Conversation Memo

Date: 3/15/01

From: Craig Saxton

Subject: Diversion Volume

Dave Langman and Tim Mayer called concerning the problems I had with making some of the changes they requested on the notice of error forms they submitted.

Claims: 31-02322 and 31-11229. FWS requested an increase of diversion volume from 900 AFA to 1260 AFA. My problem with that was that if they made that change it would decrease my evidence for 31-11229, thus I would need to decrease the diversion volume for that claim. Dave and Tim informed me that they no longer want to request that change. They asked if they needed to submit any information and I said no, and that I would write a Memo noting their request.

Claims: 31-02350 and 31-11230. This is the same situation as above, however, Dave and Tim do want me to make the changes on 31-02350 and thus decrease the diversion volume on 31-11230 to represent the historical evidence provided.

Claims: 31-11231 and 31-11232. In order to increase the volume on the beneficial use claims, I need an amended claim. They will send that to me by the end of next week (week of March 19-23).

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity

2. Describe the changes you wish to make in the proposed recommendation:

Change from 1375 AFY to 1936 AFY

3. Give a brief explanation as to why you disagree with these portions:

The claim provided the consumptive-use volume only. The preliminary recommendation inadvertently used this number as the total quantity to be diverted annually, The total quantity should be corrected as stated above.

I AGREE with this proposed recommendation: no changes need to be made.
