Re: letter dated 2-9-93

Dear Sir:

Since receiving your letter as of the 9th of February I have on several occasions tried to reach you by phone. Thus to no avail. This is why I'm writing you this letter.

You asked for a proof report on evidence of priority on my two shallow irrigation wells on my farm. After reading the brochure that you included in the letter, you particularly wanted some type of notarized statement as to when the wells were drilled and to what they are used for.

I'm a bit confused. When I purchased the farm from Zenna Waring years ago the Farmers Home Administration had me get a notarized statement from Evelyn Quinton and "Floos" Cope. Evelyn is the widow of the man who broke the farm out of sagebrush back in the early 1950's. Mr. Cope was the well driller that drilled the wells. They both stated in their letter the date and the purpose of the wells.

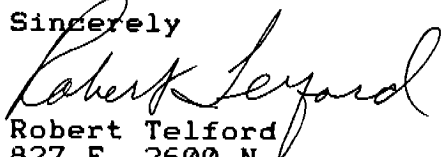

I submitted a copy of these letters to you people at the water resource department and a copy to the FmHA. From time to time I have checked several times with you people and you claimed that you still had the letters on file.

This is where the confusion come in. You are asking for the very information that I should already have on file.

If the letters have been misplaced I believe the FmHA still has their copies. Mr. Cope died several years ago. Zenna Waring died a year or so earlier. Mrs. Quinton is still living.

Please advise me as soon as possible. I work shift work so it is hard to catch me. Thank you for your cooperation.

Sincerely

Robert Telford

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY

Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent
