Fritschle
Water Rights Supervisor

Arnold Wilding said he and
Ted Adamson put the Well down and
pump on in 1956 - They first went
90 ft then had to go another 90 feet
then had to go another 72 feet then
it filled with sand - Cope Well Drilling
drilled the well, they came back and
cleaned out the pipe and said that
Arnold had an excellent well there -
They pumped 240 inches of water - It was
first run with a diesel pump then about
a year later they put electricity to it for
2,500.⁰⁰ per year for 5 years - To start with
Utah Power wanted 20,000.⁰⁰ dollars to run
electric to the pump - Arnold said he
could not afford it so he went to
diesel - Signed affidavit on next page

POOR ORIGINAL

In the Matter of Application for Change)
of Point of Diversion and Place of Use)
of Water Right No. 31-2258 in the name)
of RAY SANDERS and BILL SIMMONS)

MEMORANDUM DECISION

Application for change in the point of diversion and place of use of a portion of Water Right No. 31-2258 was submitted by the applicants Sanders and Simmons on December 16, 1969. The application proposed to change the point of diversion of 6.4 cubic feet per second of water from wells located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, T. 8 N., R. 34 E., to a well located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, T. 7 N., R. 33 E., and requested that the description of lands irrigated be changed from the SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Section 1, the SE $\frac{1}{4}$ of Section 2, and the NE $\frac{1}{4}$ of Section 11, T. 7 N., R. 33 E., totaling 530 acres, to 320 acres in the SE $\frac{1}{4}$ of Section 2 and the NE $\frac{1}{4}$ of Section 11 in T. 7 N., R. 33 E., B.M. The applicants submitted proof of ownership in the form of a warranty deed showing that they own the SE $\frac{1}{4}$ of Section 2 and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, a small part of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, and the NE $\frac{1}{4}$ of Section 11, T. 7 N., R. 33 E., B.M.

After reviewing the application and evidence submitted in support of that application, the State Reclamation Engineer finds that the application for change in point of diversion of Water Right No. 31-2258 be APPROVED for 6.4 c.f.s. and that no more water shall be diverted from the wells at the new points of diversion than that originally required for irrigation of 340 acres of land. Subject to adjudication by the court, this is hereby tentatively set at 3 acre-feet per acre per season, or a total of 1,020 acre-feet in any one season.

The State Reclamation Engineer further finds that the applicants, Ray Sanders and Bill Simmons, hold the title to lands as evidenced by a warranty deed, the SE $\frac{1}{4}$ of Section 2, the NE $\frac{1}{4}$ of Section 11, and approximately 35 acres of land in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1. Inasmuch as the applicants do not hold title to the lands in Section 1 from which the water is sought to be transferred, the change in the place of use of the water from said Section 1 is hereby DENIED.

Dated this 14th day of April, 1970.
