HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

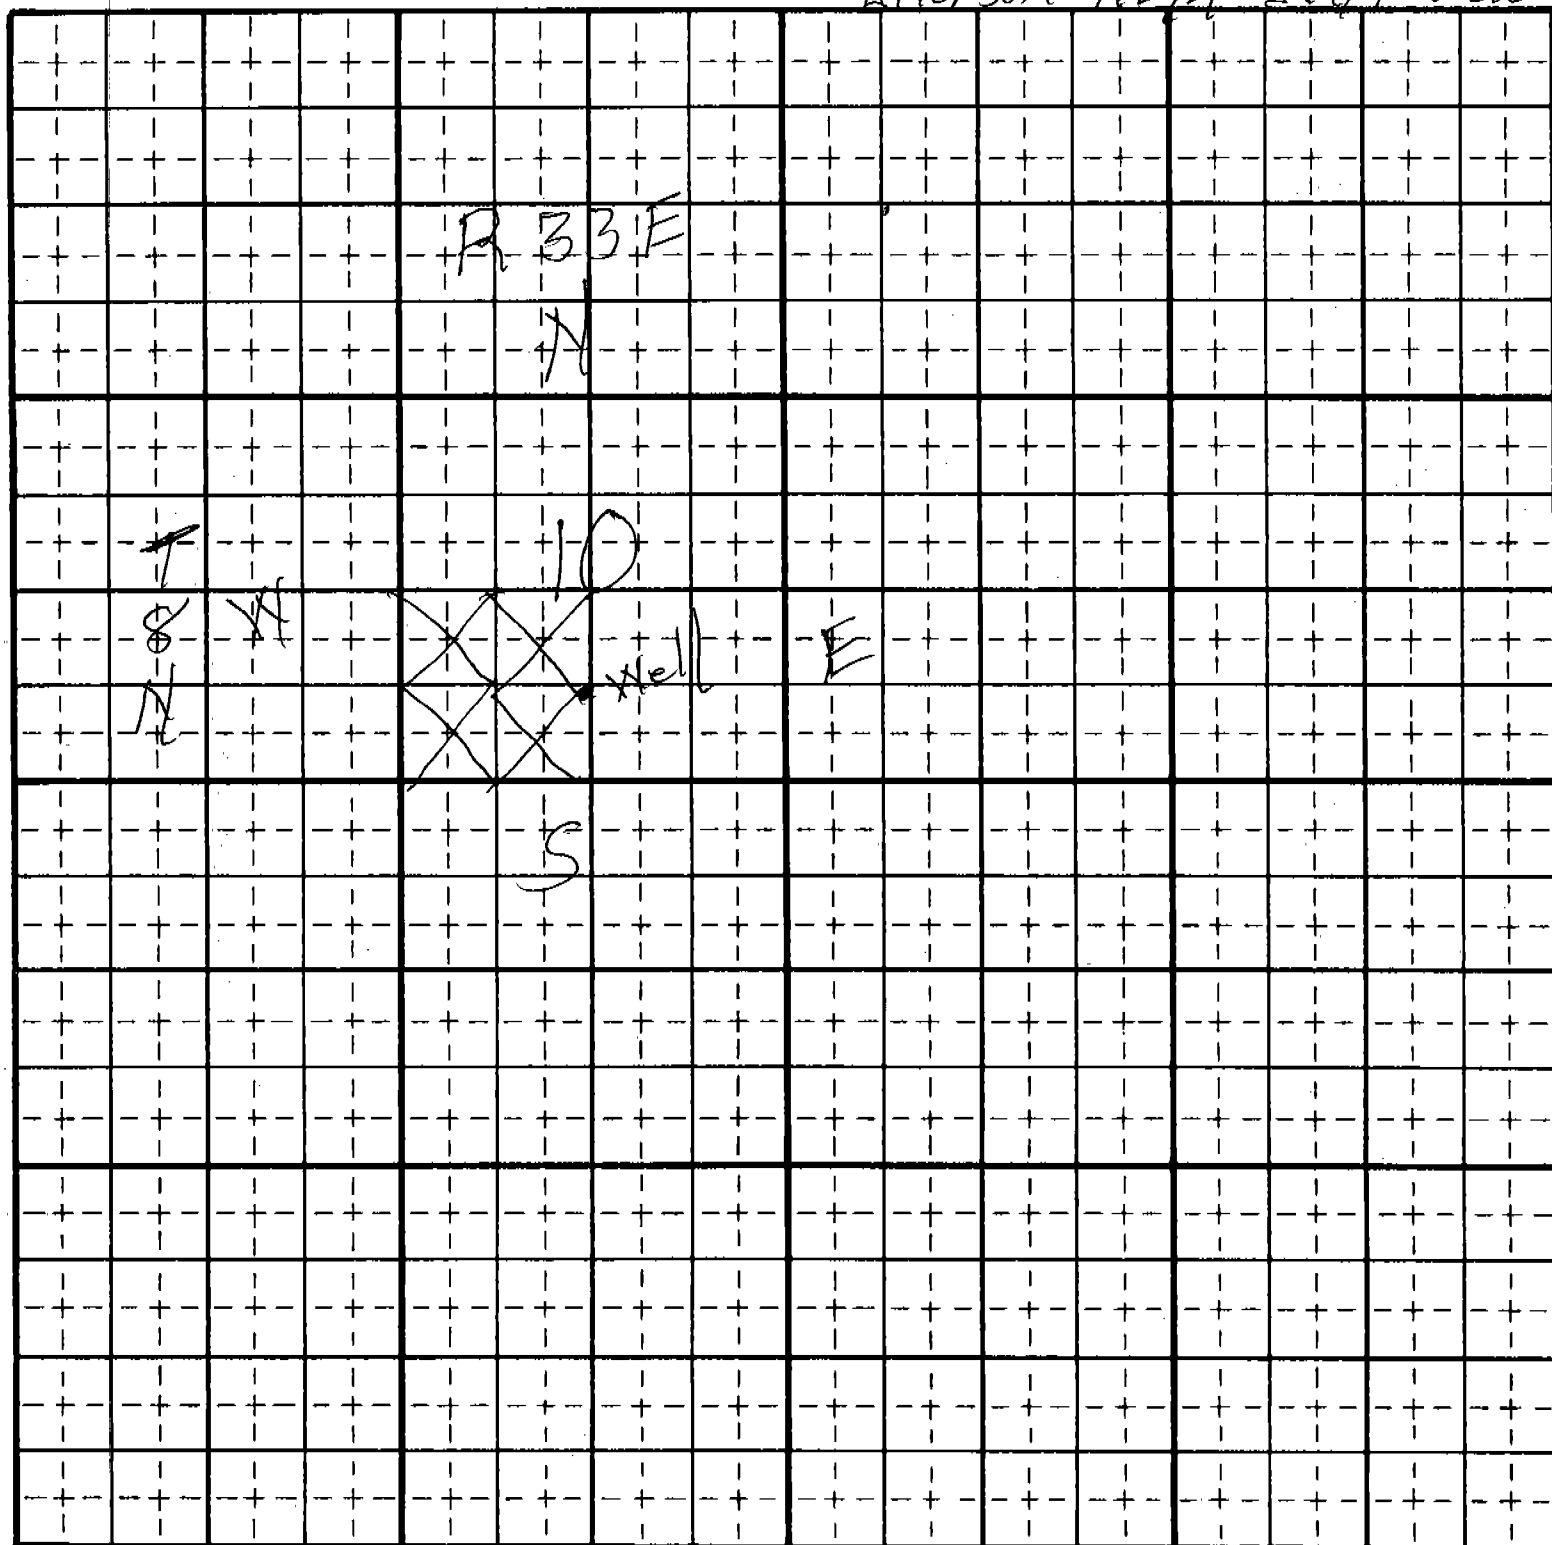

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: Water Right Claim Returned

Dear Mr. and Mrs. Walker and Lydiatt:

The Idaho Department of Water Resources (IDWR) is returning your check #337 and Notice of Claim to Water Right because of insufficient information. All items on the claim form must be correctly completed and fees submitted before the IDWR can process the claim.

Please complete or correct the claim form items identified below and return the form to the IDWR within 30-days of the date of this letter. Failure to submit the required information and filing fees within this 30-day period may result in forfeiture of your water rights or an assessment of a late-fee.

- Items #1 and #16: When two or more names are listed in Item #1 connected with an "and", Item #16 must contain the notarized signatures of all people. If the names are connected with an "or", only one notarized signature is required. Please change the connector in Item #1 to "or", or add Elma's or Kathryn's notarized signature to each claim.
- Item #2: On the Lydiatt claim, a day of the month must be entered for the priority date. If you do not know the precise day of first use, please apply the last day of the month, i.e. March 31, 1934.
- Item #3 and #5: Also on the Lydiatt claim, the stock drinking from Scotts Slough is a separate water right and must be claimed on a separate form from the domestic/stock well. However, water right registration for stock drinking directly from a surface water stream is not required in this adjudication. Please remove the reference to the stock use for Scotts Slough. If you wish to claim this instream water right which is not required, you must complete a separate form and submit the additional filing fee.

- I have enclosed the water right information for the area claimed on the two irrigation claims. Much of the information on the claim forms is different than the previously recorded water rights. It appears that some of the information for the two rights being claimed has been mixed. Please review the claims. For any item that is claimed differently than previously recorded, e.g. priority date, flow rate, etc., you must attach an explanation.
- A map or diagram showing the place of use and point of diversion was not included for one of the irrigation claims.

If you have any questions, please call the IDWR at (208)-525-7161.

Sincerely,

Tony Olenichak
Water Rights Agent, SR
