MEMORANDUM

TO: 31-0309

DATE: 1/5/84

FROM: Ernest Carlsen

This application requests the transfer of 1.60 cfs onto 230 acres within a 31- acre area and could easily represent an acreage expansion from 80 acres.

Companion applications submitted at the same time to transfer 31-0308/31-0310 and 31-0216 were all prepared to reflect an application rate of 0.02 cfs/acre. Furthermore, some of the new place of use is located on the other side of Spring Creek and may not be irrigable from the designated point of diversion.

A field investigation should be conducted to confirm the lands actually irrigated. Information should also be obtained from Don Shenton concerning the number of acres originally covered by the right and whether his records reflect the use of this water by Half Circle Cattle Company. Documentation of the irrigated acreage should also be filed with application for transfer no. 31-0216 (Protested)

RE: Application for Transfer of rights 31-0309, 31-0216
HALF CIRCLE CATTLE CO.

Dear Kent:

A review of the above applications reveals the need for our Department to conduct a field investigation prior to further action on the application to transfer #31-0309. The investigation to be conducted next summer, will identify the actual lands irrigated and collect other available data related to the right.

Since protested application for transfer of right #31-0216 involves the same place of use and point of diversion, we propose to delay a hearing on this application until the above investigation has been conducted.

Please advise if you or your client wish to be present at the time of the investigation.

Respectfully submitted,

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)	
TRANSFER NO. 2957 OF WATER RIGHT)	
NO. 34-00309 IN THE NAME OF HALF)	ORDER
CIRCLE CATTLE COMPANY, INC.)	
_____)	

This matter having come before the Idaho Department of Water Resources (department) as a result of the review of pending applications for transfer and review of Snake River Adjudication claims filed in the Big Lost River Drainage, the department makes the following findings of fact, conclusions of law and order:

FINDINGS OF FACT

1. On May 14, 1984, Half Circle Cattle Company , Inc. (applicant) filed Application for Transfer No. 2957 (application) with the department in connection with water right no. 31-00309.

2. A review of the Snake River Adjudication claim filed in connection with the above captioned water right shows that the proposed transfer does not agree with the later in time adjudication claim.

3. The adjudication claim has been filed pursuant to Section 42-1416A, Idaho Code, as if the change(s) proposed on the pending application can be approved and decreed without the necessity of filing for a change as provided in Sections 42-108 and 42-222, Idaho Code.

4. On October 11, 1990, the department corresponded with the applicant to determine continued interest of the applicant and requested appropriate information from the applicant to justify separate consideration of the application from the more recently filed Snake River Adjudication claim.

5. The applicant has not responded to the department and has not shown any reason why the application should be considered separately from the adjudication claim.

CONCLUSIONS OF LAW

1. Section 42-1416A, Idaho Code, provides in part that:

(1) If any person entitled to the use of water has made a change in point of diversion, place of use, period of use or nature of use of all or a part of the water, including a change as part of an exchange as defined in section 42-105, Idaho Code, prior to the entry of an order commencing a general adjudication pursuant to section 42-1408, Idaho Code, and the person entitled to the use of water has not complied with the requirements of

(b) the water right may be determined by the director in the director's report pursuant to section 42-1411, Idaho Code, and decreed by the district court pursuant to section 42-1412, Idaho Code, as changed, if the change meets the substantive criteria of section 42-222, Idaho Code, for approval of such changes, provided that the change may be approved subject to conditions necessary to satisfy the substantive criteria of section 42-222, Idaho Code, for approval of such changes.

RE: APPLICATION FOR TRANSFER NO. 2957 OF RIGHT NO. 31-0309

Gentlemen:

On May 14, 1984, you submitted to the department the above referenced application for transfer which is still pending in department files. Final action to either approve or deny the application has not occurred.

A review of department records shows that the Snake River Basin adjudication claim which was filed on this water right by Sheridan Golden Eagle of Hamer, Idaho claims the right differently than the original right and differently from the pending application for transfer.

Since the adjudication claim is likely the more current representation of the water right than the application for transfer, the department intends to void the application for transfer and allow the adjudication claim to be the document to represent the water right unless you provide justification within thirty (30) days to show why the application for transfer should be considered separately by the department.

Please feel free to contact the department if you have questions.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau
