WATER RIGHT NUMBER 31-4066 MICROFILMED

NOV 14 1995

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that U.S. Department of Interior, Fish & Wildlife Service
Lloyd 500 Building, Suite 1692 (Name of Claimant)
500 NE Multnomah St., Portland, OR 97232 Telephone No. 503-231-6145
 (Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) November 12, 1936

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Ground water (well) tributary to _____
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(Is god, AFA)		(Domestic, Irrigation, Stock, Etc.)		(Both dates inclusive) (Mo., Day)	
Quantity	<u>0.10cfs</u>	Use	<u>Domestic</u>	Period of Use From	<u>Jan 1</u> To <u>Dec 31</u>
Quantity	_____	Use	_____	Period of Use From	_____ To _____
Quantity	_____	Use	_____	Period of Use From	_____ To _____
Quantity	_____	Use	_____	Period of Use From	_____ To _____
Quantity	_____	Use	_____	Period of Use From	_____ To _____

- (4) TOTAL QUANTITY USED.
[cfs, gpd, AFD]
- (5) A) Point of diversion: (Location of point where water is diverted from its source)
SW % NF %, Sec. 6 Twp. 7N Rge. 36E B.M., County of Jefferson
Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. 1 H.P. Pump, 6 inch well casing

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres _____

8) If water is used for other than irrigation, fully describe that use, being as specific as possible: Domestic use for one residence, including lawn and garden irrigation. Domestic use for office/vehicle maintenance building, including lawn irrigation and vehicle washing. These buildings are located in the headquarters area of Camas National Wildlife Refuge.

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization: _____

(8) Remarks

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

Oregon
State of Oregon)
County of Multnomah) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

Sworn to before me this 25th day of February, 19 81.

RE: Claim No. 31-4066

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filings and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

RONALD D. CARLSON
Eastern Region Supervisor

Assistant Cadastral Engineer

Section of Surveys & Maps

Date: October 7, 1936

MICROFILMED
NOV 14 1996

**CERTIFICATE OF OCCUPANCY
CAMAS MIGRATORY WATERFOWL REFUGE
JEFFERSON COUNTY, IDAHO**

The undersigned, Bert J. G. Tousey, Assistant Cadastral Engineer, Section of Surveys and Maps, Division of Land Acquisition, Bureau of Biological Survey, stationed at Room 411, Keckles Building, Ogden, Utah, does hereby certify that during the months of August and September, 1956, Merland H. Benedict, Engineering Aide, made a personal examination of the Idaho Livestock Company tracts (33,-I, -II,a,b,-I), as shown on the attached map.

No occupants or persons were found in possession of, or using, any part of the tracts, other than the following:

1. Idaho Livestock Lands, Inc., apparent owner, is an absentee corporation managed by D. V. Hagenbarth located in Idaho Falls, Idaho.
2. Gerald Jones is leasing the following described land on a share crop basis and is residing thereon with five members of his family:

T. 7 N., R. 36 E. sec. 1, lots 6 and 7, $N\frac{1}{2}SW\frac{1}{4}$ and $W\frac{1}{2}SE\frac{1}{4}$;
 sec. 12, lots 1, 2, 3, and 4, $W\frac{1}{2}NE\frac{1}{4}$, $E\frac{1}{2}NW\frac{1}{4}$,
 $NE\frac{1}{4}SW\frac{1}{4}$, and $NW\frac{1}{4}SE\frac{1}{4}$;
 sec. 13, lot 1;

T. 7 N., R. 36 E. sec. 5, lots 2 and 4, and $S\frac{1}{2}NW\frac{1}{4}$;
 sec. 6, lots 1, 2, 6, and 7, $S\frac{1}{2}NE\frac{1}{4}$, $E\frac{1}{2}SW\frac{1}{4}$,
 and $W\frac{1}{2}SE\frac{1}{4}$;
 sec. 7, lots 1, 2, and 3, $NW\frac{1}{4}NE\frac{1}{4}$, and
 $E\frac{1}{2}NW\frac{1}{4}$;

T. 8 N., R. 36 E. sec. 28, $SW\frac{1}{4}$;
 sec. 29, $SE\frac{1}{4}SW\frac{1}{4}$ and $SE\frac{1}{4}$;
 sec. 31, $NE\frac{1}{4}NE\frac{1}{4}$;
 sec. 32, $N\frac{1}{2}NE\frac{1}{4}$, $SW\frac{1}{4}NE\frac{1}{4}$, $N\frac{1}{2}NW\frac{1}{4}$, $SE\frac{1}{4}NW\frac{1}{4}$,
 and $EW\frac{1}{4}$;
 sec. 33, $N\frac{1}{2}NW\frac{1}{4}$.

There are a one-story frame house, a two-story frame house, ice house, barn, cow barn, granary, sheds, ten-ton platform scales, and stock corrals located in the $NE\frac{1}{4}NW\frac{1}{4}SE\frac{1}{4}$ and the $S\frac{1}{2}SW\frac{1}{4}NE\frac{1}{4}$, sec. 6, T. 7 N., R. 36 E.

MICROFILMED
NOV 14 1995

There are a one-story frame house, two bunk houses, a small barn, a small granary, and lambing sheds located in lots 1 and 2, sec. 6, T. 7 N., R. 36 E.. There are about 25 miles of interior and exterior fences. Mr. Jones has been occupying this land since March 1, 1934, (Previous to that date he was foreman for the Idaho Livestock Lands Co.), under lease. His present lease runs from March 1, 1936, to December 15, 1936, subject to purchase by the Government.

3. Jesse Harrup, (absentee), is leasing the following described land:

T. 7 N., R. 36 E., sec. 13, lots 2, 3, and 4, SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$;
 sec. 23, SE $\frac{1}{4}$;
 sec. 24, lots 1, 2, 3, and 4, W $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$, and W $\frac{1}{2}$ SW $\frac{1}{4}$;
 sec. 25, lots 1, 2, and 3 and SW $\frac{1}{4}$ NE $\frac{1}{4}$;
 sec. 26, W $\frac{1}{2}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$;
 T. 7 N., R. 36 E., sec. 7, S $\frac{1}{2}$ NE $\frac{1}{4}$;
 sec. 16, SW $\frac{1}{4}$;
 sec. 17, W $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, and S $\frac{1}{2}$ SE $\frac{1}{4}$;
 sec. 18, lots 2, 3, and 4, NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, and SE $\frac{1}{4}$;
 sec. 19, lots 1, 2, 3, and 4, NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, and SW $\frac{1}{4}$ SE $\frac{1}{4}$;
 sec. 20, NE $\frac{1}{4}$;
 sec. 21, NW $\frac{1}{4}$ SW $\frac{1}{4}$;
 sec. 22, lots 1, 2, 3, and 4, NE $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$.

There are a one-story frame house, barn, frame garage, chicken coop, and corrals located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ sec. 7, T. 7 N., R. 36 E.. There are about 25 miles of fence around this tract and inside for field fences. Mr. Harrup has been occupying this land under lease for about the last three years, and his present lease runs for one year from May 1, 1936, subject to the purchase by the Government.

4. Mr. S. E. Brown is an absentee lessee of the following described land:

T. 7 N., R. 36 E., sec. 8, W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, and SW $\frac{1}{4}$ SE $\frac{1}{4}$.

There are about 2 $\frac{1}{2}$ miles of fence around this property. Mr. Brown has been occupying this land for about 4 years and his present lease runs from April 1, 1936 for one

MICROFILMED
 NOV 14 1995

year subject to the purchase by the Government.

5. The American Telephone and Telegraph Company of Cheyenne, Wyoming has an easement to construct, operate, and maintain a line of telephone and telegraph upon and across the $S\frac{1}{2}$, Sec. 29, and $N\frac{1}{2}$ Sec. 32, T. 8 N., R. 36 E.; the $NW\frac{1}{4}$, sec. 5, sec. 8, $SW\frac{1}{4}SE\frac{1}{4}$, sec. 17, and $N\frac{1}{2}$, sec. 20, T. 7 N., R. 36 E., Boise Meridian, more particularly described by notes and bounds on the attached map. Also the right to trim from time to time any trees along said lines so as to keep wires and cables clear at least 36 inches on each side. In addition to the land described in the easement above mentioned, the line crosses the $S\frac{1}{2}$, sec. 32, T. 8 N., R. 36 E., and $NW\frac{1}{4}SE\frac{1}{4}$, sec. 20, T. 7 N., R. 36 E., Boise Meridian.

6. The Independent Water Users of Mud Lake, Inc., have an easement to a right of way fifty feet wide upon which to construct and maintain a canal to take water from seven artesian wells located in the $W\frac{1}{2}SW\frac{1}{4}$, sec. 13, T. 7 N., R. 35 E., over and across the following described land:

T. 7 N., R. 35 E., sec. 25, $SE\frac{1}{4}$;
sec. 24, $NE\frac{1}{4}NW\frac{1}{4}$, $S\frac{1}{2}NW\frac{1}{4}$, and $NW\frac{1}{4}SW\frac{1}{4}$;
sec. 25, $W\frac{1}{2}NE\frac{1}{4}$ and $N\frac{1}{2}NW\frac{1}{4}$.

The ditch as actually constructed extends into the $SE\frac{1}{4}SW\frac{1}{4}$, sec. 13, T. 7 N., R. 35 E.. The center line of the canal as constructed is more particularly described by notes and bounds on the attached map. In payment for this right of way the Idaho Livestock Lands Co., accepted the water developed by the wells for the first ten days of every month. This easement has been in effect since July, 1934.

7. Samuel W. Lundholm has developed an old water course in the $SW\frac{1}{4}NE\frac{1}{4}$, sec. 26, T. 7 N., R. 35 E., for an irrigation ditch and is using the same without permit. This was formerly used as a drainage ditch, but about a year ago he installed a pump at the upper end and has since been using it as an irrigation ditch.
8. The Owsley Canal Company is occupying a strip of land along the south line of the $SE\frac{1}{4}SW\frac{1}{4}$ and $SW\frac{1}{4}SE\frac{1}{4}$, sec. 24, T. 7 N., R. 35 E. This is shown and described on the attached map as tract (33-I). The Owsley Canal Company has been occupying this tract since about 1931, but the fence is apparently over 10 years old. The corner common

to secs. 19, 24, 25, and 30, T. 7 N., R. 35 and 36 E., was never monumented by the General Land Office, but a witness corner was established 5.10 chains north of the true position for the section corner. This original witness corner was recovered during our survey. Someone in the past has evidently accepted this witness corner for the section corner and has run the fence line to it. In other words this adverse occupancy has been caused by an erroneous location of the section line.

9. Mr. Samuel W. Lundholm is occupying a strip of land along the east side of the $\frac{1}{2}$ NE $\frac{1}{4}$ of sec. 24, T. 7 N., R. 35 E., containing about 4.3 acres. Mr. Lundholm has agreed to accept the line as established by our survey.
10. Mr. Oscar R. Christianson is occupying a strip of land along the east side of the NE $\frac{1}{4}$ of sec. 5, T. 7 N., R. 36 E., and along the east side of the SW $\frac{1}{4}$ of sec. 32, T. 8 N., R. 36 E., which is shown and more particularly described on the attached map as tract (33-II). The Christiansons have occupied this tract since 1917 and it was probably occupied for a period before that by the former owner of the adjoining property. There were no original General Land Office corners recovered by our survey along the line between Townships 7 and 8 North from the one-quarter corner of sections 6 and 31 to the northeast corner of T. 7 N., R. 36 E.. These corners were all reestablished by us in accordance with methods prescribed by the General Land Office. This adverse possession has undoubtedly been caused by an erroneous location of the one-quarter corner between secs. 5 and 32, Tps. 7 and 8 N., R. 36 E., by a previous survey.
11. Mr. Adna E. Bramwell is occupying a triangular piece of land in the southeast corner of the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of sec. 7, T. 7 N., R. 36 E., containing about 5.0 acres, and Gerald Jones as a lessee of the land described in paragraph two is occupying a similar triangular shaped piece of land in the northwest corner of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of sec. 7, T. 7 N., R. 36 E., containing about 5.0 acres. Mr. Jones and Mr. Bramwell have a verbal agreement as to this exchange of lands and Mr. Bramwell does not claim any title to the piece that he is occupying.
12. Mr. R. E. Wade is occupying a strip of land along the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of sec. 20, T. 7 N., R. 36 E., containing about 1.5 acres. Mr. Wade has agreed to accept the line as established by our survey.
13. Perry E. Woodard, Marie V. Peterson, and O. E. Peterson

MICROFILMED

NOV 14 1996

have constructed and are operating a ditch across the NE $\frac{1}{4}$, Sec. 30, T. 7 N., R. 36 E., to take water from Ray's Lake. Water rights from Ray's Lake for 2.42 second feet were granted to Marie V. Peterson in 1912; 3.4 second feet to O. E. Peterson^{in 1917}; 0.5 second feet to Perry B. Woodard in 1917; and 0.5 second feet to Marie V. Peterson in 1922, and it is assumed that these parties have been using this ditch since these dates.

No evidence was found on the tract of any buildings or other structures erected or repaired, building materials used, or labor performed, during the past four months.

There are public roads along the south boundary of the SE $\frac{1}{4}$, sec. 5, along the south boundary of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, sec. 6, and through the SE $\frac{1}{4}$ NE $\frac{1}{4}$, sec. 6, and along the south boundary of the SE $\frac{1}{4}$, sec. 30, T. 7 N., R. 36 E..

Chief, Bureau of Biological Survey
Washington, D. C.

Dear Sir:

Please advise me as soon as possible just what fixtures and more or less permanent outside improvements were acquired with Idaho Livestock Lands, Inc. Tract (33). It has been my understanding that anything of a permanent nature, not specifically reserved, became the property of the United States.

The large house on the Cartier Ranch has some plumbing in it. There is a lavatory, bathtub, 2 sinks and some odds and ends. There was a hot water tank but this was removed by Mr. G. T. Jones. Outside there are some well casings, a number of lengths of pipe (used in watering stock) a few small tanks (steel) and a few other items which I would consider as going with the place. There is also a hand water pump in the kitchen of the large house.

Mr. Jones was foreman for the Idaho Livestock Lands, Inc. in charge of the Cartier Ranch for a few years, after which he leased the property from the company until this year. At the time he leased the ranch it is my understanding that he bought the ranch equipment which makes it a little harder to determine the ownership of some of the questionable items. Until I am advised as to just what kind of fixtures and materials are considered by you to be of a permanent nature and part of the real estate I shall request Mr. Jones to show ownership by bill of sale obtained at the time he purchased the ranch equipment.

There is some question in my mind as to whether any of these items can be used in improving the Camas Refuge but so long as there is even a slight probability that they might be of some use I think they should be retained provided the United States has acquired them.

Very truly yours,

Howard J. Sargeant

WATER MANAGEMENT PLAN - 1957

No radical departures from past practices is contemplated for the management of water on the Refuge for 1957. It is not planned to withhold water from any unit this year for repairs or cattail control.

Water will be taken from Camas creek as soon as available to fill ponds and to keep them full as long as possible. Maximum levels for ponds fed from Camas creek as follows: Big pond 4794', Center pond 4793', Two-way pond 4789', Red-head pond 4790.6', Marshy pond, Toomey pond 4786'.

The Unit 1 and Bramwell wells will be operated for crop irrigation, stockwater, and supplementary pond water, starting date will be on or about May 1. A well was completed in Unit 4 in 1956, pumping equipment has not been installed as yet. Four more wells will be drilled in the calendar year 1957.

The snow pack on the Camas creek for 1957 spring run-off is slightly above the normal in some sections of the watershed and at least normal overall. The flow from this run-off should assure our pond filling and perhaps a little longer flow during the summer for irrigation and pond use.

At least three pumps will be installed on the free flowing wells at Buck Springs as well as another well drilled in 1957. These wells furnish water for the Independent ditch that flows thru the Refuge to Mud Lake.

SUMMARY OF 1956 WATER USE.

The spring run-off from Camas creek filled all the ponds and lakes fed from this source to their maximum levels. The Camas creek flow ended in late June. Pond and lake levels deteriorated rapidly during the hot dry summer only Sandhole lake contained any water by late fall. Sub-water was practically non-existent in the spring and fall. 2417 c.f.s. of water was taken from Camas creek for pond and irrigation use.

The Unit 1 well was operated from May until mid-December. Due to the lack of rain during the summer months the entire flow was used for irrigation and stock watering purposes. In mid-September the flow was diverted into the pond units for waterfowl use. The was a steady 356 inches with an average lift of 19 feet.

The Bramwell well was operated intermittently from May until early December, used for irrigation, stockwater, and waterfowl. The water level at this well began dropping in June, a gate valve was installed to prevent damage to the pump and motor. Water produced dropped from 215 inches to 143 inches, the water level varied from 17 to 23 feet from ground level.

A small amount of water was pumped from the Unit 4 well with a gas pump for stock use.

MICROFILMED
NOV 14 1996

Official flow records were not kept by the Service this year on the Independent ditch that carries water from the Buck Springs development through the Refuge to Mud Lake. Readings on staff gages in the ditch indicate little if any change in the amount of water flowing through the ditch.

Precipitation for 1956 was about normal but the timing was bad, no rain was received during the spring and summer when most needed.

A note on our cattail control plans: we have abandoned plans for cattail control by water manipulation, until a sure source of pond water is available. In the past two years we have roto-mowed and ploughed cattails, flooded the area only to have the water fail at the crucial stage of the work.

CAMAS NATIONAL WILDLIFE REFUGE

HAMER, IDAHO

ANNUAL WATER PROGRAM - 1963

SUMMARY OF 1962 WATER USE.

Total precipitation for 1962 was 7.44 inches. This year the Camas creek watershed received one of the greatest snow packs since records have been kept. Precipitation was fairly evenly distributed with 4.23 inches of precipitation received during the period May through August.

The Camas creek's flow reached the refuge for the first time on February 13th and the flow ceased August 16th. Approximately 11,047 acre feet were received from the Camas creek flow. On many occasions, the flow was so great into the lower portion of the refuge from the flooding Camas creek, that the refuge was unable to take its full decreed right. With the completion of the major diversion ditches all six wells were operated through the year.

A resume of water use follows:

Camas creek - Right No. 143: two points of diversion used, 24 hour c.f.s.,
February - 324.0, March - 525.9, April - 1736.9, May - 1448.7, June - 1048.0,
July - 272.8, August - 167.2.

This gives a total flow of 11,046 acre feet. This water was used to irrigate cereal grains and alfalfa plantings located in Unit 1 and too maintain pond water elevation at the permissible maximum, thusly irrigating wildhay meadows.

The following table gives the data for the operations of the refuge wells. The well water was used to irrigate cereal grains and alfalfa plantings located in Unit 1, 3, 4, and 5; to provide livestock water in Units 1, 5, 7, 9, and 10 and to maintain the pond water levels and irrigate wildhay meadows.

<u>Well #</u>	<u>Hrs. Ran</u>	<u>Average Rate of Flow</u>	<u>Flow X Hrs.</u>	<u>Date of First Operation</u>	<u>Date of Last Operation</u>
1	368	7.0 cfs	2576.0	6/22	10/15
2	697	10.40 cfs	7248.8	3/20	12/28
3	1353	15.70 cfs	21242.1	3/20	11/5
4	1203	14.4 cfs	17323.2	2/15	12/26/62
5	1984	14.9 cfs	29561.6	1/3	12/26
6	1365	14.0 cfs	19110.0	1/26	12/26

REMICHO FILMED
NOV 14 1996

The following table gives the water levels from ground level during calendar year 1962. Each well is measured once a week with no correction of water level made for atmospheric pressure changes.

No.	Drilled & Depth	May 1st	Lowest Depth	November 1st	December 31
					Not running
1	1954 19'4"	6/22 19.43'	8/7 - 20.35'	10/15 - 20.00'	past October
2	1956 8'0"	4/30 8.58'	1/5 - 10.10'	11/5 - 9.38'	12/26 - 9.09'
3	1957 11'2"	4/30 10.33'	10/15 - 11.77'	11/5 - 11.16'	12/26 - 10.83'
4	1957 11'9"	4/30 10.74'	1/5 - 12.18'	11/5 - 11.35'	12/26 - 11.02'
5	1957 7'6"	4/30 6.93'	1/5 - 8.41'	11/5 - 7.68'	12/26 - 7.32'
6	1957 11'2"	4/30 10.55	1/5 - 11.98'	11/6 - 11.12'	12/26 - 10.83'

Because of the great amount of run-off available during the spring of 1962, all major ponds were kept at maximum levels throughout the first week of July. Hall, Height, and Helm ponds located on Units 17 and 19 were well filled and this is the first time these ponds have been filled in the last eleven years. These ponds were filled by the emergency water outlet located in Unit 1 which uses the old channel of Warm creek. Many of the ponds were so well filled by the first of August that wildhay cutting was prohibited or postponed until a later date.

Pond levels were permitted to drop during September and October to levels equal to that of 1961 in an effort to confine Muskrat house building to the more permanent pond areas. This concentration of the Muskrat population should reduce winter losses through "freeze-out."

During January, February, and December Wells 5 and 6 were operated to provide better water levels conducive to carrying the Muskrat population through the colder months. The critical time for Muskrats at this refuge is during the winter months when the ponds are either dry or frozen solid to the bottom. A large Muskrat population is an effective tool in the control of cattail.

Proposed 1963 Water Use.

The water use for 1963 will be as prescribed in the Water Management Plan and the provision of the Proof of Beneficial Use covering the six wells. All wells and ditches have been constructed and are in operational condition with a moderate amount of maintenance. Well water will be used as prescribed in the Proof of Beneficial Use for the irrigation of crops and meadows. However, additional use of well water will be made for the uses itemized.

1. The maintenance of pond water levels at elevations conducive to good marsh management and necessary to provide optimum waterfowl nesting conditions and the control of cattails.

MICROFILME
NOV 14 1996

2. To provide water during January, February, and December to insure a carry-over of a substantial portion of the Muskrat population to assist in the control of cattails.
3. To provide livestock water during the months of October, November, and December. This pumping operation is necessitated by the termination of Camas creek water flow during these months.

The 1963 snow pack of Camas creek is the poorest in the last 35 years. This proposed plan will be dependent upon rainfall and well water.

CASE NO. 39576

DECLARATION OF
GERALD L. DEUTSCHER

Dec. of Deutscher

I, Gerald L. Deutscher do declare that:

1. I am the Refuge Manager of the Camas National Wildlife Refuge, Hamer, Idaho, United States Department of the Interior, Fish and Wildlife Service, Region 1.
2. I have been employed by the United States Fish and Wildlife Service since January 1975 except for two years during which I was employed by the United States Bureau of Land Management as described in the following section. I received a Bachelor of Science degree in Biology from Eastern Montana College in June 1973. I attended graduate school in Wildlife and Fisheries at South Dakota State University from September 1973 until I accepted a position with the United States Fish and Wildlife Service in January 1975.

MICROFILMED
NOV 14 1995

3. I began my career with the United States Fish and Wildlife Service (Service) in South Dakota. I have worked as a biological technician, Assistant Refuge Manager, and Refuge Manager on migratory bird refuges in South Dakota, Colorado, Idaho, and Nevada. I worked two years as a waterfowl biologist for the Bureau of Land Management in Montana before being assigned as Refuge Manager at Camas National Wildlife Refuge (Refuge).

4. As Refuge Manager at the Camas National Wildlife Refuge I am in charge of daily operations, including habitat management through water diversion, pumping, and manipulation. I supervise one to three personnel. One of my responsibilities is to manage the use of water diverted from Camas Creek or pumped from ground water for use on the Refuge. Cooperation with Water District No. 31 is necessary to manage the Refuge's water supply.

5. I am familiar with the current operations of the Refuge and have studied and reviewed past operations through historic files and documents, interviews and discussions with Service employees and others knowledgeable about the Refuge and its surroundings, and on-site inspections.

6. The United States Department of the Interior, Fish and Wildlife Service, maintains the Camas National Wildlife Refuge. The use of water is necessary to fulfill these purposes.

7. The Camas National Wildlife Refuge was established by Executive Order Number 7720 dated October 12, 1937, as "a refuge and breeding ground for migratory birds and other wildlife".

8. To the best of my knowledge and belief, the Camas National Wildlife Refuge first put the water claimed as a beneficial use water right to beneficial use as follows:

- a. Water Right Claim No. 31-4016: The well supplying water under this claim was completed for irrigation use in June 1955, as evidenced by the driller's Well Log and Report to the State Reclamation Engineer of Idaho (Exhibit A).
- b. Water Right Claim No. 31-4066: Buildings, including frame houses, existed in 1936 and were occupied by Mr. Gerald Jones, as evidenced in the Description of the Idaho Livestock Lands, Inc. Tracts (33, -I, -II, a, b, -I) (Exhibit B). The large house occupied by Mr. Jones contained plumbing fixtures indicating domestic water use, as evidenced by November 6, 1937 correspondence (Exhibit C).
- c. Water Right Claim for Well No. 1: Water was used for wildlife purposes as early as March 16 and as late as mid-December, as evidenced by the 1957 Water Management Plan (Exhibit D) and the Annual Water Program Report dated September 23, 1958 (Exhibit E). The flow rate was 356 inches, as evidenced by the 1957 Water Management Plan (Exhibit D).
- d. Water Right Claim for Well No. 2: Water was used for wildlife purposes as early as January 7 and as late as December 28, as

evidenced by the well-pumping record for Well No. 2 for 1963 (Exhibit F), and the 1963 Annual Water Program (Exhibit G).

- e. Water Right Claim for Well No. 3: Water was used for wildlife purposes as early as March 20 and as late as November 16, as evidenced by the 1963 Annual Water Program (Exhibit G) and the well-pumping record for Well No. 3 for 1961 (Exhibit H). The flow rate was 15.7 cubic feet per second, as evidenced by the 1963 Annual Water Program (Exhibit G).

- f. Water Right Claim for Well Nos. 4, 5, and 6: Water was used for wildlife purposes as early as January 1 and as late as December 26, as evidenced by the Record of Pumped Water Use for 1963 (Exhibit I) and the 1963 Annual Water Program (Exhibit G). The flow rate was 43.3 cubic feet per second, as evidenced by the 1963 Annual Water Program (Exhibit G).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct. Executed on this 12 day of March, 1993.

Gerald L. Deutscher
