Re: Adjudication Recommendations

Dear Mr. Yearsley:

Late this year or early next year you will receive copies of our preliminary recommendations for your water rights. The attached map shows the water rights I'm planning to recommend for you. It appears that water rights are recommended for all your irrigated acres, and all your licensed rights are recommended. In addition, beneficial use claim 31-11312 is recommended, which completes the acres needed for the pivot on the north.

I'm writing in advance because at one time I planned to recommend beneficial use claim 31-11313, which would have overlapped the licensed rights 31-7141A and 331-7141B. Upon further investigation, it appears that when you obtained licensed well rights for these parcels, the Hamer Canal rights (which were the basis for claim 31-11313) reverted to the canal company. The company conveyed these rights to other users, prior to being disbanded. These rights are now recommended to other users of the Hamer Canal company. An attached copy of an affidavit you apparently signed in behalf of Mr. Murdock supports this determination.

When you receive your preliminary recommendations, you will notice that right 31-11313 is proposed for disallowal. However, the other rights recommended appear to cover all your land and provide adequate diversion rate for all your systems.

Please call me at 525-7161 or 663-4583 if you have questions. After you receive our preliminary recommendation, you will have an opportunity to request a re-determination in the "Notice of Error" process. Following that process, the recommendations will go to the court. Then you will have an additional opportunity to file a formal Objection with the court, before the final outcome of your water rights is determined.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

beneficial use

Re: Disallowal

After visiting on the phone with Mr. Yearsley, I reviewed more carefully the affidavit, which indicates the basis of this right is Hamer Canal shares purchased by the Yearsleys.

In reviewing and recommending claims 31-62K, 63K, 62L, and 63L, it was determined based upon the attached affidavit that Yearsley had abandoned his Hamer Canal rights at the time of receiving licensed groundwater rights 31-7141A and 31-7141B.

Therefore, 31-11313 will be disallowed with the remark "Recommend as 31-62L and 31-63L."

Re: Permissible Place of Use, Overlap, Beneficial Use Claims,
Shortage of acres on license 31-07287

In 1998 Mr. Yearsley sent a letter regarding his concern that license 31-07287 had been incorrectly licensed for 45 acres instead of 49. When I came across this letter in claims review, I sent a letter inviting Mr. Yearsley to file an enlargement claim, which would have authorized the additional acres but not have provided additional diversion rate. Mr. Yearsley called back recently and was planning to come in to review his claims and perhaps sign an enlargement claim.

Today, in reviewing an overlapping beneficial use claim of Mr. Yearsley's (31-11312), I realized that the additional acres could be asserted as an accomplished transfer of some of the acres originally developed by beneficial use (there is adequate documentation in the file).

I also realized that beneficial use claim 31-11313 overlaps licenses 31-07141A and 31-07141B.

Today I called Mr. Yearsley and suggested that I use beneficial use claim 31-11312 on a permissible place of use basis to pick up the shorted acres on license 31-07287, and that I recommend the other beneficial use claim on a permissible place of use basis with the other two rights. He approved this plan, so I will make the recommendations accordingly.

Identify water right(s) for which extension is requested

State why an extension of time is requested explaining how a diligent effort has been made to meet the deadline:

The original work on these rights was performed while I was living out of State. I hadn't realized until just recently that the date of priority didn't reflect the original date of beneficial use.

Claimant requests an extension to June 1, 19 98
