31-07137

1) Poa

 31-02335C

 31-02374A

 31-07091

 31-07137

$$\text{Total acres} \approx 8 \times 32 + 80 = 256 + 80 = 336$$

$$256 \times 3.5 = 896 \quad 256 \times 3 = 768$$

$$336 \times .02 = 6.72$$

$$336 \times 3.5 = 1176$$

2) Diversion rate - Section 29 well

$$256 \times 0.02 = 512$$

$$\frac{1.78}{145.2} \times 65.2 = .80$$

31-02335C

2.16 cfs

31-07091

2.19 cfs

31-02374A

.80 cfs

5.15 cfs

NWMD exam:

2010 GPM $\approx$

4.5 cfs

WR 31-07091 includes limitation of 5.38 cfs / 768 Afa.

5.38 cfs is capacity measured 5/12/77 in ³¹⁻⁰⁷⁰⁹¹ licensing exam. 768

Afa is licensed volume for 31-07091. Transfer files in microfiche

31-02335, 31-02374, 31-07091 reviewed. From license exam 31-07091

it appears this limitation applies only to the overlapped portions of 31-02374A.

RE: REQUEST TO CHANGE CONTACT REPRESENTATIVE

Dear Mr. and Mrs. Larsen:

The water rights listed on the enclosed page have been modified to show Steve Vadnais and Tina Bradley as the current representative.

If you have any questions feel free to contact this office at 525-7161.

Respectfully submitted,

Cheri Vandermeulen

Re: Change of Contact Representative

Dear Ms. Vandermeulen:

This letter is to let you know of the change we are making regarding our contact representative for Larsen Farms and the water rights. Please change our contact representatives from David Jensen and Jason Freckleton to Steve Vadnais and Tina Bradley. This will include all water rights pertaining to Blaine Larsen and Larsen Farms.

If you have any questions, please feel free to call me at 662-5501.

Thank you for your time.

Sincerely,

Blaine Larsen
President, Larsen Farms

Re: QNT remark, Enlargement

Right 31-10699 is claimed and recommended as an enlargement of 31-07093, 31-07136, 31-07137, and 31-07138. Because it is not delivered out of the same well as these rights, and because the delivery systems are not interconnected, the usual combined and individual POU limitation remarks are not used.

Because 31-02365A, 31-02365B, and 31-02374D are diverted out of the same diversions as either 31-10699 or the rights from which it is enlarged, all these rights are included in a QNT combined diversion rate limitation remark. The limited quantity (11.58 cfs) is the sum of the recommended diversion rates for all these rights. NWMD records show an approximate combined capacity of 13.7 cfs for all the systems.

31-10699 was originally proposed for disallowal because additional diversion capacity was developed along with the enlargement. Per consultation with Assistant Attorney General Candice McHugh, this claim is recommended and the claimant is invited to apply for a permit for the additional diversion rate.

Re: Overlap Review, Ownership Review.

Bryce

*See Item 7:
Re: Forfeiture*

1) Description

These rights are appurtenant to the E 1/2 of the SE 1/4 of Section 30, the S 1/2 of Section 29, and the W 1/2 of the SW 1/4 of Section 28, all in T 8N R 37E. See attached sketch.

31-02335C covers the lands in Section 30 and the SW 1/4 of Section 29. It is the remaining portion of 31-02335, after corners were transferred off. 31-02374A covers the SE 1/4 of Section 29. It is the remaining portion of 31-02374, after transfer of corners.

31-07237 covers the lands in Section 28, and overlaps half of 31-02374A on the E 1/2 of the SE 1/4 of Section 29.

31-07091 overlaps all of 31-02335C and the half of 31-02374A on the W 1/2 of the SE 1/4 of Section 29.

There are two PODs. One POD in Section 29 serves the west two pivots (Section 30, SW 1/4 of Section 29, and W 1/2 SE 1/4 of 29). The second POD serves the east pivot (E 1/2 SE 1/4 of 29 and W 1/2 SW 1/4 of 28).

2) Overlap Considerations

WR 31-07091 contains a condition imposed at licensing which limited 31-07091, 31-02335, and 31-02374 to a total of 5.38 cfs. This was the capacity of the west diversion at the time of the licensing exam. 31-02335, 23-02374, and 31-07091 were originally licensed only to this POD. Therefore this limitation made sense originally.

WR 31-07091 also contains a condition imposed at licensing limiting the combined annual volume of these three rights to 768 acre feet annually. From the overlap review in the licensing file, it appears that this restriction was intended only to apply to the portion of 31-02374 which overlapped 31-07091.

WR 31-07137 does not have a combined use limitation in combination with 31-02374A, but the licensing exam shows that the diversion rate authorized under 31-07137 included an allowance for the overlap of 31-02374.

3) Ownership Issues.

Per the Fremont County Assessor's Office 3/8/2000:

The west two pivots belong to Blaine Larsen. These correspond to rights 31-02335C, 31-07091, and the west 1/2 of 31-02374A. Larsen filed claims based on these licenses. His claim A31-02374 and subsequent A31-02374A include lands in the E 1/2 of the SE 1/4 of section 29, which are not now owned by Larsen. A map supplied by Larsen's office to NWMD in 1997 indicates Larsen only owns the west two pivots.

Per the assessor's office, the east pivot belongs to Roland Walker. This corresponds to right 31-07137 and the east 1/2 of 31-02374A. Walker has filed a claim based upon 31-07137 but not on 31-02374A.

Due to the overlap issue and the accomplished change in POD discussed below, I plan to split claim A31-02374A into "C" and "D." I have sent a letter inviting Walker to submit a Notice of Change of ownership. If he does not submit it, I will recommend both portions to Larsen, with POU as claimed.

4) Point of Diversion Issues:

The licensing exam for 31-07137 (1976) includes an overlap analysis of 31-02374, indicating an accomplished transfer adding a second POD to the latter right. However, this was not claimed, and not recognized by the post-1987 formal transfer which split 31-02374 into "A" (west) and "B" (east). However, since "A" is the unchanged portion of the right, it is likely that the transfer review focused on the "B" portion. Therefore I assume that the lack of inclusion of the second POD on 31-02374A is an oversight, rather than an administrative decision to disallow the accomplished transfer.

Based on this assumption, I plan to recommend A31-02374B with the east POD as an accomplished transfer, with date of accomplished transfer based on the 1976 licensing exam. All other claims will be recommended with POD as licensed and claimed.

5) Diversion Rate Issues:

With the reduction in diversion rate and acres due to the transfers, rights A31-02335C, A31-07091, and A31-02374C now sum to 5.15 cfs. This is less than the original limitation of 5.38 cfs included in license 31-07091. The recommended acres will be based upon the post-87 transfers, or 258.9 acres. $258.9 \times 0.02 = 5.18$ cfs, therefore no combined diversion rate limitation will be required for these rights.

The licensed POU for the east pivot is 145.2 acres, which would justify a combined diversion rate of 2.90 cfs. The recommended water rights will sum to 2.89 cfs, so no limitation will be required for these rights.

6) Annual Volume Issues:

The licensing limitation of 31-07091 (768 afa) will be retained for the water rights recommended to the west two pivots.

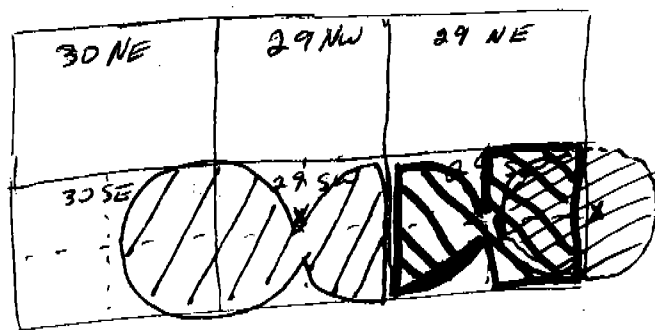

The east pivot will have a combined volume limitation of 504 afa (3.5 afa/acre). This is more than the licensed limitation for 31-07137, but 31-02374 did not originally have a volume limitation and 31-07137 does not have a limiting condition in combination with 31-02374.

7) Forfeiture of Place of Use.

The entire 80 acres of the E 1/2 of the SE 1/4 of Section 29 are licensed under 31-02374A. However, the 1976 licensing exam, the 1987 NAPP photos, and the 1998 North Water Measurement District Exam all show that the corners were not irrigated. However, since the full 80 acres was authorized by post-87 transfer, it is recommended. If an objector raises the issue of forfeiture, the evidence in the file would support the objector's position.
