RE: EVIDENCE OF PRIORITY
=====

Mrs. Barrett called me in reference to the "evidence of priority" letter sent out on the 8th. The two claims are filed as expansions of licensed groundwater rights. The licenses cover irrigation of lands under center pivots. The expansion claims are for irrigation of the pivot corners. I explained to Mrs. Barrett that she needed to submit evidence supporting that the pivot corners were first irrigated in 1981, as claimed.

She checked with her husband, who then talked with me. He said that they have always planned to installed corner systems on the pivots, but they have not done so to this date. I asked Mr. Barrett if the corners had ever been irrigated. He said they had not. He said that they filed the expansion claims so that they would "have enough water available later on when they did want to install corner systems". I explained that we could only recommend water rights that had been developed as of 1987. If no use has occurred to date, there probably isn't a water right for it. I mentioned that if they do in fact plan on installing corner systems and bring this land into production, they would need to file an application for permit.

I told him we would consider any evidence that they could provide in support of the claims. But if there had in fact been no use, the right would not be recommended.
