This right shares its p.o.d. with A31-02425. The field exam for licensing 31-02425 indicates 6 1/4 mile lines. The licensing field exam for 31-02384 indicates 12 1/4 mile wheel lines and both the SE 1/4 of Sec. 14 and the NE 1/4 of Sec. 23 as being irrigated. Both field exams describe 150HP motors on the same Peerless pump. The AS field exam found a 200HP GE motor on the same Peerless pump that was found in the two licensing field exam. The exam for 31-02384 found the 12 1/4 mile lines producing 4.40 cfs. Therefore, it can be assumed the system capacity is the 4.40 cfs. (license 31-02425 states a capacity of 2.52 cfs)

Does not like the combined diversion rate limit of 4.40 cfs. This limit was based on 1966 field exam for 31-02384 which observed 12 handlines. The licenses are not limited against one another. Therefore the combined limit will be removed.

He also would like the diversion rate for 31-02384 restored to 3.12 cfs from the 2.98 cfs recommended. He is willing to accept the 149 acres of irrigation, but needs the higher diversion rate to run his pivot. I agreed to remove the combined diversion rate limit and restore the diversion rate for 31-02384 to 3.12 cfs.

Called Mr. Newman back at (208) 657-2203.

I asked him if he wanted to amended his claims to show a permissible place of use. He said he would like to amend his claims. Amended claims prepared and mailed to him on 1-31-01

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:
