

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

01/05/2001

RIGHT NUMBER: 31-2343

NAME AND ADDRESS: MUD LAKE WATER USERS INC
1400 E 1500 N
PO BOX 68
TERRETON, ID 83450

SOURCE: GROUND WATER

QUANTITY: 16 CFS
5839.4 AFY

USE OF THE RIGHTS LISTED BELOW IS LIMITED TO A TOTAL
COMBINED DIVERSION RATE OF 503.21 CFS FROM MAY 1 THROUGH OCT
31 AND A TOTAL COMBINED DIVERSION RATE OF 643.21 CFS FROM
MARCH 1 THROUGH APRIL 30 WHEN AUTHORIZED BY AN EARLY PUMPING
PLAN APPROVED BY THE WATERMASTER. COMBINED RIGHT NOS.: 31-327,
31-328, 31-329, 31-330, 31-331, 31-332, 31-336B, 31-337B, 31-
371, 31-2239, 31-2265, 31-2289, 31-2290, 31-2297, 31-2310, 31-
2317A, 31-2317B, 31-2321, 31-2341, 31-2342, 31-2343, 31-2344,
31-2345, 31-7005, 31-11430, 31-11432.

PRIORITY DATE: 09/03/1954

DESCRIPTION OF
EXISTING DIVERSION WORKS

The Owsley Canal Company diversions fall into four categories:

1. Diversions from Mud Lake in Section 1, T6N, R34E.

Water under all rights to the natural flows of Mud Lake and its tributaries, water diverted by the Bybee wells, and at times much of the water diverted by the North Lake wells, as well as water under all storage rights in connection with such sources, flows from Mud Lake through the main intake canal of the company to the main lift pumping station located just south of Highway 28 in the NW1/4NW1/4 of Section 24, T6N, R34E. There are four pumps at the main lift station, three 200 HP pumps and one 150 HP pump. The pumps lift water about seventeen feet and produce some 329 cfs of flow in the canal system. In addition some water is diverted through the Level Canal Company intake from Mud Lake in the SW1/4SW1/4 Section 34, T7N, R34E and then recaptured by means of a pump located on the south bank of said canal in the SE1/4SE1/4 Section 33 of said township and range for the irrigation of some two hundred acres of farm land. This is referred to as the Shively (tenant) or Staley (landowner) diversion.

MICROFILMED

DEC 09 1992

SCANNED

NOV 4 2002

2. Diversions of groundwater at the Bybee well field in Section 25, T7N, R35E.

When these wells were first drilled, the water flowed from them under pressure in the amount of about 200 cfs. Over the years the number of wells and the depth has been increased, and pumps have been installed to produce the 200 cfs. There are now eight wells with pumps. They range in depth from twenty-two feet to one hundred feet. There are six 100 HP pumps, one 75 HP pump and one 60 HP pump. Water from the wells is collected in a system of ditches with a large sump and discharged through a concrete and earthen structure into Camas Creek. It flows through the channel of Camas Creek to Mud Lake from which it is then rediverted as described above.

3. Diversions of groundwater at the North Lake well field in Sections 13, 18, 19 and 24 of T7N, R34E.

There are some sixteen drilled wells in this location, eleven are currently in use. Their combined maximum capacity is 197.66 cfs. The depth of nearly all eleven producing wells is one hundred feet. All but one of the pumps are 75 HP pumps; one is a 60 HP pump. These wells discharge into a system of collection ditches which feed a main ditch running in a generally southwesterly direction to a bifurcation structure in Section 34 of said township and range. From the bifurcation structure, water is either delivered south into Mud Lake for rediversion as described above, or in a southwesterly direction to the west lift pumps of the company, sometimes referred to as the "Sparks Pumps". This lift station is located in the

SCANNED
NOV 17 2002

MICROFILMED
DEC 09 1992

SW1/4SW1/4 of Section 33, T7N, R34E where the water is lifted some fifteen feet into the Owsley Canal system.

4. Diversions of wastewater within the Owsley Canal system by means of subpumps.

There are twelve subpumps located strategically throughout the Owsley system for the purpose of pumping excess tailwater and subwater from irrigation of the lands back into either the canal system or Mud Lake for reuse. These are relatively smaller pumps ranging in size from 3 HP to 20 HP and lift water eight to eighteen feet.

STORAGE RIGHTS

IN

MUD LAKE

Under the federal court decree in the case of Ernest Sauve v. W. H. Abbott, et al., Case No. 635, entered November 1, 1930, the watermaster is charged with the responsibility of accounting for water stored in Mud Lake during the nonirrigation season on the basis of priorities to the use of the waters of Mud Lake and its tributaries during the irrigation season.

As a result of the drilling of wells which for many years resulted in the flow of significant amounts of water therefrom without the necessity of pumping, other court decrees have resulted which also impact such storage rights. Notable among such decrees is the one entered by the District Court of the Ninth Judicial District for Jefferson County in the case of Owsley Canal Company v. Ernest Bauerle, et al., Case No. 1739, on October 14, 1940.

By the early 1960's, most of such flowing wells had ceased to flow in average water years, either during the irrigation or nonirrigation season. Pumps were installed and in very recent years some wells have been deepened in order to provide the

MICROFILMED

DEC 09 1992

SCANNED

NOV 17 2002

required amounts of water. Coincidentally with the increased number of groundwater diversions in the areas surrounding Mud Lake, wintertime flows from Camas Creek and the other tributaries have, in many of the past twenty to twenty-five years, been insufficient to fill Mud Lake.

In response to the need to fill Mud Lake during the nonirrigation season, for the benefit of all holders of natural flow and storage rights therein; a practice has developed of pre-irrigation season pumping from many of the same wells which are the subject of the Owsley v. Bauerle decree, as well as some other wells. The pre-season pumping has been done pursuant to an agreement entered into by all those who hold rights to the use of the waters of Mud Lake. A copy of the agreement currently in effect is attached hereto.

Claimant has made a claim for storage rights under each of its natural flow rights. The storage capacity of Mud Lake is only 45,000 acre feet, which is far less than the combined total of the potential storage rights of all holders of such rights. In addition to the limitations imposed upon such claimed storage rights by nature, by the size of the storage facility, by the applicable decrees of courts and the priorities provided therein, such storage rights have been and are presently subject to the practice described in the attached current pre-season pumping agreement.

License and Certificate of Water Right

Water License No. G-25547

Amount 16.0 c.f.s.

Water District No. _____

Priority Sept. 3, 1954

THIS IS TO CERTIFY that OWSLEY CANAL COMPANY
of Terreton, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated September 3, 1954; that Permit No. G-25547
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
16.0 second feet, was issued thereunder on August 29, 1960, showing that said works
were completed on the 28 day of March, 1960; and that on the 28
day of March, 1960,

OWSLEY CANAL COMPANY

of Terreton, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. G-25547 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6951, on the 29 day of August, 1960;
The right hereby confirmed dates from September 3, 1954;

The Point of Diversion is located
in the NW 1/4 NW 1/4, Sec. 19, Tp. 7 N, R. 35 E., B. M. County Jefferson

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 16.0 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
For irrigation of 17,240 acres under the			Owsley Canals in Sec. 32, 33, T. 7 N.,		
R. 34 E.; Sec. 3, 4, 5, 7, 8, 9, 10, 11,			12, 13, 14, 15, 16, 17, 20, 21, 22, 23,		
24, 25, 26, 27, 28, 29, 34, 35, T. 6 N.,			R. 34 E.; Sec. 8, 17, 18, 19, 20, 29,		
30, T. 6 N., R. 35 E., B. M.					
Not over 5 acre feet per annum per acre of irrigated land of all water rights shall					
be diverted. Not over 1 miner's inch of subterranean water per acre of irrigated					
land shall be diverted at any one time for all uses.					

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

29 day of August, 1960.

s/ GEO. N. CARTER

State Reclamation Engineer.

31-02345/31-07005

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
2. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- *** 9. The total instantaneous diversion of water from all points of diversion under Transfer 5335 shall not exceed 503.21 cfs during the irrigation season.
10. Approval of Transfer 5335 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- ** 11. Rights 31-00327, 31-00328, 31-00329 and 31-00330 when combined shall not exceed a total diversion rate of 200.00 cfs during the irrigation season, and may be diverted at their full authorized rate of diversion into Mud Lake for storage purposes during the non-irrigation season.
- * 12. Right 31-02289 is limited to irrigation of 160.0 acres in the place of use described above in a single irrigation season.
- * 13. Right 31-02290 is limited to irrigation of 240.0 acres in the place of use described above in a single irrigation season.
- * 14. Right 31-02297 is limited to irrigation of 340.0 acres in the place of use described above in a single irrigation season.

02344/02345/07005

FROM: Pam Skaggs^{PS}/State Office

SUBJECT: Transfer 5335

DATE: February 9, 1999

Transfer 5335 combines the groundwater rights of the Holley Water Users, Jackett Canal Co, and Owsley Canal company. These three companies have combined under the Owsley Canal Company name and will operate a single combined system.

The application identifies 34 points of diversion and a combination of the land lists evidenced under each company's SRBA claims or 24261.3 acres. The decreed rights are vague, while the licensed rights identify specific acres and limits. SRBA review of all these rights through the adjudication process will provide specifics and verify the validity of all of these rights.

Review of these rights found that Right 31-02317 was actually licensed in two parts with separate rates and priority dates. These rights were more accurately entered as Parts A & B on the database and the additional 8.08 cfs added to the total diversion rate under this transfer. Also, a combined limit of 200.00 cfs during the irrigation season was identified under Rights 31-00327/00328/00329 & 00330. Right 31-02259 was listed on the application, however this right was superseded by Right 31-00330. After making these adjustments, the total rate of diversion under these rights is 643.21 cfs limited to 503.21 cfs during the irrigation season and 5,000 af storage.

Season of use and diversion volume were adjusted to current standards where specific acres were identified. Recommended conditions include watermaster control, supplemental groundwater, irrigation overlap, measuring/lockable controlling works, right-of-way, permissible place of use, combined limits and standard transfer conditions.

RE: Permit Nos. G-25545, G-25546, G-25547,
G-25550, G-25551

Jack Gerard, Vice President
Owsley Canal Company
Terreton, Idaho

Dear Mr. Gerard:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permits No. G-25545, G-25546, G-25547, G-25550, G-25551 shows that the wells are capable of conveying 4,000 miner's inches (80 c.f.s.) of water for irrigation of 17,240 acres.

Upon receipt of the Statutory fees, totaling \$25.00, we will issue the Certificates of Completion of Works (fee \$5.00 for each Certificate) and the License and Certificate of Water Right on each, confirming the rights with priority of September 3, 1954, to the use of 80 second feet of subterranean water with the points of diversion in The SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, Township 7 North, Range 35 East for irrigation of 17,240 acres of land under the Owsley Canals in Sec. 32, 33 T. 7 N., R. 34 E; Sec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 34, 35, T. 6 N., R. 34 E; Sec. 8, 17, 18, 19, 20, 29, 30 T. 6 N., R. 35 E.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
By

(Mrs.) Edna P. Rule
Chief Clerk

EPH:mr.

P. S. The water licenses will have a condition. "Not over 5 acre feet per annum per acre of irrigated land of all water rights shall be diverted. Not over 1 miner's inch of subterranean water per acre of irrigated land shall be diverted at any one time for all uses".

Examination for Completion of Works & Beneficial Use

County Jefferson

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

31-02345/31-07005

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
2. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- *** 9. The total instantaneous diversion of water from all points of diversion under Transfer 5335 shall not exceed 503.21 cfs during the irrigation season.
10. Approval of Transfer 5335 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- ** 11. Rights 31-00327, 31-00328, 31-00329 and 31-00330 when combined shall not exceed a total diversion rate of 200.00 cfs during the irrigation season, and may be diverted at their full authorized rate of diversion into Mud Lake for storage purposes during the non-irrigation season.
- * 12. Right 31-02289 is limited to irrigation of 160.0 acres in the place of use described above in a single irrigation season.
- * 13. Right 31-02290 is limited to irrigation of 240.0 acres in the place of use described above in a single irrigation season.
- * 14. Right 31-02297 is limited to irrigation of 340.0 acres in the place of use described above in a single irrigation season.

A. DESCRIPTION OF RIGHTS AS RECORDED:

Department of Water Resources
Eastern District Office

1. Rights evidenced by:

a. Decreed Rights:

- (1) Ernest Sauve, Plaintiff, vs. W. H. Abbott, et al, Defendants;
dated November 1, 1930; in the District Court of the United States for the District of Idaho, Eastern Division. Proceedings were held in Pocatello, Bannock County, Idaho, but the decree purports to allocate the waters of Mud Lake in Jefferson County, Idaho, and its tributaries. All lands irrigated through applicant's system are in Jefferson County. These rights were conveyed to applicant by an instrument entitled "Water Deed", dated May 1, 1956, recorded as Instrument No. 116320 in the records of Jefferson County, Idaho, on September 15, 1958; also in Book 55 of Water Deeds at page 309. A copy of this deed is attached hereto. The information for each such water right is listed as follows:

- | | | |
|-----|----------------------|--|
| (a) | Right No. - | 31-0134 (Page 47 of Decree, No. 70) |
| | Decreed to- | Los Angeles First National Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Camas Creek, a tributary of Mud Lake. |
| | Priority Date - | March 20, 1911. |
| | Water Used For - | Irrigation |
| | Amount - | 3.5 cfs |
| | Point of Diversion- | In Lot 4, Section 4, Township 6 North, Range 35 East, B.M. |
| | Place of Use - | 7.38 acres in Lot 7, Section 32, Township 7 North, Range 35 East, B.M. 41. acres in Lot 4, Section 4; 41. acres in Lot 1, Section 4; 52.25 acres in Lot 2, Section 5; all in Township 6 North, Range 35 East, B.M. |
| (b) | Right No. - | 31-0135 (Page 47 of Decree, No. 70) |
| | Decreed to - | Los Angeles First Nat'l Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Mud Lake |
| | Priority Date - | June 10, 1912 |
| | Water Used For - | Irrigation |
| | Amount - | 2.5 cfs |
| | Point of Diversion - | Near the Center of the Southwest Quarter of Section 5, Township 6 North, Range 35 East, B.M. |

SCANNED

NOV 12 2002

- Place of Use - 320 acres as follows: 40 acres in the Northwest Quarter of the Northwest Quarter; 40 acres in the Northeast Quarter of the Northwest Quarter; 40 acres in the Southwest Quarter of the Northwest Quarter; 40 acres in the Southeast Quarter of the Northwest Quarter; 40 acres in the Northwest Quarter of the Northeast Quarter; 40 acres in the Southwest Quarter of the Northeast Quarter; 40 acres in the Northwest Quarter of the Southeast Quarter; 40 acres in the Northeast Quarter of the Southwest Quarter - all in Section 8, Township 6 North, Range 35 East B.M.
- (c) Right No. - 31-0143 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G. B. Adams.
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - March 29, 1911
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - In Lot 4, Section 3, Township 6 North, Range 35 East B.M.
 Place of Use - Lots 3 and 4, the Southwest Quarter of the Northwest Quarter; the Southwest Quarter of the Southwest Quarter, the Northeast Quarter of the Southwest Quarter, and the Northwest Quarter of the Southwest Quarter, all in Section 3, Township 6 North, Range 35 East, B.M.
- (d) Right No. - 31-0144 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G.B. Adams
 Source - Camas Creek, a tributary of Mud Lake
 Priority Date - September 21, 1912.
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - Same as 31-0143.
 Place of Use - Same as 31-0143.
- (e) Right No. - 31-0190 (Page 60 of Decree, No. 99)
 Decreed to - Merritt M. Owsley
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - October 14, 1913.
 Water Used For - Irrigation
 Amount - 5.9 cfs
 Point of Diversion - A point South 73.75° East 1222 feet from the Northwest Corner of Section 3, Township 6 North, Range 35 East, B.M.
 Place of Use - The Southwest Quarter, the West Half of the Southeast Quarter, and the West Half of the Northeast Quarter, of Section 9, Township 6 North, Range 35 East, B.M.

(2) The Owsley Canal Company, Plaintiff, vs. Ernest Bauerle, et al, Defendants; dated October 14, 1940; in the District Court of the Ninth Judicial District of the State of Idaho, In and For Jefferson County. These rights were conveyed to applicant by instrument entitled "Water Deed", dated December 20, 1956, recorded as Instrument No. 120684, in the records of Jefferson County, Idaho on December 11, 1959; also in Book 81 of Water Deeds, at Page 56. A copy of this deed is attached. By this deed, Independent Water Users of Mud Lake, Inc., conveyed to applicant:

"An undivided one-third (1/3) in and to all of the water and water rights and diversion works of every kind, nature and description owned by said First Party, or in which First Party has any interest and particularly, but not limited thereto, an undivided one-third (1/3) interest in and to the water rights evidenced by Idaho Water License No. 17690 and Idaho Water Permit No. 17763."

The Bauerle Decree recites that Independent Water Users of Mud Lake, Inc., is the owner of this license and permit and appears to confirm or decree the rights represented in both the license and the permit. Subsequently the Permit, No. 17763/31-2254 was canceled for failure to submit proof of beneficial use. However, water has been diverted and applied to beneficial use each year in reliance on this right and the applicant has always relied on the decree as evidence of the rights, rather than the license or permit. We are attaching a copy of a letter from Mr. Bobby D. Fleenor of the Department to Don Shenton, dated June 4, 1974, explaining that the permit was canceled because after the entry of the Decree there was no longer any need to prove up on the permit, and the filing was unnecessary. The rights under this decree are described as follows:

(a) Right No. - 31-0336 (License No. 17690/31-2253)
 Decreed to - Independent Water Users of Mud Lake, Inc.
 Source - Ground Water
 Priority Date - April 27, 1932
 Water Used For - Irrigation
 Amount - Decree says 32.50 cubic feet per second, but combined with Right No. 31-0337 "an amount not exceeding in the aggregate the equivalent of 91.8 cubic feet per second, flowing continuously during the irrigation season from May 1 to November 1 of each year."

Point of Diversion - Northeast Quarter Northwest Quarter
 Section 3, Township 6 North, Range 35 E.B.M., Jefferson County.

Place of Use -

(6) Right No. - G-24047/31-2321
Licensed To - Dennis Green
Source - Ground Water
Priority Date - April 25, 1953
Water Used For - Irrigation
Amount - 1.92 cfs

Point of Diversion - Northwest Quarter Northeast Quarter Section 27, Township 7 North Range 35 E.B.M.

Place of Use - 36 acres in Northeast Quarter Southwest Quarter, 34 acres in Northeast Quarter Southeast Quarter, 26 acres in Northwest Quarter Southeast Quarter all in Section 8, Township 6 North, Range 35 E.B.M.

All of the above described Licensed Rights were deeded to the Jackett Canal Company shortly after its organization in 1956. copies of all of the deeds are attached.

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE:

1. Change in point of diversion:

- a. Amount of water to be diverted - the combination of all of the above described rights of the Jackett Canal Company amounts to 75 cubic feet per second. The decreed rights from Camas Creek are pumped out of Camas Creek at the points of diversion described below, so long as water is available to fill these rights. The seven wells maintained by the company are used only to the extent necessary to supplement the creek rights. Usually, this requires an increased use of the wells as the season progresses. Although the wells are usually operated to some extent from the time the irrigation season begins, in a sense, the wells are used as supplemental to the decreed rights from the creek.

b. Points of diversion -

- (1) Southwest Quarter Southwest Quarter, Section 13,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (2) Northwest Quarter Southeast Quarter, Section 22,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (3) Northwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (4) Southwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (5) Northwest Quarter Northeast Quarter, Section 27,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (6) Southwest Quarter Southwest Quarter, Section 33,
Township 7 North, Range 35 E.B.M., Jefferson County.

(7) Lot 4 (Northwest Quarter Northwest Quarter), Section 3,
Township 6 North, Range 35 E.B.M., Jefferson County.

- c. Description of diverting works - The Jakkett Canal Company diverts both its decreed water rights from Camas Creek as well as the decreed and licensed rights from its seven wells at two locations on Camas Creek. The company maintains two pumps on Camas Creek in the Southwest Quarter of the Southwest Quarter of Section 33, Township 7 North, Range 35 E.B.M., and five pumps on Camas Creek in Lot 4 (Northwest Quarter Northwest Quarter), Section 3, Township 6 North, Range 35 E.B.M. The seven wells are located two to three miles north and east of the company's diversions from Camas Creek. Each of the wells discharges water into ditches which convey the well water into the Independent Ditch which empties into Camas Creek upstream from the two diversion points of the company. The Independent Ditch commences at a point in the Southwest Quarter of the Southwest Quarter of Section 13 where several wells are located at a point known as Buck Springs and flows in a generally southwest direction to the center of Section 27, Township 7 North, Range 35 E.B.M., and then directly south for approximately a mile where it discharges into Camas Creek in Section 34, Township 7 North, Range 35 E.B.M. In addition to assisting with the maintenance of the Independent Ditch and the small conveyances which discharge into the Independent Ditch, as well as the Jakkett Canal system for distributing water to the lands of the stockholders south of Camas Creek, the company owns and maintains seven wells and fourteen pumps with electric motors ranging in size from 50 hp down to 20 hp.
- d. Describe the reasons for applying for a change in the points of diversion - The purpose of this entire application for

transfer is to conform the records of the department to the actual practice of the company which has been carried on since its organization in 1956. Some of the points of diversion as far as the actual records are concerned may be somewhat confusing because of the changes that were made at that time, as well as a result of the numerous deeds which the company received from individual stockholders as well as the Independent Water Users of Mud Lake, Inc. at the time of the organization. In fact, in reviewing the language of the deed from Independent Water Users of Mud Lake, Inc. to Jackett Canal Company in 1956, we observed that the deed purported to convey an undivided one-third interest in the wells and pumps and other diverting works, as well as the conveyance system and water right itself. There are actually five wells at Buck Springs, all located in the Southwest Quarter of the Southwest Quarter of Section 13, Township 7 North, Range 35 E.B.M. In actual practice, Jackett Canal Company has been treated as owning the two western most wells and Independent Water Users of Mud Lake, Inc. the three eastern most wells. In order to clarify this situation, the two companies have exchanged quit claim deeds on these wells, again to make the records conform to the actual practice. Copies of those deeds are enclosed with this application.

2. Change in place of use:

- a. Describe the lands or place of use to which the right will be transferred:

Total number of acres to be irrigated 3,107.23

- b. Draw a map indicating the new points of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township, and range number. The attached map showing lands of the company irrigated by its stockholders colored in yellow with points of diversion and location of wells shown in blue.
3. Remarks - An attempt has been made by the applicant to identify the exact property of its stockholders upon which the company water is to be used, as well as the points of diversion. Essentially, the actual practice of the company has been as shown for a period of nearly 22 years. Recently, when the company began to review its water rights, it was discovered that although they were deeded to the company in 1956, no effort had been made to transfer the water rights so that an equal amount was appurtenant to each acre of ground within the system. Indeed, we discovered that the records would show that some land had several water rights appurtenant and some of the company land had no water rights appurtenant. It is the desire and intention of the company that all of the company's water rights be transferred to all of the company's lands so that each acre has an equal amount of each of the company's rights appurtenant to it since this is the way the company has actually operated.

RECORDED

3. Remarks

I hereby assert that no one will be injured by such change and the change does not constitute an enlargement use of the original right. The information contained in this application is true to the best of my knowledge.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

31-0134

31-0143 31-0135

31-0144 31-0337

This is to certify that I have examined Application for Transfer of Water Rights No. 31-0190

31-0336 31-2289

and said application is hereby approved

31-2297 31-2310

31-2317 31-2321

1. Approval of said application is subject to the following limitations and conditions:

- (1) Any future transfer of any of these rights will cause the remaining rights to revert back to the original acreage. (2) The intent of this transfer is to record water delivery practices that have existed since 1956 - no change in delivery patterns is authorized. (3) Diversion of water authorized by this transfer shall not exceed 9321 acre feet per annum. (4) Measuring devices and controlling works of a type approved by this Department must be permanently installed and maintained at the points of diversion from groundwater. The existing measuring methodology shall be maintained at the points of diversion/re-diversion from Camas Creek. (5) Use of water under this transfer is subject to control by the watermaster of Water District No. 31, Mud Lake and tributaries.

Witness my hand this 23rd day of June, 1981.

02344/02345/07005

FROM: Pam Skaggs^{SS}/State Office

SUBJECT: Transfer 5335

DATE: February 9, 1999

Transfer 5335 combines the groundwater rights of the Holley Water Users, Jackett Canal Co, and Owsley Canal company. These three companies have combined under the Owsley Canal Company name and will operate a single combined system.

The application identifies 34 points of diversion and a combination of the land lists evidenced under each company's SRBA claims or 24261.3 acres. The decreed rights are vague, while the licensed rights identify specific acres and limits. SRBA review of all these rights through the adjudication process will provide specifics and verify the validity of all of these rights.

Review of these rights found that Right 31-02317 was actually licensed in two parts with separate rates and priority dates. These rights were more accurately entered as Parts A & B on the database and the additional 8.08 cfs added to the total diversion rate under this transfer. Also, a combined limit of 200.00 cfs during the irrigation season was identified under Rights 31-00327/00328/00329 & 00330. Right 31-02259 was listed on the application, however this right was superseded by Right 31-00330. After making these adjustments, the total rate of diversion under these rights is 643.21 cfs limited to 503.21 cfs during the irrigation season and 5,000 af storage.

Season of use and diversion volume were adjusted to current standards where specific acres were identified. Recommended conditions include watermaster control, supplemental groundwater, irrigation overlap, measuring/lockable controlling works, right-of-way, permissible place of use, combined limits and standard transfer conditions.
