Liconso and Certificate of Water Right

Water License No. 0-30101 Priority May 10, 1902 Amount 100 c.f.s.

THIS IS TO CERTIFY that COLLEEN JOHNSON of Blaine, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated May 10, 1902, that Permit No. 0-30101 was issued under said application; that a Certificate of Completion of Works, with a carrying capacity of 100 c.f.s., was issued thereunder on April 14, 1904, showing that said works were completed on the 14 day of April, 1904, and that on the 14 day of April, 1904, COLLEEN JOHNSON, of Blaine, Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of a right to the use of the waters of a well

a tributary of a subterranean flow for the purpose of Irrigation under the Permit No. 0-30101 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record on May 10, 1904.

The right hereby confirmed dates from May 10, 1902. The Point of Diversion is located in the NW 1/4 Sec. 18, Twp. 20 N., R. 12 E., BM. Jefferson County. That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 100 c.f.s. (cubic feet per second). Description and location of use:

Acres	Tracts	Section	Range	County	No. Acres Permitted as Right	No. Acres Actually Irrigated

Re: Notice of Error Response

Dear Mr. Ball:

Recently you submitted Notices of Error on the preliminary adjudication recommendations for a number of water rights in the name of Ball Land LC, Ball Farms LTD, and Circle B Farms LTD Partnership. I have carefully reviewed the recommendations, along with your requested changes. This letter is a report of the changes I have made and an explanation of the changes I have not made.

ITEMS OF DISAGREEMENT

Season of Use

You disagreed with the proposed season of use on a number of the recommendations, and you have told me that your intent was to disagree on all your rights. You requested that the beginning of the authorized season be March 15, to allow early irrigation during dry, windy springs which sometimes occur in Hamer.

Annual Diversion Volume

Certain of your rights were proposed to be recommended with annual diversion volume of 3.0 acre feet per acre. You requested that all your rights be recommended at the current standard for your area of 3.5 acre feet per acre.

Diversion Rate

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 all partly overlap lands that were developed for flood irrigation in the 1950's, as evidenced by the licensing exam for original license 31-2356. The proposed recommendation only included the licensed diversion rates, but you requested that the additional diversion rate documented in the licensing exam be recommended.

Rights 31-7067, 31-7155, 31-7156, and 31-7219 were proposed to be recommended at the original licensed rates of less than 0.02 cfs/acre. You disagreed and requested that they be recommended for a full 0.02 cfs/acre.

Enlargement

Right 31-10969 was proposed for recommendation with a remark identifying it as an "enlargement." You disagreed, on the grounds that the development took place prior to 1963.

Acres

You disagreed with the total acres recommended under rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970.

RESPONSE

Season of Use

I am not able to change the recommendations for Season of Use, though this is an issue that you may wish to discuss with the judge, through a formal objection. Many of your older licensed rights (numbered 31-2XXX) were originally issued without a listed season of use. Rights based on beneficial use (numbered 31-10XXX) have never before been reviewed by the department, and have never had a formal season of use defined. With this class of rights, your burden before the court would be to demonstrate that the earlier date is reasonable, and has occurred historically.

License 31-2419, as well as all the licenses numbered 31-7XXX, were originally issued with a season of use beginning April 1. Besides demonstrating that March 15 is a reasonable and historical beginning date, you would have to explain why the original licenses were accepted without challenge.

Annual Diversion Volume

The annual diversion volume for 31-7036, 31-7040A, 31-7067, 31-7155, 31-7156, and 31-7219 has been adjusted to the current standard of 3.5 acre feet per acre.

Diversion Rate

The diversion rate of the group of partly overlapping water rights was adjusted as explained below. The other licensed diversion rates I did not adjust. These can only be adjusted by the Allocations Bureau of IDWR.

One adjustment process is to amend the original license. This is very difficult. It requires a finding that the original license was obviously in error, along with a finding that the claimed diversion capacity was in place at the time of the original licensing examination. At a minimum, this requires a written report by a Licensed Professional Engineer, along with receipts and documentation of the original diversion works. The other process is to request a new permit based on pre-moratorium development. This requires solid documentation that the claimed diversion capacity was in place and used for beneficial use prior to November, 1987.

I am not encouraging you to pursue either of these options, but explaining to you what your options are.

Enlargement

The remark identifying 31-10969 as an enlargement was removed.

Acres

The acres on the group of overlapping rights were adjusted to reflect the 1987 aerial photography. This is explained below.

Group of Overlapping Rights

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 cover lands in 7N 36E section 13 and 7N 37E section 18. The recommendations were changed significantly on these rights, based on a careful review of the history of development.

The first phase of development was a flood irrigation system in the east half of section 13, under license 31-2356. It used two wells in the approximate locations of current wells #1 and #3. This was licensed for 0.02 cfs (one miner's inch) per acre on 175 acres. This was the standard diversion rate at the time, though the licensing examiner found significantly more capacity. Based on analysis of similar soil types on nearby farms, I believe 0.03 cfs/acre is more appropriate for this original use, and the original capacity was

adequate for that rate. Right 31-10970 is recommended as a beneficial use right for additional diversion rate, with priority date 7/16/1958 (the date of the licensing exam).

The next phase of development appears to be the installation of a sprinkler system in the NE quarter of section 13, of about fifty acres. This is recommended as beneficial use right 31-10969, with a priority date of 1962, from the John Wood affidavit.

In the early 1960's, licensed right 31-2401 was developed, apparently out of well #2. The licensing exam was performed in 1967, but the right bears the permit priority date of 1962. The examiner's notes indicate that the system was developed in its current location of the SW 1/4 of section 18, but the original license describes the NW 1/4.

Finally, in 1968 additional lands of about 77 acres were developed with the addition of sprinklers and pivots. This filled in the SE 1/4 of section 13 and the pivot in the center of the south 1/2 of section 13. These are recommended as enlargement 31-10968.

In recommending these rights, I have coded "accomplished transfers" to the current wells and places of use. To balance the diversion rate per acre of these original rights on the currently irrigated lands, to reflect the original relationship between lands and wells, and to match the current configuration of the diversion systems, I have combined these rights into two blocks of "permissible place of use."

The north block is the pivot that operates from well #3. To this system is recommended all of beneficial use right 31-10969, plus enough of licensed right 31-2356 (as recommendation 31-2356A) to authorize a full 0.02 cfs/acre on the 109 acres identified by aerial photography.

The south block is the large pivot west of well #1, the small pivot east of well #2, and the field in between. It is recommended for a total of 6.06 cfs on 303 acres. It includes the remainder of right 31-2356 (31-2356B), licensed right 31-2401, beneficial use right 31-10970, and enlargement 31-10968. These rights have a number of combined use limitations added to clarify the relationship between the rights. The main effect of these limitations will be to define the original extent of the rights, to facilitate any possible future transfers.

This recommendation incorporates the historically developed diversion rate and allows a full 0.02 cfs/acre on the entire place of use, with annual diversion volume of 3.5 acre feet per acre. The recommendation authorizes irrigation of all currently irrigated acres, and allows the flexibility to balance the production of wells #1 and #2 as needed.

I have attached copies of preliminary reports for all the recommendations I modified, along with maps of the revised recommendations for the lands in section 13 and section 18. Please review these carefully and contact me if you have questions or concerns.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

PPU Calculation for South 303 acres

31-2356B	- split of license	2.32 cfs	on 116 acres
31-10970	- ben use, extra Q	1.55 cfs	(no new acres)
31-10968	- enlargement	(no cfs)	77 acres
31-2401	- license	2.19 cfs	on 110 acres

Limitations

- * 31-2356B & 31-10970 combined acres = 116. This is slightly more than 0.033/acre & represents an accomplished transfer of Q of 31-10970 from overlapping 31-2356A to acres of enlargement 31-10968. (Recommend 31-10970 @ 116 acres also).
- * 31-2356B & 31-10970 to $116 \times 3.5 = 406$ afa
- * 31-2356B, 31-10970, 31-10968 to $116 + 77 = 193$ acres
- * 31-2356B, 31-10970, 31-10968 to 3.87 cfs, 675.5 afa
- * 31-2356B, 31-2401, 31-10968, 31-10970 to 303 acres.
- * Appropriate KOB on each right.

Payment has not been received as directed in the certified letter you received on February 4, 1992. Rather than returning the claims to you, the record of the claims will go into a rejected status and remain in that category until payment is received from you. The account will continue to accrue interest, and any fees will not be returned whether the claims are investigated or not.

This will be your last notice until such time as the findings of the Director are included in his report to the Court of the water right claims in that area. Without further payment on the claim fee account, the findings of these claims will be that the claims were rejected for insufficient fees.

If your payment and this letter pass in the mail, I apologize for this letter.

Sincerely,
