RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

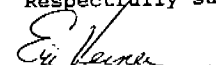

EVIDENCE OF PRIORITY
Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent

To whom it may concern:

I have knowledge of the development and usage of the water and land under Water Right Claim Number: A31-04090, which has a Date of Priority of April 14, 1949.

I have had the occasion to live next to this property since 1949. I had the opportunity to work with and associate with the persons responsible for the development of this property.

I had the opportunity to purchase this property on February 5, 1965.

I have been using this development to the best of my ability since that time.

Dear Mr. Hawker:

Pursuant to the request of our Eastern District Office at Idaho Falls, Idaho, we are enclosing copies of the above referenced permits.

We wish to advise you that these permits are subject to cancellation for failure of the permit holder to make proof of beneficial use of water. In order for someone other than the permit holder to submit proof under these permits, he must have the permits assigned to him. If the permit holder is deceased, the assignments could be executed by the administrator of the estate of possibly the permit holder's heirs.

We are also enclosing two assignment of permit forms along with two proof of beneficial use affidavits for your consideration. If you have any questions or if we may be of further assistance, please let us know.

Sincerely,

Attention: T. Harold Lee

Dear Mr. Lee:

Permit No. 80875 filed December 30, 1939, for 8 cubic feet per second, proof of completion of works was made February 1, 1940 and Certificate issued. Mr. Buolfa made proof of beneficial use of the water and later withdrew the proofs when the amount of water was measured at 3.1 cubic feet per second. An extension of time for proof of beneficial use was given to April 14, 1940. The proofs were not made at that time. Amendment to the land list covered 100 acres in the NW 1/4 of Section 19, NE 1/4 of Section 20, NE 1/4 of Section 30, Township 8 North, Range 14 East.

Permit No. 80876 was filed at the same time for 8.0 cubic feet per second and the Certificate of Completion of Works was issued for irrigation of 100 acres in the NW 1/4 of said Section 19; proof of beneficial use was not made and our field engineer made a note that adjacent wells had lowered the water table so the well could only furnish domestic and stock water.

Very truly yours,

Well in NW 1/4 Sec. 20, Twp. 8 N, Rge. 84 E, D. M.

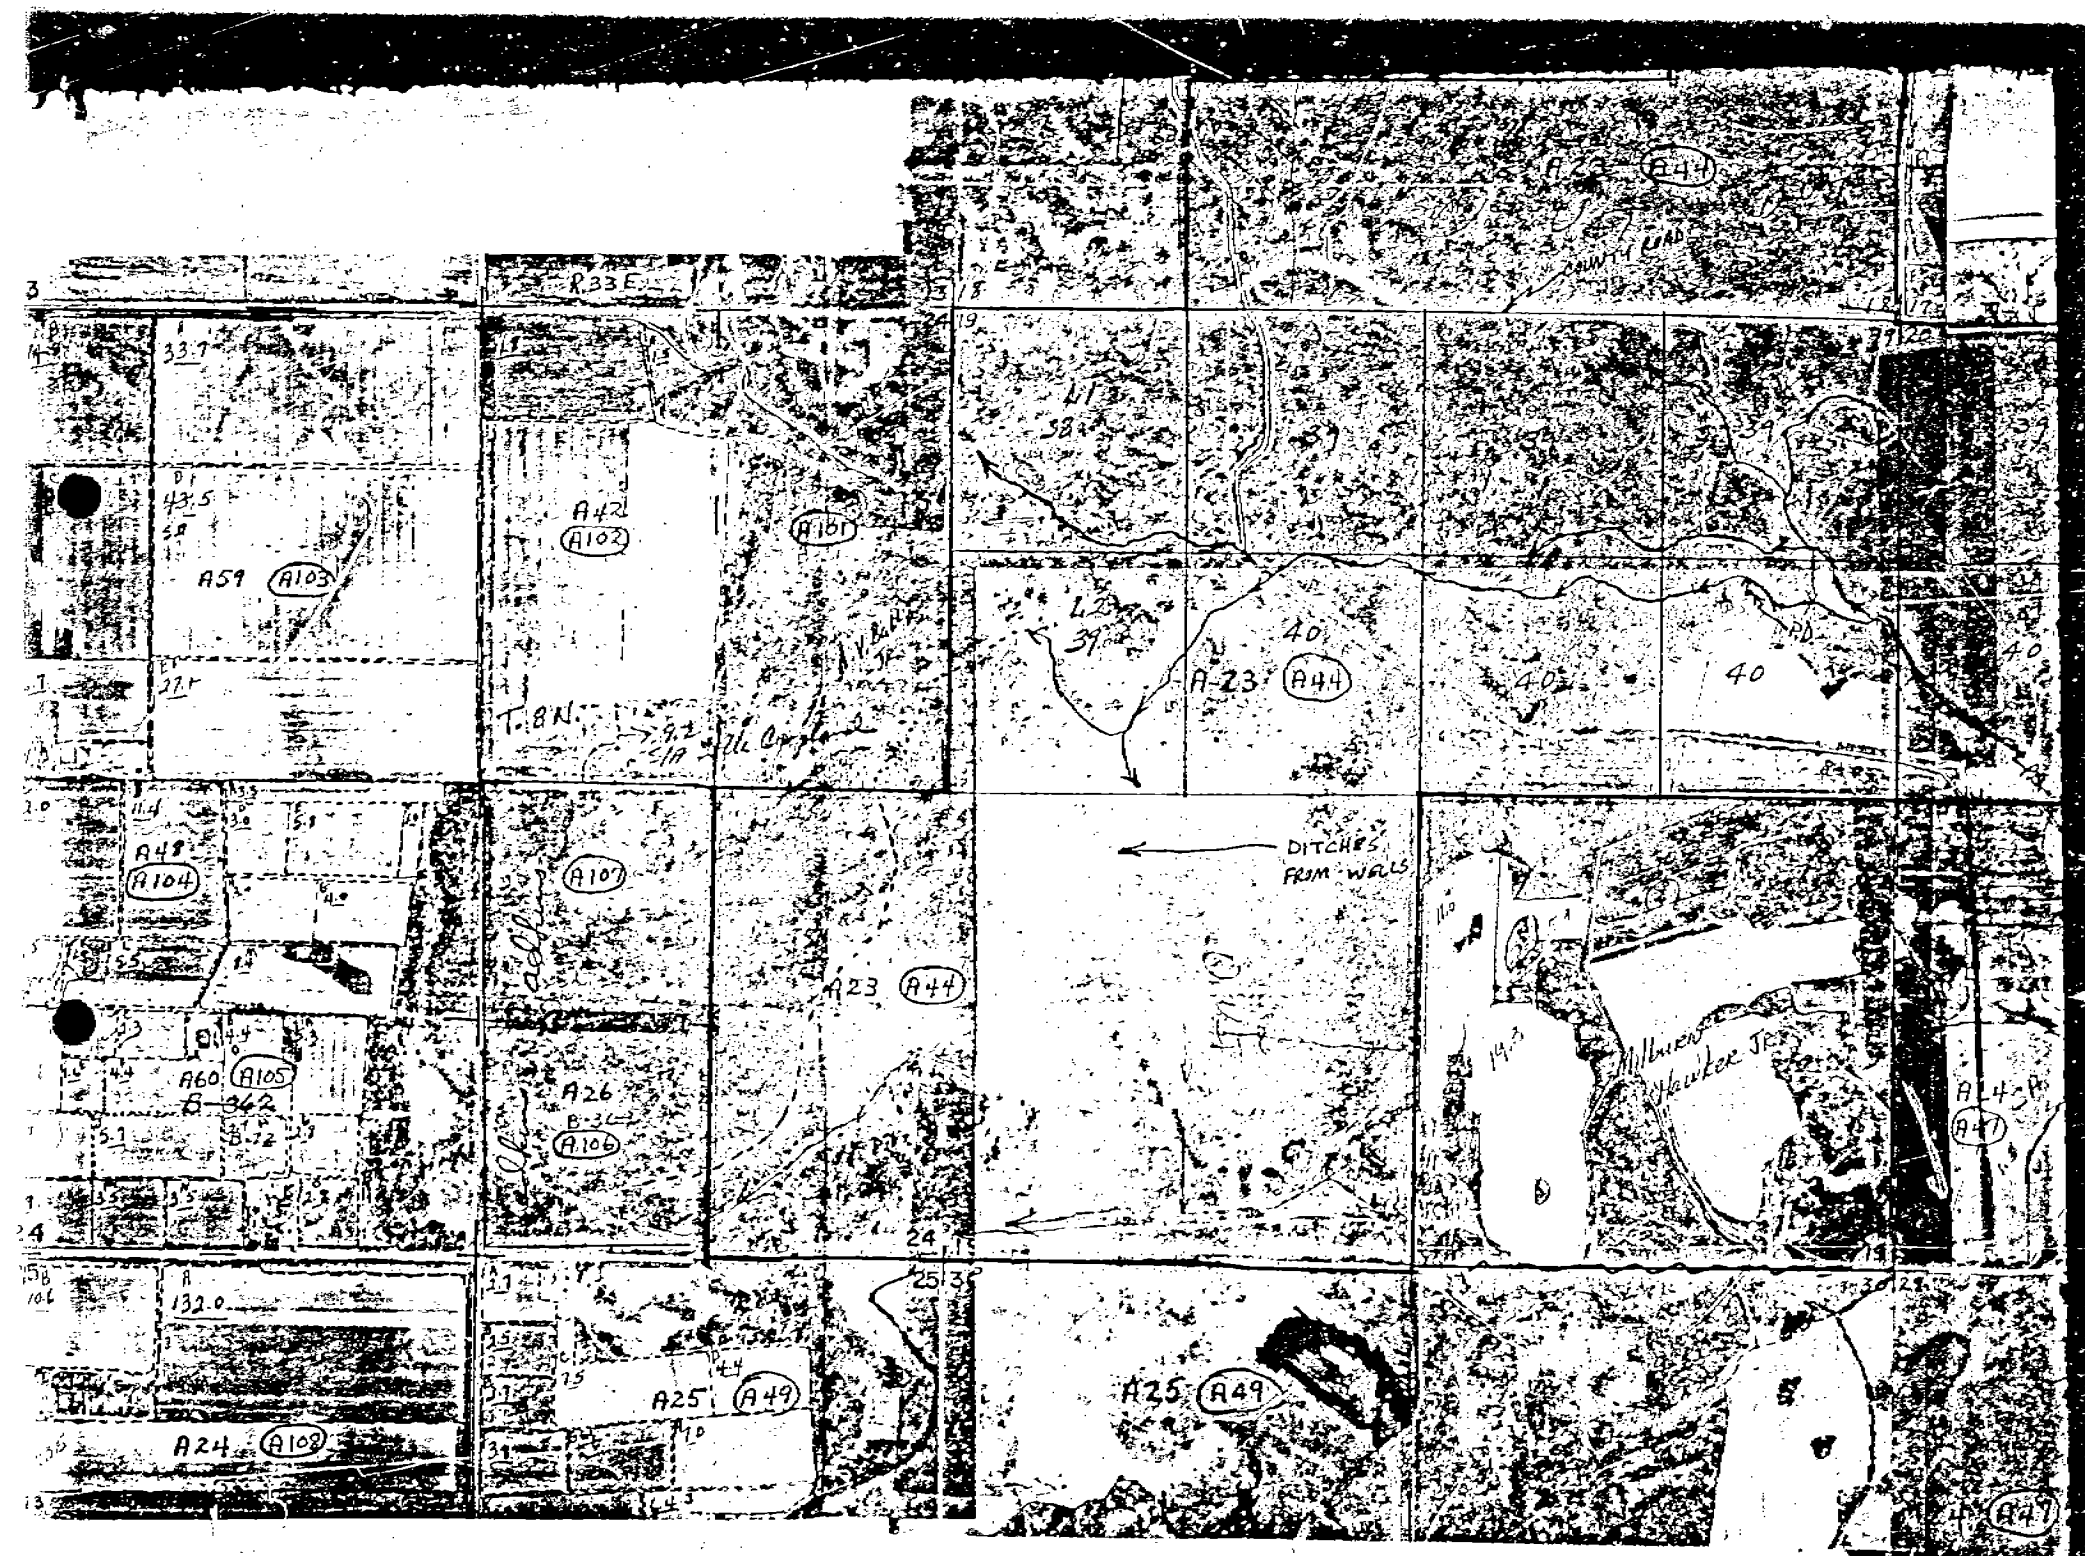

License No. 81-2472 was issued to Thomas Wagoner in 1951 for a well located at this location, but for irrigation of land in Sec. 25, Twp. 8 N, Rge. 84 E, D. M. In 1958 the point of diversion was changed to NW 1/4 Sec. 20, Twp. 8 N, Rge. 84 E, D. M. Attached is a copy of the license and the certificate of change.

Well in SE 1/4 Sec. 20, Twp. 8 N, Rge. 84 E, D. M.

Two permits were found for this area: 81-2487 (20876) and 81-2488 (20878). Licenses have never been issued and they are subject to cancellation, when we reach that point. Also of interest is the last correspondence in the file, a copy of which is attached.
