Review of Q from NWMD:

Examiner found this POD serves two center pivots, that claimed under this WR (2KA1) and another immediately east (2KA2). Total pumping capacity measured at 1884.5 GPM $\approx$ 4.2 cfs. Capacity for this diversion $\approx \frac{4.2}{2} = 2.1$ cfs.
 $130 \times 0.02 = 2.6$ cfs.

Recommend as claimed; if NDE process justifies, suggest amended claim @ 1.89 (original rate/acre on 130 acres).

Re: QNT remark, Enlargement

Right 31-10699 is claimed and recommended as an enlargement of 31-07093, 31-07136, 31-07137, and 31-07138. Because it is not delivered out of the same well as these rights, and because the delivery systems are not interconnected, the usual combined and individual POU limitation remarks are not used.

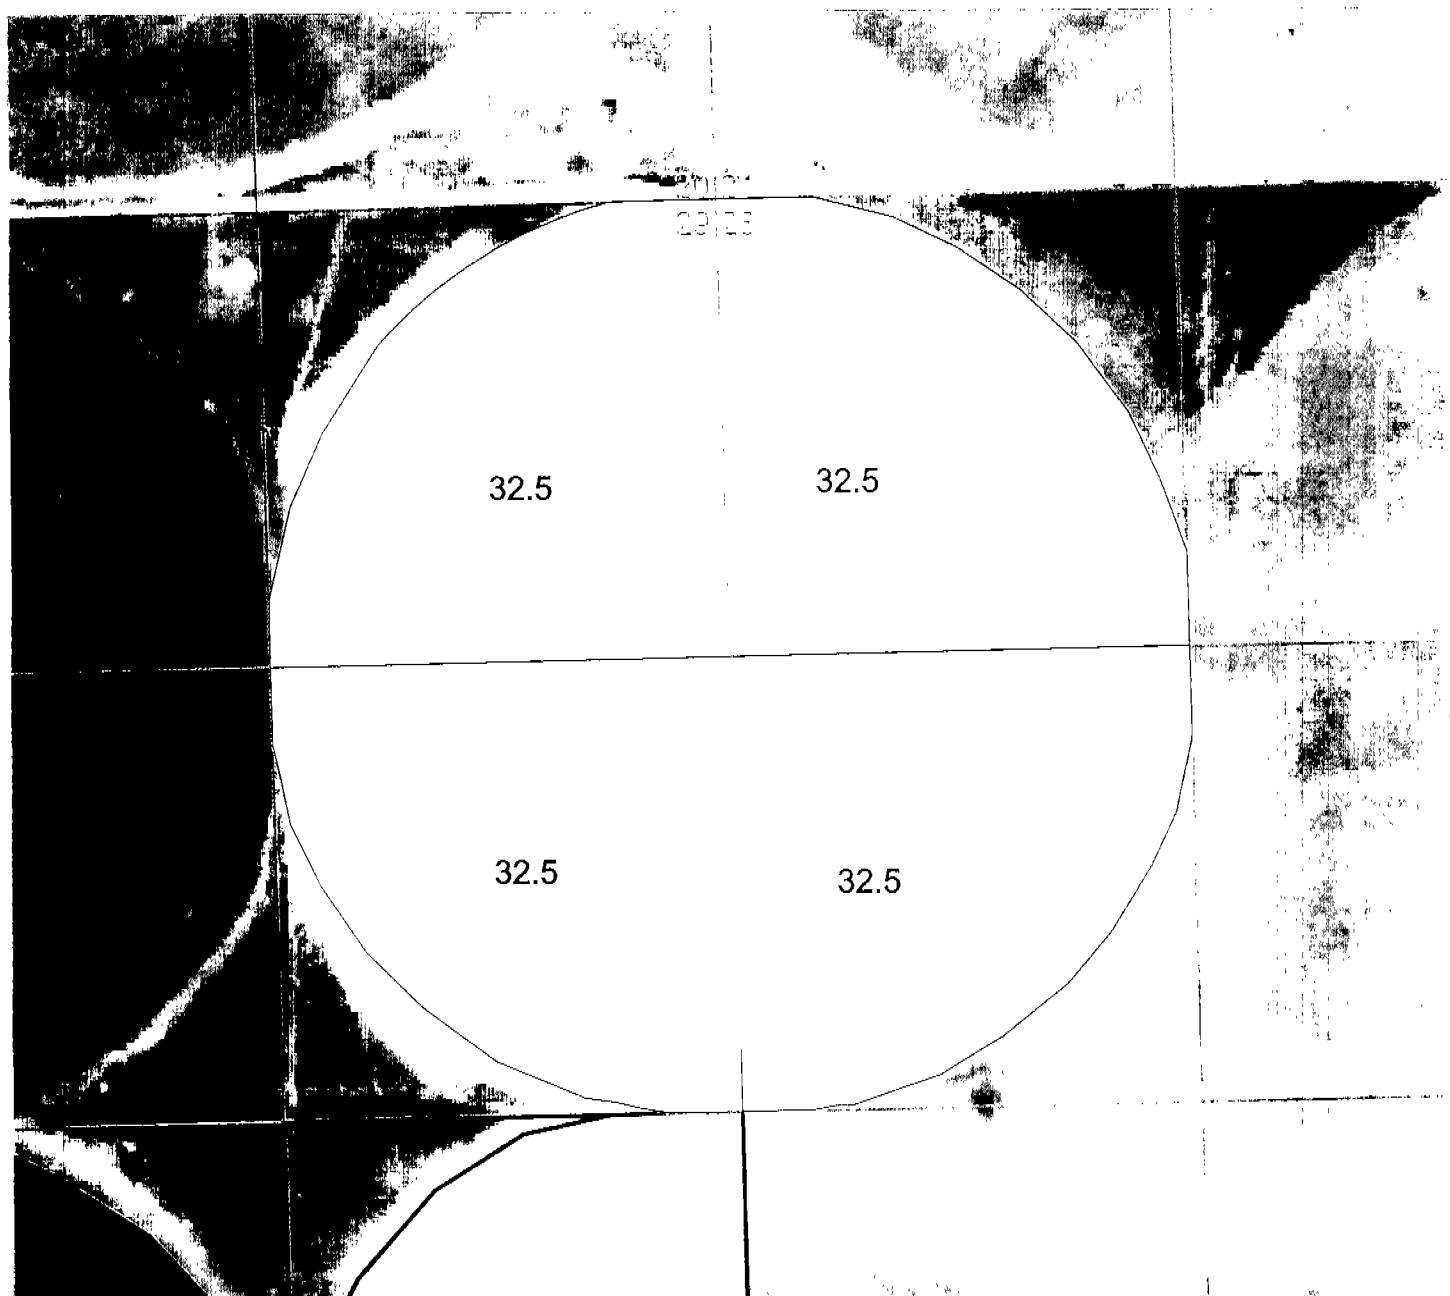

Because 31-02365A, 31-02365B, and 31-02374D are diverted out of the same diversions as either 31-10699 or the rights from which it is enlarged, all these rights are included in a QNT combined diversion rate limitation remark. The limited quantity (11.58 cfs) is the sum of the recommended diversion rates for all these rights. NWMD records show an approximate combined capacity of 13.7 cfs for all the systems.

31-10699 was originally proposed for disallowal because additional diversion capacity was developed along with the enlargement. Per consultation with Assistant Attorney General Candice McHugh, this claim is recommended and the claimant is invited to apply for a permit for the additional diversion rate.

Re: Walker Land & Cattle, North District

Attached is a summary from an office review I did this morning with Blair Walker, Mike Hathaway, and Gary Miller of Walker Land and Cattle. There are several different address ID's representing purchased and leased ground.

All the diversions in the North District are suitable for measuring using power records. A few will require tracking, as noted. Follow-up date for all diversions is "1998/1999."

Contact numbers are:

Blair Walker	589-3276
Gary Miller	754-4696
Mike Hathaway	589-4589
Steve Carpenter	589-6603

Please data-enter the following comment in the first record:

"Except as noted, Walker's systems are 1 well/1 pivot, or 1 well/2 pivots always operated together. Suitable for PCC w/o tracking. Contact Gary Miller about POD's & water rights, Mike Hathaway about measuring in East District, Steve Carpenter about measuring in North District."

Thanks, Bryce

Re: Competing Claims, Ownership Review

Description

Original WR 31-02365 covered 480 acres in sections 28, 29, and 30 of 8N 37E. Competing claims A31-02365A (Walker, 1989, 130 acres), A31-02365B (Walker, 1989, 30 acres) and A31-02365C (Larsen, 480 acres, 1992) were filed based upon this WR.

Transfers 4687 and 4688 split the underlying water right into B, C, and D. The Larsen claim was split into D, E, and F.

Analysis of Claims

The attached analysis indicates that the competing claims fall into two classes:

A. Claims corresponding with POU of post-1987 formal transfers.

The Larsen claims "D" and "E" correspond to the WR splits "B" and "D," moving POU and POD to new locations. There is no apparent conflict with Walker Claims.

Larsen claim "F" and Walker claim "A" compete for parts of the original WR, on the original POU.

B. Claim not corresponding with POU of post-1987 formal transfers.

Walker claim A31-02365B is for 30 acres in NESW of section 28. This tract was not included in the original license nor in any of the post-1987 transfers.

Ownership Review

Ownership of claims "D" and "E" was not investigated because of no apparent conflict. A review of the 1995 tax notices in the WR microfiche and a phone call to the Fremont

County Assessor indicate that Walker owns the POU of all the Walker claims. Larsen appears to own the POU of the non-competing parts of his claim "F."

Conclusions

A31-02365A, Roland Walker

Proceed with CVR review and recommend as appropriate, based on Walker's ownership of POU. This will only be a portion of WR split "C."

A31-02365B, Roland Walker

Disallow, based on the fact that the claimed POU is described neither in the license nor in the post-1987 transfers. *per Enrie, review - pre 87*

A31-02365D, Blaine Larsen

A31-02365D, Blaine Larsen

accomplished transfer. Post-87 formal transfer would not necessarily be binding on unchanged portion.

Recommend to Al Ruberry that he continue w/ CVR review, based on lack of apparent conflict & post-1987 transfer.

A31-02365F, Blaine Larsen

Proceed with CVR review and recommend as appropriate those parts of WR split "C" not recommended to Walker.

In the files is a memo about conflicting claims between Walker and Larsen. Today I called the courthouse and researched ownership, it looks like all the conflict is in the splits that fell in my area and you are clear to sail on these two in your area.
