Phone call from Ross Newman 1-31-01.

Does not like the combined diversion rate limit of 4.40 cfs. This limit was based on 1966 field exam for 31-02384 which observed 12 handlines. The licenses are not limited against one another. Therefore the combined limit will be removed.

He also would like the diversion rate for 31-02384 restored to 3.12 cfs from the 2.98 cfs recommended. He is willing to accept the 149 acres of irrigation, but needs the higher diversion rate to run his pivot. I agreed to remove the combined diversion rate limit and restore the diversion rate for 31-02384 to 3.12 cfs.

Called Mr. Newman back at (208) 657-2203.

I asked him if he wanted to amended his claims to show a permissible place of use. He said he would like to amend his claims. Amended claims prepared and mailed to him on 1-31-01
