MEMORANDUM

TO: File 31A, Decree of Earnest Sauve vs. W. H. Abbott, et al.
Dated November 1, 1930

FROM: Dave Tuthill *DT*

DATE: July 8, 1985

RE: Water Right Nos. 31-0320 thru 31-0325 and 31-0373 thru 31-0375

JUL 10 1985

Department of Water Resources
Office of the Secretary

The above-referenced decreed water rights are identified in the Sauve vs. Abbott decree in a manner that is complex and difficult to understand. The purpose of this memorandum is to clarify some aspects relating to the manner in which these rights have been recorded and computerized.

Starting on page 209 of the decree are water rights that have been numbered in the decree as 154A, B, C and D. These water rights are shown as the total diversions in the Hump, Woodie, Lucky Strike and East Side ditches, all serviced by the Wood Livestock Company. Water Resource numbers were assigned to these ditches at the point of initial description of point of diversion, as shown on pages 209 and 210. These numbers are identified as 31-0320 thru 0323. The decree states that these water rights are for stockwater purposes and the diversion and use thereof shall cease after July 1 of each year, except in the case of stored water of the company.

The decree goes on to identify irrigation uses in the Hump Ditch and Lucky Strike Ditch. These uses, which are identified in the decree as Water Right Nos. 154A and C, respectively, have been assigned Water Resource Nos. 31-0324 and 31-0325. Note that while the location of point of diversion of these rights is related to 31-0320 and 31-0322, the use is different. The irrigation use of these rights is allowed by the decree to continue after July 1 of each year.

One page 211 the decree goes on to identify specific rights within each of the ditches. In the original Water Resource numbering of the decree, no water rights were assigned to these more specific identifications of water rights. A review of these descriptions has resulted in a determination that three additional water rights, for which no numbers have previously been assigned, were required to be identified. Thus, Water Right Nos. 31-0373 thru 31-0375 have been assigned on page 211.

Note that page 211 contains a synthesis of the water rights within each ditch. Note also that an attempt has been made to utilize the numbers already issued to the maximum extent possible. For example, No. 31-0320 represents the stockwater portion of the water right in Hump Ditch for a total of 20 cfs, and Water Right No. 31-0324 represents the irrigation portion of water in Hump Ditch for a total of 19.2 cfs.

Much care was exercised in the identification of these numbers, and any changes to this interpretation should be made based only on a complete understanding of all items in this portion of the decree.
