RE: Notice of Change of Water Right Ownership (NCO) for 31-174C and 31-10173 and Notice of Completed Administrative Proceeding (NCAP)

Dear Mr. & Mrs. Perschon:

On October 30, 2001, the Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Cheri Vandermeulen

Subject: 31-10173

I have been re-reviewing rights with stockwater claims. I have again come upon 31-10173.....you know the one for Robert Lee. I'm not sure I like it and I think it needs some legal review in particular, since I have disallowed the irrigation portion. The claim says it combines portions of 31-00066 thru 31-00069. Brief history; 66 and 67 are natural flow rights from Harmon res., 68 and 69 are storage components. Harmon res. went out, as in washed away, many years ago.....so the storage part is gone.

31-00066 and 67 are from West Camas Creek but the claim is from Crab Creek, which is dry most of the time. OK, C02, C03.....but what about the P19, P04 and every thing else that represents forfeiture, etc. of at-least the irrigation part. I do want to keep the stockwater part but.....now I' soooooo confused.
Help.....al

Re: A31-00174A, A31-10173

Dear Mr. Ruberry:

I, Delos Stucki, hereby certify that the water right claim A31-00174A is valid for the following reasons:

1. I purchased the SW 1/4 and the E 1/2 NW 1/4 of Section 13, T 12 N, R 38 E in 1980 and have first had knowledge of irrigation and stockwater use through October 7, 1999 when I sold the property to Robert R. Lee of Rexburg, Idaho.
2. I personally put temporary dams in Crooked Creek to divert water downs various ditches and waterways in the SW 1/4 of Section 13, T 12 N, R 38 E. The water was put to beneficial use by growing pasture grass for cattle.
3. I personally placed my own cattle in the SW 1/4 and the W 1/2 NW 1/4 of Section 13, T 12 n, R 38 E and utilized Crooked Creek for stock watering.

The claim no. A31-10173 for stockwater is valid because:

1. In 1980 I purchased the W 1/2 E 1/2 Section 12, T 12 N R 38 E and have firsthand knowledge of the utilization of Crab Creek for stock watering until October 7, 1999 when I sold the property to Robert R. Lee of Rexburg, Idaho. The first time I used this creek for stockwater was in April of 1980. The former owner Mr Arlo Grover also used the creek for stockwater before I purchased the property.
2. I placed my own cattle on the W 1/2 E 1/2 Section 12, T 12 N R 28 E and utilized Crab Creek for stock watering, thereby putting the water to beneficial use.

The claim no. A31-10173 for irrigation was not able to be realized because of lack of water. A temporary dam was placed in Crab Creek, but upstream diversions reduced the flow to such an extent that irrigation wasn't feasible.

Sincerely,

Delos Stucki

MEMORANDUM

21 September 2000; 2:45pm

To: The Files of A31-00174A and A31-10173

From: A. Ruberry

Subject: Statement by Mr. Delos Stucki

Mr. Delos Stucki was in to discuss and illustrate on GIS maps the portions of the lands irrigated as claimed by A31-10173 and A31-00174A.

First, a discussion of the Crab Creek Claim A31-10173. Mr. Stucki stated that he never did have enough water to divert for the purpose of irrigation. That he had drilled a well, about 1985, for stockwater, described to be in the NENWSE corner of Section 12, T12N., R38E. He had also dug a large hole on the Hunter property and had drilled a well for the purpose of stockwater. Both operated from an electrical easement from the Hunter piece, to the East (now owned by Wayne Winegar).

Discussion of the claim A31-001714A. Mr. Stucki described the diversion as piled rock to divert Crooked Creek waters down the Hunter ditch a short distance where he dammed the ditch and caused the water to flow out and around below the fenceline. This diversion, as described, was found during the field exam conducted July 21, 2000. It is not the same POD location as claimed on 31-00174A. The irrigated area described is below the small topographic bench where the fenceline runs in a NE to SW trending direction. Mr. Stucki described irrigation practices as being between the fenceline and the Crooked Creek channel, in what he described as being old stream channels. He stated that no irrigation occurred on the North(west) side of Crooked Creek. And, that he could not irrigate the lands lying SE of the Crooked Creek channel (these lands are lying in a slight up hill gradient from Crooked Creek).

RE: EVIDENCE TO SUPPORT BENEFICIAL USE OF SNAKE RIVER BASIN
ADJUDICATION (SRBA) CLAIM(S) A31-00174A, A31-10173

Dear Mr. Lee:

The Idaho Department of Water Resources is reviewing SRBA claims in the Kilgore area of Basin 31. Our office conducted a field exam of the above referenced claim(s) but failed to find evidence of beneficial use. Idaho Code 42-222, paragraph 2 states, "All rights to the use of water . . . shall be lost and forfeited by a failure for the term of five (5) years to apply it to the beneficial use for which it was appropriated . . ."

To avoid forfeiture, please provide evidence of water delivery and payment of the water district assessment prior to 1987. This proof must be provided within 21 days of receipt of this letter to avoid a disallowal recommendation to the Snake River Basin Adjudication court.

If you no longer own the property appurtenant to the above referenced claim, please contact our office so we can notify the current owner of this matter.

Sincerely,

For Allen Ruberry

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY

Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent
