MEMORANDUM

To: Bitter AS Files

Fr: Bryce Cantor

Date: 1/15/01

Re: Recommendations

It is clear that the intent of the amended claims was to more evenly distribute acreage and diversion rate among the pivot systems, as accomplished transfers. Preliminary worksheets indicate that this can best be accomplished by asserting PPA's on both sides of the county road.

This also more correctly reflects the fact that with installation of pivots, lands are watered from different wells than originally licensed.

Permissible Place of Use "A" is pivots 1, 2, 3, and 4, on the East side of the road, diverted from wells #100 and #500. It will be recommended as follows:

31-2328	400 acres	5.00	afs
31-2360	214 acres	2.68	afs
31-2375B	40 acres	0.74	afs
	<u>654 acres</u>	<u>8.42</u>	<u>afs</u>

Recommendations p 2

Acres will be limited to 598, Volume to $598 \times 3.5 = 2093$ cfs.

This will result in $8.42/598 = 0.014$ cfs/acre. Total system capacity is ≈ 8.5 cfs, so this will recommend $\approx 0.99 \times$ full capacity.

Permissible Place of Use "B" is pivots 5, 6, 7, on the west of the road, diverted from wells # 600 and # 1100. It will be recommended as follows:

31- 2329 (recombined)	240 acres	3.00 cfs
31- 2375	<u>259 acres</u>	<u>4.77 cfs</u>
	499 acres	7.77 cfs

Acres will be limited to 482, Volume to $482 \times 3.5 = 1687$ cfs.

This will result in $7.77/482 = 0.016$ cfs/acre. Total system capacity is ≈ 8.2 cfs, so this will recommend $\approx 0.95 \times$ full capacity.

I plan to proceed with this recommendation on the interpretation that it reflects the intent of the amended claims. I will also send an amended claim 31-2329 to recombine 31-2329 and 31-2329 B, for signature.
