Dear John, Joy, and Deloris:

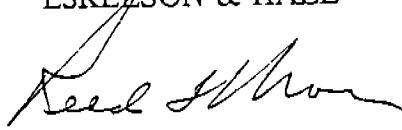

I thought it appropriate for you to know that over the last several weeks I have been discussing your mother's will and have drafted it in accordance with her wishes. She signed it at the hospital the other day. I also taped my discussion with her to confirm her mental acuity and her desires with respect to this will. She was very mentally alert, read the will through thoroughly, made a couple of changes, and then signed it before the witnesses. Hence, I believe everything is in proper order and that her will is a valid and binding instrument.

I also wanted you to know that she asked me to keep the will in our safe at least for the time being until she gets home or otherwise directs what to be done with it. I thought you should know that we have it here in our safe.

She expressly asked that the three of you serve as co-personal representatives of her will and estate. Hence, this letter to you so that you will be fully informed. If you have any questions, feel free to give me a call.

Best regards,

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent
