RE: Application For Permit

Dear Mr. Nelson,

Enclosed is the partially completed Application for Permit. Please look it over and initial any changes you wish to make and return it to this office with the filing fee of \$100.00.

Highlighted in yellow are areas which you need to fill in. Item 6e asks when the well was drilled. If you do not have that information, you may leave it blank or fill in an estimated date. If the date is estimated, please make a note as such.

Also enclosed are two affidavits describing historical use of the well for irrigation, power records with the North Water Measurement Field exam done by Bryce Contor, and two memo's from Mr. Contor concerning calculation of the diversion rate from the well and his conversation with Ted Adamson.

Please include the affidavits and copy of the power record with your Application for Permit.

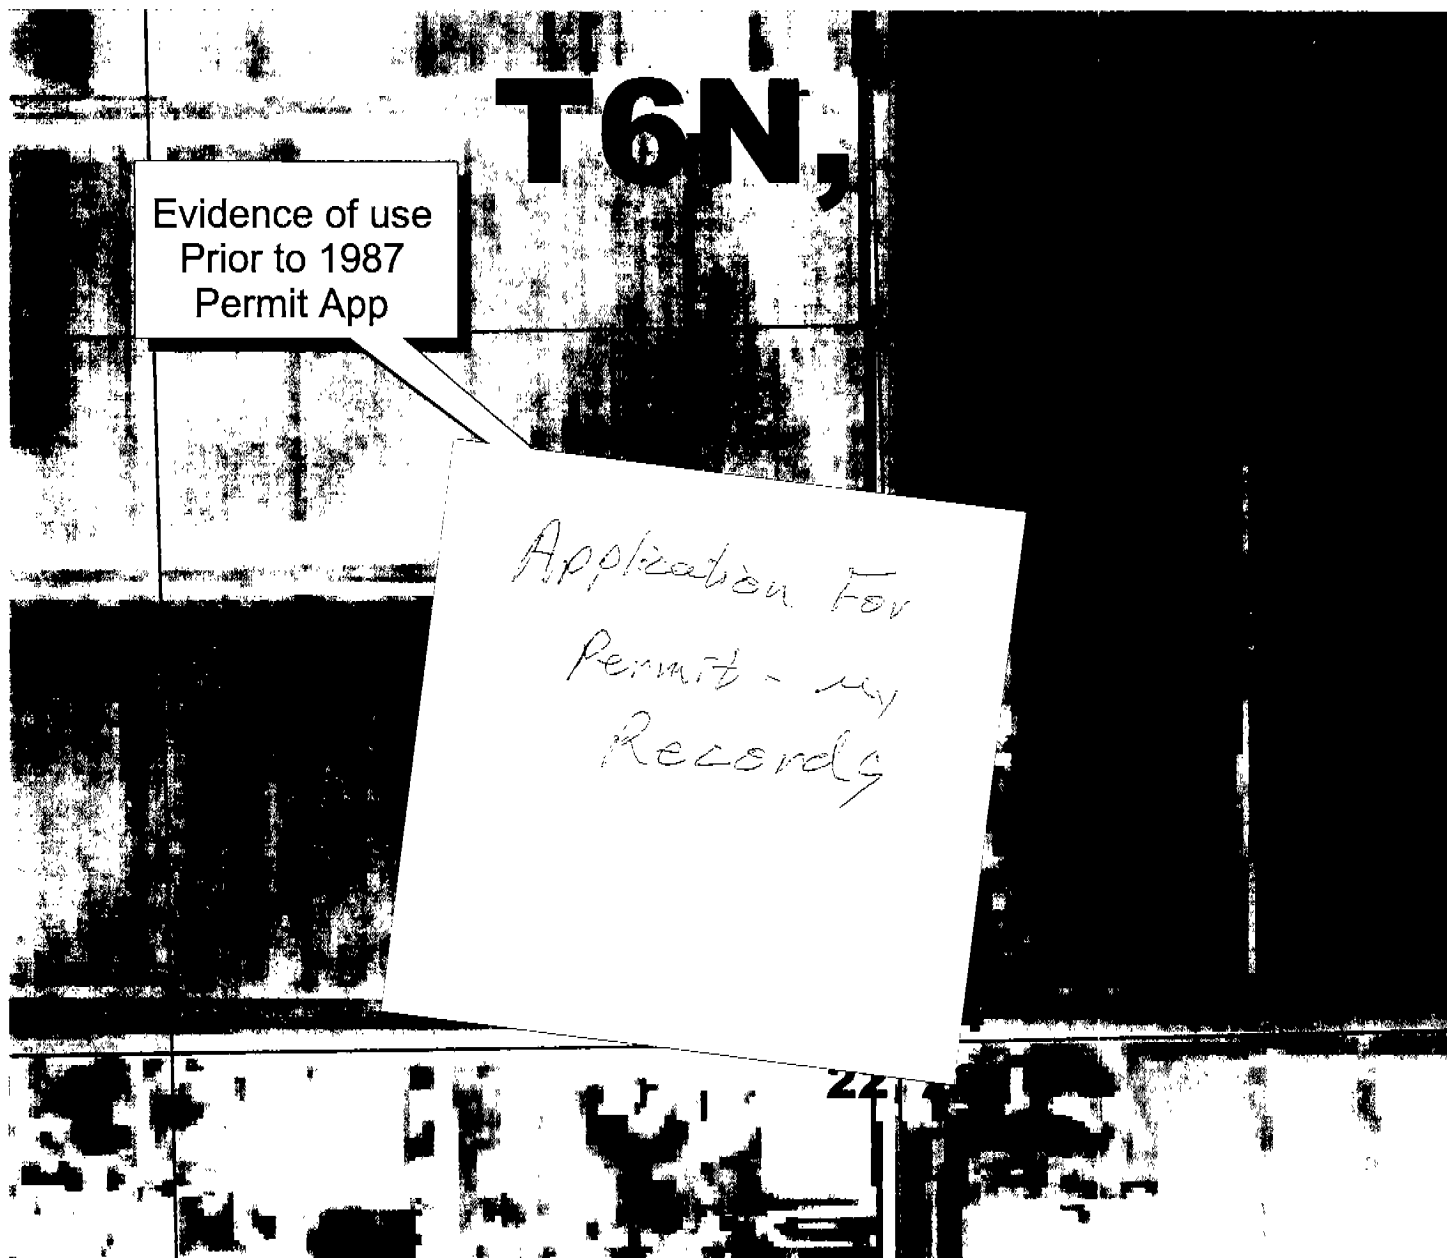

Feel free to contact me at (208) 525-7161 if you have any questions.

Sincerely,

Craig L. Saxton
Water Resource Agent

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant _____ Phone _____

Mailing address _____

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is Township 6 N Range 34 E Sec. 15, in the SE 1/4, SE 1/4, SE 1/4, Govt. Lot _____, B.M., Jefferson County; additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.06 for Irrigation purposes from 4/1 to 10/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 0.07 and/or (b) 9.5
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source Pipeline and 9 lines of sprinkler pipe

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet

d. Is ground water with a temperature of greater than 85°F being sought? _____

e. If well is already drilled, when? _____; Drilling firm _____

Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

a. Hydropower; show total feet of head and proposed capacity in kW.

b. Stockwatering; list number and kind of livestock.

c. Municipal; show name of municipality.

d. Domestic; show number of households.

e. Other; describe fully. N/A

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: *D* for *Domestic*) in the corresponding place of use below. See instructions for standard symbols.

MEMORANDUM

To: Craig Saxton
Fr: Bryce Contor
Date: 2/28/2001 
Re: Power Bill for LDS Ball Diamond

The attached power bill was supplied to me by Bishop Robert Coleman of the LDS church in Terretton.

The bill shows demand of 5.5 kilowatts. In 1997 I measured 5.53 kilowatts while the sprinklers at the ball diamond were running. The bill is for 1129 kilowatt hours. At the measured PCC of 960 kilowatt hours per acre foot, this translates to about 1.2 acre feet of irrigation. The billing cycle is approximately one month, and the irrigated area is about 1 1/2 to two acres. This calculates to about 0.3 inches of irrigation per day, which almost a textbook value for summertime turf grass requirements.

I conclude that the power bill is consistent with the claim that the irrigation system was in place prior to 1986.

2/12/01

To Whom It May Concern:

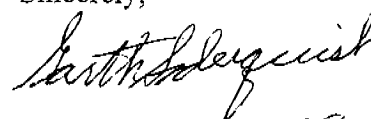

I moved to Mud Lake in 1948. At the time the portion of the church farm that is now the ballpark was flood irrigated as part of the farm.

Two homes were on the southeast corner of this farm. Both had small gardens irrigated from this well. The well was also used for the homes. At this time the well also furnished water for the store and several homes and businesses across the highway to the south.

About 1977 the church needed a ballpark so the land north of the houses was set off from the farm and put in grass. It was flood irrigated at this time.

A few years later after 1977 the houses had been moved or burned and a sprinkler system (hand lines) installed to better irrigate the lawn. This system is still in use at the present time.

Sincerely,

Terreton, Idaho 83450

PO Box 94

To Whom It May Concern:

In the period of about 1976 to 1981 I was 1st Councillor in the LDS Teretou 2nd Ward Bishopric. I was in charge of the LDS Church Farm, including 3 houses and a ball field. The culinary well, located just south of the ball field, was supplying water to the three houses, yards, & gardens, as well as the grocery store, the Post Office, and two houses across the street to the south.

A culinary well was drilled about this time on the south side of the road to supply those buildings there also, at this time, two of the houses on the Church farm were torn down and one was moved off.

The ball field was being flood irrigated out of the Owsley Canal irrigation ditch. This was an unsatisfactory method of irrigation because the field was not level and the water had to run so deep that the field was unuseable for several days. With the houses gone, and another well across the street, this made it feasible to use the

existing well to sprinkle the ball field.

A pipeline and nine lines of sprinkler pipe was put on the ball field in 1977 and has watered the field since that time. There was no requirements on water rights and points of diversion, etc at that time.

Thank you,
Lynn Wood

Please print or type. Attach pages with additional information. Instructions are included at the end of this form. Department of Water Resources
 Incomplete forms will be returned. Eastern Region

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
A31-10340					

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Terreton Corporation of The Church of Jesus Christ of Latter-day Saints, a corporation sole
Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints, a Utah corporation sole.
4. New Owner/Claimant(s) _____
 Name Connector (Check one): ☐ and, ☐ or, ☐ and/or
- New Mailing Address Real Estate Division, 12th Floor East, 50 East North Temple
- City, State and ZIP Code Salt Lake City, Utah 84150-5670
- New Telephone Number (801) 240-4656
5. Date you acquired the property November 8, 1981

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

RE: AMENDMENT OF CLAIM 31-10340

Dear Mr. Nelson,

I received the Notice of Change of Ownership and signed claim 31-11615. The only thing I am missing is the signed amended claim 31-10340.

For your records, 31-10340 was originally claimed irrigation for the ball diamond. Since you are going to apply for that irrigation water under the Application For a Permit, our plan was to amend 31-10340 to domestic use for the proposed meeting house south of the ball diamond.

For your convenience, I am enclosing a copy of the proposed amended claim 31-10340. Please look it over and initial any changes you wish to make. Then sign the claim in front of a notary and return it to me as soon as possible. There is no fee for this amendment.

As always, feel free to contact me at (208) 525-7161 if you have any questions. I apologize for the inconvenience, but I am encouraged that we are getting these details worked out.

Sincerely,

Craig L. Saxton

Re: LDS ball diamond at Terreton, Idaho. Claim A31-10340 *fac*
LDS chapel at Terreton, Idaho.

Dear Brother Pincock:

Recently we sent you a copy of the proposed water right recommendations for the church's claim to water in the Snake River Basin Adjudication, for the recreational property and ball diamond at Terreton. We are now in the "Notice of Error" period, during which claimants can inform us of disagreements they may have with our proposed recommendations. In April we will forward our final recommendations to the court. That will mark the beginning of a six-month formal "Objection" period, during which claimants may object to the court if they still disagree with the recommendations. If settlement cannot be reached, the court will schedule a trial. Following the trial or other settlement, the court will issue a decree for the water right.

I have met a couple of times with Bishop Robert Coleman of the Terreton II Ward. He raised the following concerns:

1. The claim for irrigation of the ball diamond was proposed to be disallowed. Bishop Coleman believes a water right should be recognized for irrigation.
2. There was no domestic use recommended at the ball diamond. He believes a domestic right is necessary to reflect the historical fact that a home or homes were on the property up until 1987, and to preserve the ability to develop a recreational facility or perhaps a meeting house on the property.
3. He asked that I double check the status of the water rights on the chapel just south west of the ball diamond.

This morning I talked on the telephone with Brother Bill Nelson of your office. He raised some additional concerns:

4. The recorded name on the claim should be "The Corporation fo the Presiding Bishop of the Church of Jesus Christ of Latter-day Saints, a sole corporation of Utah."
5. There was no GIS (Geographic Information Systems) illustration, nor tabular listing of water right elements, included in the mailing.

6. Historically the well supplied not only the homes on the lot, and prior to that the State Highway shed on the lot, but it also supplied a number of homes and business on the south side of the highway in Terreton.
7. The ball diamond was irrigated by water from Owsley Canal Company prior to being irrigated from the well. Owsley Canal was a holder of groundwater rights and therefore the ball diamond was historically irrigated partly by groundwater. Owsley is now part of Mud Lake Water Users, Inc, and the church is still a shareholder in the new entity.

I tried to resolve these concerns with Brother Nelson, but he was somewhat frustrated with the red tape I have to wade through, and we never got to the point of discussing possible solutions to these issues. He called again a few minutes ago with further requests:

8. A copy of the current printout of claim A31-10340.
9. A copy of the GIS image.
10. Hold all materials until you can look at them.
11. Have this claim assigned to someone else, to avoid conflict of interest.

I will try to respond to these items in order:

1. Irrigation of ball diamond. Because the irrigation of the ball diamond from the well commenced after the effective date of the mandatory permit statute (1963), it cannot be recommended as a beneficial use right in the adjudication. However, as Brother Nelson pointed out, the land was previously irrigated from the canal and the church still owns the canal shares.

There a number of options the church may wish to consider:

- a. If the canal company wishes to file a transfer adding the church's well as a point of diversion, the irrigation may continue under the canal company water rights.
- b. If the canal company wishes to deed to the church a portion of the canal company's rights, the church may file a transfer moving those rights to a new point of diversion.
- c. The church may wish to purchase another groundwater right and file for a transfer to a new place of use and new point of diversion.
- d. If the church can document that the irrigation use commenced prior to 1987, the church can apply for a permit for a new water right. Currently, this area is under a moratorium that precludes development of new irrigation rights. However, had the church applied for a permit at the time of development, it would likely have received it. Therefore, we will consider a special case of a "pre-moratorium exemption" permit application.

Water Rights Supervisor Harold Jones informs me that the standard for documentation for this type of permit is higher than for adjudication claims. Generally, receipts showing development of the diversion works are required, or power bills showing adequate consumption to demonstrate production of the claimed volumes of water.

Bishop Coleman informs me that all the materials and labor were donated, so no receipts exist. Furthermore, power records dating back to the time of development have not been retained. The enclosed memo of my interview with former Stake President Ted Adamson provides some documentation, and Bishop Coleman indicates that former Farm Manager Lynn Wood is prepared to sign an affidavit. Supervisor Jones indicates that with this information, he would forward the permit application to Boise with a recommendation to

approve, but he is uncertain what decision Boise would make.

Enclosed is a permit application, if you wish to pursue this path. The affidavit from Brother Wood would be essential, along with my memo. Also enclosed is a copy of the Water Measurement District exam showing the current capacity of the delivery system.

2. Domestic use at ball diamond. Domestic use was not recommended because it was not claimed. However, the interview with President Adamson would allow recommendation of domestic use, if the claim were amended. The enclosed amended claim would allow this recommendation to go forward.

At this time, domestic uses are not required to be claimed, and a new domestic use from groundwater can be developed without a water right permit. So filing this amended claim is completely optional, as you choose.

3. Domestic use at Terreton Chapel. I incorrectly told Bishop Coleman that I believed the school district, which shares the well, had filed on the water. The school's filing only includes the school's uses. Enclosed claim 31-11615 was prepared so that you may claim the church's use of water from that same well. If you wish, you may return that claim with a notarized signature and a \$25 fee. The priority date I used is from the school's claim; if you have documentation of a different date, please mark and initial the change, and attach the documentation. The claim is your document, though I have made a copy for your convenience. You may prefer instead to fill out the enclosed blank claim form.
4. Name on claims. The courthouse confirms that the current owner of the property is "The Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-day Saints, a Utah corporation sole." Please FAX to 207-525-7177 the exact wording of the name and address you wish to appear, and we can update the records. If you have other rights you wish to update, please list them on the enclosed "Notice of Change of Ownership" and return with requested documentation. The \$25 fee mentioned on the form applies only to those rights already decreed in the Snake River Basin Adjudication, it is not required for those rights that are still just claims. Note that internal church documents may not satisfy our legal folks as to ownership of property; deeds are generally required.
5. There is no GIS image of the recommended place of use, as the claim was proposed to be disallowed. However, I have made and enclosed a GIS map of the place of use currently irrigated from the well, for your convenience.
6. Use of water on other lots besides the LDS property. In the mind of the department, those water rights belong to the successors in interest of the persons who originally developed and used them. This is true even though the rights originally were diverted from the well now belonging to the church. It appears that those rights are still valid and are now being enjoyed through newer wells closer to the places of use.
7. Use of Owsley Canal water. As explained above, the church may wish to look to the canal company water rights as a source of water rights from this well. As the water rights now belong to Mud Lake Water Users, it is Mud Lake Water Users that would have to initiate a transfer to the church's well.
8. Printout of claim A31-10340. This will be unchanged in content from the 1993 copy Bishop Coleman showed me, as the claim has not been amended since 1993. The format will be somewhat different due to a new computer system. Also enclosed is a photocopy of the original claim, with the signature of Bishop Lee.
9. GIS image. Enclosed, as described above.
10. Hold all materials. I believe this means that IDWR should not accept signatures of local church officials. This is not a problem.

11. Assign this claim to another person. Craig Saxton has agreed to take over this file. When you have reviewed these materials, you may call him at 208-525-7161. He is a good humored man and very competent. I will try to familiarize him with the situation to save you some time and streamline the process.

I apologize for the grief this caused Brother Nelson. I wish you well in sorting out this and future water right issues. You may wish to visit with Mr. Saxton about the general process of the adjudication and the difference between licenses, decrees, beneficial use rights, adjudication claims, recommendations, and Snake River Basin Adjudication partial decrees. This may smooth the road as other church rights are recommended in the future.

Sincerely,

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY
Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number 31-11615
Date Received: 2/14/01
Receipt No:
Received By:

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

1. Name of Claimant(s)

CORPORATION OF PRESIDING BISHOP OF THE CHURCH OF JESUS CHRIST OF LATTER-DAY
SAINTS, A UTAH CORPORATION SOLE Phone:

REAL ESTATE DIVISION
TWELFTH FLOOR SOUTH
500 EAST NORTH TEMPLE
SALT LAKE CITY UT USA 84150-5670

2. Date of Priority: 04/01/1958

3. Source: GROUND WATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4 Lot	County	Type
06N	34E	22	NW NW NE	JEFFERSON	

5. Description of diverting works:

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
DOMESTIC	01/01	12/31	0.04	

7. Total Quantity Appropriated is:
0.04 C.F.S.

8. Total consumptive use:

9. Non-irrigation uses:
Number of other uses: 1

10. Place of use:

Township	Range	Section	1/4 of 1/4 Lot	Use	Acres
06N	34E	22	NW NE	DOMESTIC	

11. Place of use in counties: JEFFERSON

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

DOMESTIC USE IS FOR CHURCH MEETING HOUSE WITH SMALL LAWN AREA.
THIS RIGHT IS DIVERTED FROM THE SAME WELL AS RIGHT 31-10294.
CLAIM GIVEN 'TEMPORARY' DATABASE STATUS PENDING RETURN OF SIGNED CLAIM.

15. Basis of Claim: Beneficial Use

16. Signature(s)

MEMORANDUM

To: File 31-10340
Fr: Bryce Contor
Date: 2/9/2001

Re: History of Beneficial Use

Last night I visited with Robert Coleman, currently serving as Bishop of the Terreton II Ward of the LDS Church. He has lived in the community since 1957 and is familiar with the history of the well claimed under 31-10340 as well as with future plans. He provided the attached affidavit and signed the Notice of Error Reply, disagreeing with the proposed disallowal of this claim. Some highlights of our conversation were:

- The well was in use in 1957 when he came to the community, for a house and for the state highway shop. An unknown number of other buildings on the south side of the highway, in the main part of the town of Terreton, were also originally served by this well.
- By 1987, only one home was served from this well. This home was moved off the property in the summer of 1987 but the well continued to serve for irrigation of the church ball diamond.
- The well sits on an 8-acre parcel within a 160-acre church farm. The two parcels are deeded separately; the 8-acre parcel is intended for a future building site for a church building and the 152 acre parcel is deeded as a welfare production farm.
- The planning horizon for the new church building is tentatively within the next five years but this is not certain.
- The church owns 160 shares of Mud Lake Water Users (formerly Owsley Canal Company) for irrigation of the entire parcel. Originally the entire parcel was flood irrigated, but the flooding softened the soil around the power poles along the ball diamond. A pole fell over, creating a safety hazard, so it was decided to sprinkle the ball diamond from the domestic well. Mr. Coleman is uncertain of the date this occurred, but another individual, Garth Soderquist, told me he thought it was about 1982. Mr. Coleman is trying to research the date of the installation of the sprinklers.
- Subsequently, the farm has installed a center pivot. The current irrigated acreage, adding the pivot and ball diamond, is no more acreage than was originally flood irrigated with the canal company water. The canal company holds groundwater rights and in some years groundwater is the primary component of the water delivered by the canal company.

I did not have the claim file with me when we met, so I don't know the date the claim was filed nor the claimed purposes of use. I told Mr. Coleman the following:

- If the claim does not include domestic use, an amended claim will need to be filed.
- If the original claim was filed within five years of removing the house, we can recommend domestic use based on his affidavit.
- This domestic use can be applied to a church house if the church is built within five years of a partial decree. This will only include 1/2 acre of irrigation as limited by the definition of "domestic." We also discussed the 2,500 gallon-per-day limitation of a non-residential domestic right.

- If this claim is not recommended, or if the church house is not built within five years, the church can still apply for a domestic well just to service the church.
- If the documentation indicates that the irrigation of the ball diamond began before November 1987, the church can apply for a permit based on pre-moratorium development. I gave Mr. Coleman the name and phone number of Harold Jones.
- Since the church owns Mud Lake Water User's shares for the entire parcel, and since the ball diamond was historically irrigated with canal water, Mud Lake Water Users could apply for a transfer to add the ball diamond well as an additional point of diversion.
- The church could also purchase a portion of a private ground water right and apply for a transfer to move it to the ball diamond place of use and point of diversion.

Mr. Coleman can be contacted at 208-663-4515. His mailing address is 1022 E 1700 N, Terretton, ID, 83450.

Subject: a31-10340 NOE (Terreton LDS Ball Diamond).

I received an NOE on this a couple of days ago. The claimants want to work with me on getting it squared away because I am familiar with the diversion, having dealt with it in the Water Measurement District. Is that OK?

MEMORANDUM

To: Terreton LDS Beneficial Use Claim 31-10340
Fr: Bryce Contor
Date: 2/10/2001 *Bryce*
Re: Conversation with Ted Adamson

Today while visiting with Mr. Edwin Adamson of Terreton about another claim, I asked him what he knew about the LDS church ball diamond in Terreton.

Mr. Adamson has lived in Terreton since 1926. When he came to Terreton, there were buildings at the site of the ball diamond but he does not know if there was a well. When he returned from the war in late 1945, the Harris family had a well there. He believes the church purchased the farm about 1950. The well has been used continuously since then.

Mr. Adamson served as LDS Stake President from 1973 to 1983. It was during his tenure that the ball diamond was built, he thinks about 1975 or 1976 but definitely before 1980. He recalls the incident of the power pole tipping over, referred to by Mr. Robert Coleman (see memo in file). Mr. Adamson doesn't remember the year that the irrigation was converted to sprinklers but he is certain that it was during his tenure and therefore before 1984.

CLAIM NO. A31-10340

AFFIDAVIT

To Whom it May Concern: I, Edwin Adamson, having been a resident of this area since 1926, and having lived adjacent to the point of diversion mentioned in the attached listing, attest that, to the best of my memory, ground water from the aforementioned diversion has been continually in use for other than irrigation purposes since 1939, and that the present well (a replacement or supplement to the original) was probably drilled in the early 1960's.

Re: Snake River Basin Adjudication (SRBA)
Adjudication Claim No.: A31-10340

Dear Claimant,

The Department of Water Resources will be conducting adjudication claim verification examinations in your area the week of May 9th. After these examinations are complete, your water rights will be recommended for decree by Judge Hurlbutt in the Snake River Basin Adjudication. The recommendations will be based on our findings in the field.

Information on your claim that may need to be verified includes: the source of water used, water uses and amounts of use, legal descriptions of the point of diversion and place of water use, etc..

It is not mandatory that you accompany the field agent during the examination. However, it would be very helpful if you, or a knowledgeable representative, could be available should questions arise.

We will be contacting you to schedule the examination. If you have questions, or are ready to schedule the examination now, please call us in Boise.

Sincerely,

Roxanne McCarthy
(208) 327-7925

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY
Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent
