To: Idaho Water Resource Board
Any others it may concern

I, Jack Webster, the present owner of Webster Ranch, am writing this to verify the uses of the stream known as Thunder Gulch, located in Section 20, T.12N., R.35E. The time frame that I can go back to would be the mid 40's, 1945-1946. At that time I was a young kid, and during the summer months I spent many days riding with the association cowboy on the Forest ranges. The stream was used to water livestock on and below the Forest boundary and to water livestock in what is known as the Cow Camp pasture. When water was available it was also used to irrigate pasture land in that same Cow Camp pasture. This use has continued as is since that time. I also know that those uses were long before my time. I have included two other verifications to that time.

As the present owner, I have made some changes in the past few years. In 1988 the Forest Service, BLM and the permittees entered into a Range Management Program. This program made a number of changes in pastures and several were without water. At that time the Forest Service and I entered into an agreement that I would remodel an existing water trough development of theirs and install several miles of pipeline and water troughs to all the new units in order to properly water and disperse the cattle use. When water was available we still irrigated the Cow Camp horse pasture. Though are now located in parts or all of Sections 19, 20, 21 & 29, T.12N., R.35E. This provides more use area than the original filing specifies.

I hope this will help to clarify any questions you may have about this permit. If not, please call or write me and I will try and help.

Thank you.

I, ORVILLE WILLIAMS can personally testify that the stream known as Thunder Gulch, located in Section 20, T.12N., R.25E., was used for stock water and pasture irrigation as far back as JUNE 1930. The land was owned at that time by Ed Doschades. The stream has been used for those uses every since that time by Ed Doschades and on through by the Webster family, the present owners. During those early years I was a cowboy who either worked for the owner or other ranches who were immediately adjacent to the property and was able to observe the use of the water quite frequently. Through all the years following to the present I have had the opportunity sometime during the summer to see same use being made of the stream.

*****FINAL REMINDER*****

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date. This letter is the final reminder that the above documentation needs to be provided.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY
Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by MARCH 14, 1994, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

Proof of Completion of Work

DEPARTMENT OF THE INTERIOR

State of New York
County of Hamilton
In the presence of me, the undersigned, a Notary Public for the State of New York, the following persons appeared and acknowledged to me that they executed the foregoing instrument for the purposes and consideration therein expressed.

That if he is in behalf of a corporation, state its name, and if he is an individual, state his name, and give the date of his appointment, and the name of the person by whom he was appointed.

Question 1. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. 6877, May 14, 1925, O. R. LAMONT, Goshen and Salt Spring Springs, Saratoga NY & CATTARAUGUS CO. NY
Under the authority of which water is to be used, and if the irrigation, state the number of acres and give description of the land you have reclaimed or intend to reclaim.

Answer: Goshen and Salt Spring Springs

Question 2. State whether or not the water has been turned into your works of diversion, and if so, when and to what extent.

Ans. All of the time

Question 3. State whether or not the works of diversion are fully completed, if so, on what date, and whether or not they comply in all respects with terms of the permit.

Ans. Yes May 19, 1927

Question 4. If the works of diversion do not comply with all the terms of your permit, state fully the portions in which there is any variance.

Ans.

Question 5. Give description of works and state amount of water diverted to each of the works.

Ans. May 10

Ans. Under the authority of which water is to be used, and if the irrigation, state the number of acres and give description of the land you have reclaimed or intend to reclaim.

Answer: Goshen and Salt Spring Springs

I certify that the foregoing testimony was read to the above named persons, and they acknowledged to me that they executed the foregoing instrument for the purposes and consideration therein expressed.
