Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: March 9, 2001

Water right number: 31-¹⁰⁹⁶⁹~~2356A~~, 31-2356A, 31-2401, 31-10968, 31-2356B

BALL LAND L C
PO BOX 69
LEWISVILLE, ID 83431

Daytime Telephone Number: (208) 754-4651
Evening Telephone Number:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

I disagree that this is an enlargement, ~~of it~~
I disagree with the diversion rate
I disagree with period of use

2. Describe the changes you wish to make in the proposed recommendation:

Diversion rate should be increase per doc.
Change period of use

3. Give a brief explanation as to why you disagree with these portions:

Right developed before 1963. we will sign amended claim if needed.
So springs we need to water certain to keep our sandy soils from blowing.

I AGREE with this proposed recommendation: no changes need to be made.

DATE: 8 March 01

Re: Notice of Error Response

Dear Mr. Ball:

Recently you submitted Notices of Error on the preliminary adjudication recommendations for a number of water rights in the name of Ball Land LC, Ball Farms LTD, and Circle B Farms LTD Partnership. I have carefully reviewed the recommendations, along with your requested changes. This letter is a report of the changes I have made and an explanation of the changes I have not made.

ITEMS OF DISAGREEMENT

Season of Use

You disagreed with the proposed season of use on a number of the recommendations, and you have told me that your intent was to disagree on all your rights. You requested that the beginning of the authorized season be March 15, to allow early irrigation during dry, windy springs which sometimes occur in Hamer.

Annual Diversion Volume

Certain of your rights were proposed to be recommended with annual diversion volume of 3.0 acre feet per acre. You requested that all your rights be recommended at the current standard for your area of 3.5 acre feet per acre.

Diversion Rate

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 all partly overlap lands that were developed for flood irrigation in the 1950's, as evidenced by the licensing exam for original license 31-2356. The proposed recommendation only included the licensed diversion rates, but you requested that the additional diversion rate documented in the licensing exam be recommended.

Rights 31-7067, 31-7155, 31-7156, and 31-7219 were proposed to be recommended at the original licensed rates of less than 0.02 cfs/acre. You disagreed and requested that they be recommended for a full 0.02 cfs/acre.

Enlargement

Right 31-10969 was proposed for recommendation with a remark identifying it as an "enlargement." You disagreed, on the grounds that the development took place prior to 1963.

Acres

You disagreed with the total acres recommended under rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970.

RESPONSE

Season of Use

I am not able to change the recommendations for Season of Use, though this is an issue that you may wish to discuss with the judge, through a formal objection. Many of your older licensed rights (numbered 31-2XXX) were originally issued without a listed season of use. Rights based on beneficial use (numbered 31-10XXX) have never before been reviewed by the department, and have never had a formal season of use defined. With this class of rights, your burden before the court would be to demonstrate that the earlier date is reasonable, and has occurred historically.

License 31-2419, as well as all the licenses numbered 31-7XXX, were originally issued with a season of use beginning April 1. Besides demonstrating that March 15 is a reasonable and historical beginning date, you would have to explain why the original licenses were accepted without challenge.

Annual Diversion Volume

The annual diversion volume for 31-7036, 31-7040A, 31-7067, 31-7155, 31-7156, and 31-7219 has been adjusted to the current standard of 3.5 acre feet per acre.

Diversion Rate

The diversion rate of the group of partly overlapping water rights was adjusted as explained below. The other licensed diversion rates I did not adjust. These can only be adjusted by the Allocations Bureau of IDWR.

One adjustment process is to amend the original license. This is very difficult. It requires a finding that the original license was obviously in error, along with a finding that the claimed diversion capacity was in place at the time of the original licensing examination. At a minimum, this requires a written report by a Licensed Professional Engineer, along with receipts and documentation of the original diversion works. The other process is to request a new permit based on pre-moratorium development. This requires solid documentation that the claimed diversion capacity was in place and used for beneficial use prior to November, 1987.

I am not encouraging you to pursue either of these options, but explaining to you what your options are.

Enlargement

The remark identifying 31-10969 as an enlargement was removed.

Acres

The acres on the group of overlapping rights were adjusted to reflect the 1987 aerial photography. This is explained below.

Group of Overlapping Rights

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 cover lands in 7N 36E section 13 and 7N 37E section 18. The recommendations were changed significantly on these rights, based on a careful review of the history of development.

The first phase of development was a flood irrigation system in the east half of section 13, under license 31-2356. It used two wells in the approximate locations of current wells #1 and #3. This was licensed for 0.02 cfs (one miner's inch) per acre on 175 acres. This was the standard diversion rate at the time, though the licensing examiner found significantly more capacity. Based on analysis of similar soil types on nearby farms, I believe 0.03 cfs/acre is more appropriate for this original use, and the original capacity was

adequate for that rate. Right 31-10970 is recommended as a beneficial use right for additional diversion rate, with priority date 7/16/1958 (the date of the licensing exam).

The next phase of development appears to be the installation of a sprinkler system in the NE quarter of section 13, of about fifty acres. This is recommended as beneficial use right 31-10969, with a priority date of 1962, from the John Wood affidavit.

In the early 1960's, licensed right 31-2401 was developed, apparently out of well #2. The licensing exam was performed in 1967, but the right bears the permit priority date of 1962. The examiner's notes indicate that the system was developed in its current location of the SW 1/4 of section 18, but the original license describes the NW 1/4.

Finally, in 1968 additional lands of about 77 acres were developed with the addition of sprinklers and pivots. This filled in the SE 1/4 of section 13 and the pivot in the center of the south 1/2 of section 13. These are recommended as enlargement 31-10968.

In recommending these rights, I have coded "accomplished transfers" to the current wells and places of use. To balance the diversion rate per acre of these original rights on the currently irrigated lands, to reflect the original relationship between lands and wells, and to match the current configuration of the diversion systems, I have combined these rights into two blocks of "permissible place of use."

The north block is the pivot that operates from well #3. To this system is recommended all of beneficial use right 31-10969, plus enough of licensed right 31-2356 (as recommendation 31-2356A) to authorize a full 0.02 cfs/acre on the 109 acres identified by aerial photography.

The south block is the large pivot west of well #1, the small pivot east of well #2, and the field in between. It is recommended for a total of 6.06 cfs on 303 acres. It includes the remainder of right 31-2356 (31-2356B), licensed right 31-2401, beneficial use right 31-10970, and enlargement 31-10968. These rights have a number of combined use limitations added to clarify the relationship between the rights. The main effect of these limitations will be to define the original extent of the rights, to facilitate any possible future transfers.

This recommendation incorporates the historically developed diversion rate and allows a full 0.02 cfs/acre on the entire place of use, with annual diversion volume of 3.5 acre feet per acre. The recommendation authorizes irrigation of all currently irrigated acres, and allows the flexibility to balance the production of wells #1 and #2 as needed.

I have attached copies of preliminary reports for all the recommendations I modified, along with maps of the revised recommendations for the lands in section 13 and section 18. Please review these carefully and contact me if you have questions or concerns.

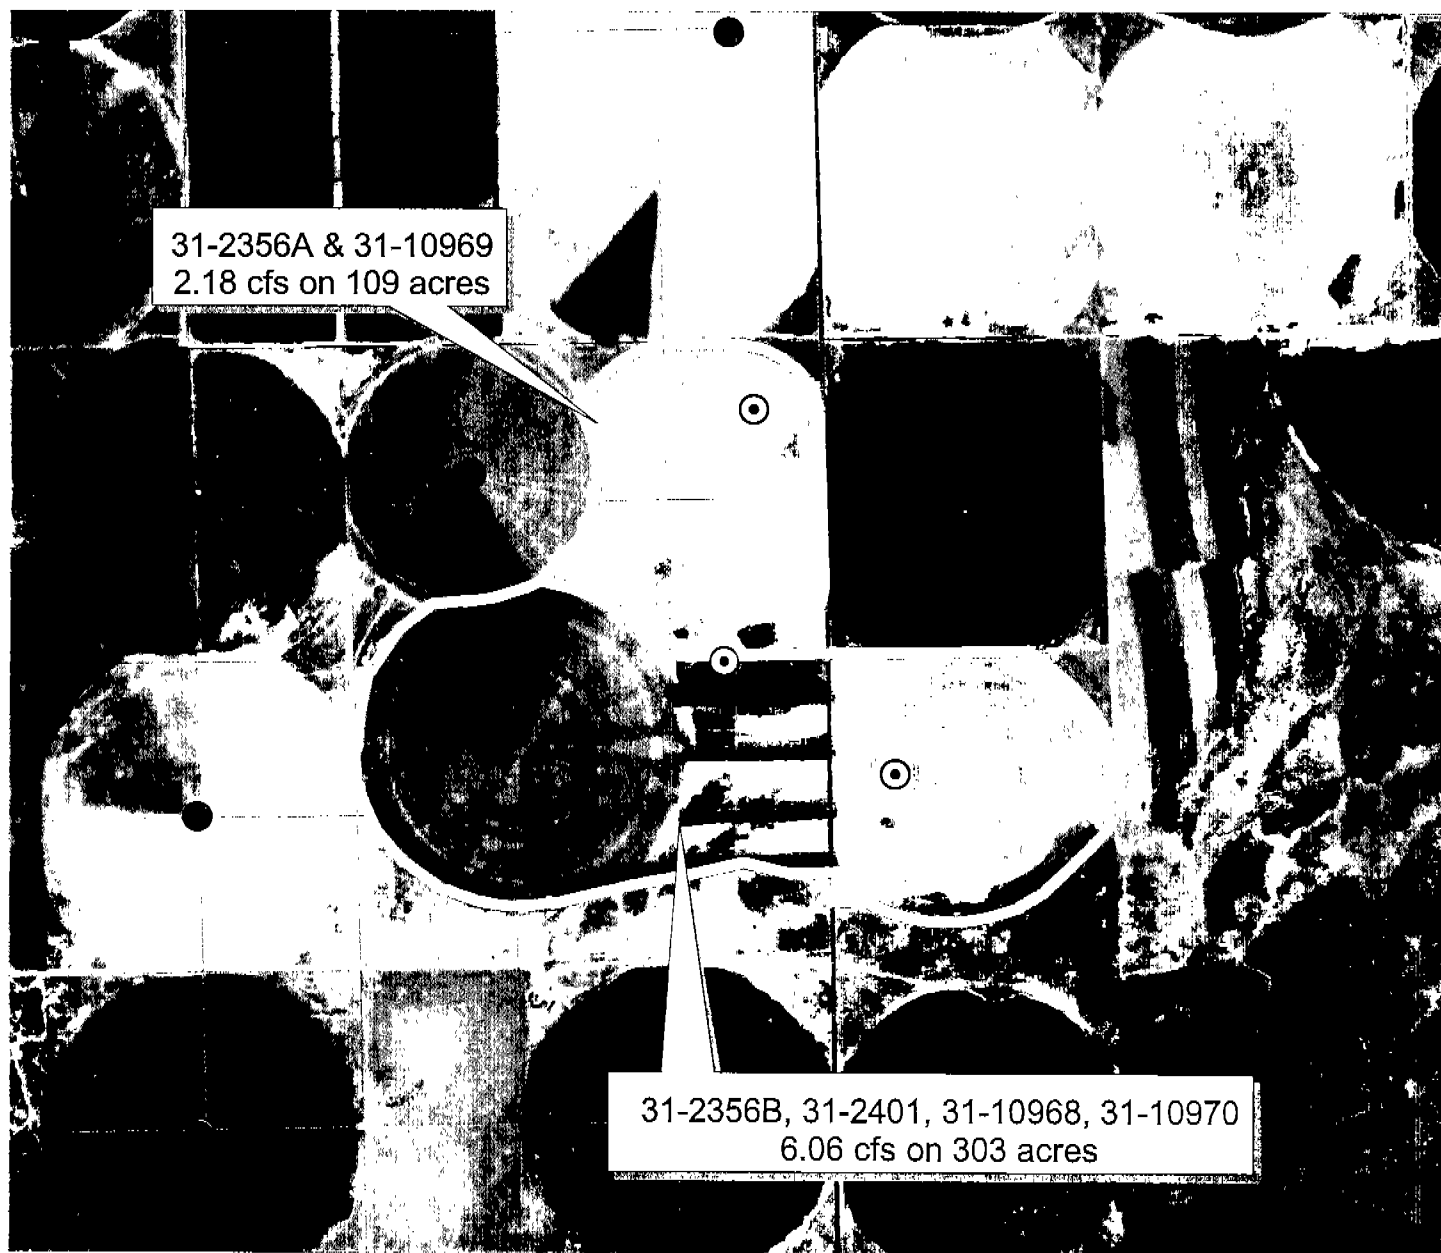

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

Ball NOE Investigation p 3

(3-10969 documentation) Liberal interpretation indicates an additional 50 acres pre-1963 in W/2 NE 1/4 of 13. As this is sprinkler ir, $50 \times 0.02 = 1.0$ cfs. Adding to license-exam-based recommendable amounts gives $285 + 50 = 335$ acres, $7.44 + 1.0 = 8.44$ cfs. This is still less than ^{original} capacity of $6.54 + 2.19 = 8.73$ cfs but not by much.

Current shape ≈ 412 acres per GIS
 $412 \times 0.02 \approx 8.24$ cfs

Well #3 system ≈ 109 acres, 2.2 cfs ≈ 0.02 /acre

Well #1 system ≈ 141 acres, 2.42 cfs ≈ 0.02 /acre

Well #2 system ≈ 162 acres, 2.2 cfs ≈ 0.014 /acre

Overall 412 acres, 6.8 cfs ≈ 0.0165 /acre

recommendable $Q = 8.24$ cfs @ 0.02 /acre, based on accomplished transfers of ben. use rights, limited to 0.02 even though orig. capacity was more because of poor documentation regarding whether SD sprinkler irr. acres were in addition to, or overlapping, orig. flood irr. acres.

Section 18 well (31-24015 31-10968) has insufficient capacity for recommended shape. However documentation clearly shows west part of shape originally irr. out of Well #1, per Carl Ball cement system (changed since WMD exams) also has that capability.

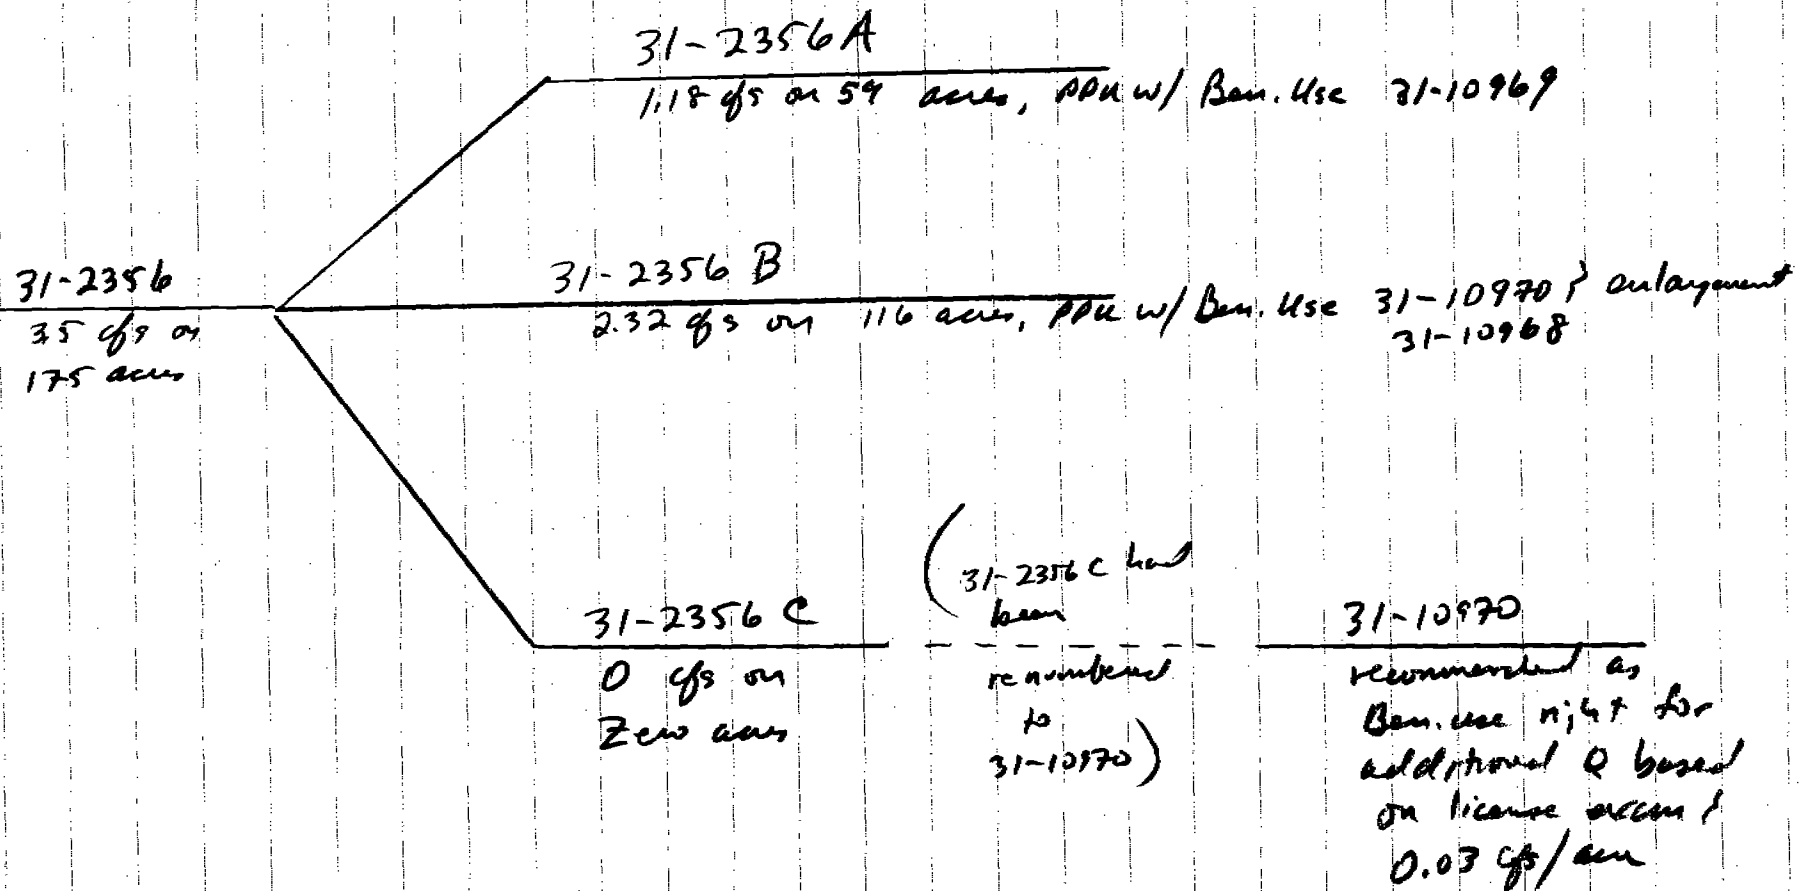

Ball NoE p 7

Conclusion

Recommend Well #1 & Well #2 on PDU basis @ 0.02/acre, 31-2401, 31-2356B, 31-10968, and 31-10970. Recommend all of 31-2401 acres & Q, adjust 31-2356B acres & Q to achieve 0.02/acre. Rest of acres as enlargements under 31-10968 & 31-10970. (303 acres)

Recommend Well #3 @ 0.02/acre w/ 31-2356A adjusted to reflect 31-2356B, 31-10969 as gen. use right for add'l required acre & Q. (109 acres)

RE: CHANGE IN OWNERSHIP FOR A31-02356A, A31-02356B,
A31-02401, A31-07036, A31-07219, A31-10968, A31-10969,
A31-10970

Dear Mr. Ball:

The request for Change in Ownership concerning the Notice(s) of Claim in the above reference has been processed and the Notice(s) modified to reflect you as the new owner(s).

Enclosed is a copy of the Notice(s) of Claim, with your name shown as the current owner. Review the forms and if there are other corrections or questions, feel free to contact this office.

If there are no questions or corrections, please keep this Notice for your records.

Respectfully submitted,

Jennifer Hoagland
Technical Records Specialist

Enclosure: Notice(s) of Claim

DELOG 4/8/98 SVH
SVH 4/10/98 OK

RECEIVED
APR 08 1998
Department of Water Resources
Eastern Region

STATE OF IDAHO
IDAHO DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.

Incomplete forms will be returned.

1. Water Right Number(s) A31-10970, A31-023520, A31-10969, A31-02356A
Adjudication Claim Number(s) A31-07036, A31-02401, A31-10968, A31-07219

2. The following **REQUIRED** information must be submitted with this form.

- A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE, or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.
AND
B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually on file with the county.)
OR
C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency (formerly ASCS) AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.

3. Name and Address of Former Owner/Claimant(s) Est of A Vernon Ball
P.O. Box 66 Lewisville ID 83441

4. New Owner/Claimant(s) Ball Land L.C.
Name connector (Check one): ☐ AND, ☐ OR, ☐ AND/OR
New Mailing Address P.O. Box 69
City, State and ZIP Code Lewisville ID
New Telephone Number (208) 754-4651

5. Date you acquired the property _____

6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.

Number of acres actually irrigated _____ Number and type of stock _____

Diversion rate in CFS _____ Number of homes _____ Other uses _____
cubic feet per second

If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner/Claimant(s) Carey Ball Date Apr 18, 1998
Date _____

8. (Corporations or other organizations must submit a list of directors/officers demonstrating authority to sign form.)
For Snake River Basin Adjudication Claims: If you are represented by an attorney and you want IDWR to correspond directly with your attorney for all matters related to your claims, please attach a Notice of Appearance completed by your attorney.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

IDWR Western Region, 2735 Airport Way, Boise, ID 83705-5082 (208) 334-2190

Payment has not been received as directed in the certified letter you received on February 4, 1992. Rather than returning the claims to you, the record of the claims will go into a rejected status and remain in that category until payment is received from you. The account will continue to accrue interest, and any fees will not be returned whether the claims are investigated or not.

This will be your last notice until such time as the findings of the Director are included in his report to the Court of the water right claims in that area. Without further payment on the claim fee account, the findings of these claims will be that the claims were rejected for insufficient fees.

If your payment and this letter pass in the mail, I apologize for this letter.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

State of Idaho License and Certificate of Water Right

Water License No. G-26580 Amount 3.5 c.f.s.
Water District No. _____ Priority Sept. 26, 1956

THIS IS TO CERTIFY that PHIL S. PETERSON
of Hansen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated Sept. 26, 1956; that Permit No. G-26580
was issued under said application; that Certificate of Completion of work, with a carrying capacity of
3.5 second feet, was issued thereunder on July 31, 1959, showing that said works
were completed on the 27 day of May, 1958; and that on the 27
day of May, 1958.

PHIL S. PETERSON
of Hansen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of two wells
a tributary of subterranean flow, for the purpose of irrigation
under Use Permit No. G-26580 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6709, on the 31 day of July, 1959;
The right hereby confirmed dates from September 26, 1956;

The Point of Diversion is located NE 1/4, NE 1/4
in the 1/4 1/4, Sec. 13, Tp. 7 N., R. 36 E., B. McJefferson County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 3.5 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 N.	36 E.	13	NE 1/4 NE 1/4	40	35
			SE 1/4 NE 1/4	40	40
			NE 1/4 SE 1/4	40	40
			NW 1/4 SE 1/4	40	40
			SW 1/4 SE 1/4	40	10
			SE 1/4 SE 1/4	40	10
Total number of acres to be irrigated:					175

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
31 day of July, 1959.

(SEAL)

s/ GEO. N. CARTER
State Reclamation Engineer.
