Change of Ownership

Dear Mr. Hillman:

I appreciated your help and that of your family last week regarding correct addresses for your water rights.

I have printed each water right for you and highlighted the Current Owner(s). Each of the Basin 31 rights has been recommended and shows you either as Current Owner or as Representative.

I have enclosed a Notice of Change in Water Right Ownership for your use. Even though you are Ralph Hillman's son and Representative, you will still need to enclose a legal document showing you as beneficiary of the land and water rights. Additionally, we require an aerial photograph of the properties affected (see Item 2c on the ownership change form).

Please refer to Item 8 on the form regarding fees to reflect you as owner on the six decreed water rights.

RE: NOTICE OF ERROR

Dear Water User:

In your Notice of Error for right 31-07183, 31-07184, 31-07185, 31-07233A, 31-07237, 31-07238 and 31-07242, you disagreed with the recommended diversion rate.

That rate was recommended based upon an existing water right license or formal transfer issued by Idaho Department of Water Resources. Unfortunately, the authority of the Snake River Basin Adjudication does not extend to increasing diversion rates authorized by administrative action.

The only options to change diversion rate are to have the license amended by the Allocation Bureau of the department, or to apply for a new permit based upon pre- 1987 development of diversion capacity.

The standard for changing a license is set very high. It requires proof that the original licensing exam was in error. As a minimum, this requires a report of an independent evaluation by a licensed Professional Engineer and solid documentation of the original design capacity of the installed system. The standard for a new permit is high, but not as high as for an amended license.

I am not encouraging you to pursue either of these options, but informing you what your options are. Please call me if you have questions. I'm sorry I cannot address your concerns.

Sincerely,

Bryce A. Contor

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

QUANTITY: INSUFFICIENT CFS.

2. Describe the changes you wish to make in the proposed recommendation:

INCREASE CFS BY .40 CFS

3. Give a brief explanation as to why you disagree with these portions:

CFS IS LESS THAN INITIAL DESIGN AND PERFORMANCE OF INSTALLED
IRRIGATION SYSTEM.

 I AGREE with this proposed recommendation; no changes need to be made.
