Dear Sir or Madam:

On January 17, 2002, the Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Cheri Vandermeulen

Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following REQUIRED information must be submitted with this form:

- A. The appropriate FILING FEE. See instructions for fee amounts.
- B. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, WITH ATTACHED LEGAL DESCRIPTION.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency AERIAL PHOTO with the irrigated acres outlined and point(s) of diversion clearly marked. The AERIAL PHOTO should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Re: Notice of Error Review

In response to the Notice of Error disagreeing with the number of acres recommended, I have reviewed the attached documentation provided today by claimant (attachments in 31-10503).

1. GIS illustration of adjusted place of use. Prepared by myself according to following analysis.
2. 1987 FSA map. Provided by claimant, verified by phone call to Steve at FSA office in Rigby.
3. Affidavit of Brent Ashcraft.
4. 1978 FSA map.
5. County plat map.
6. Excerpts from Boyd Ashcraft diary, 1978 (three pages).

I also reviewed again the license exam for 31-7203, copy in AJ file 31-7203.

Based on the Brent Ashcraft affidavit and the Boyd Ashcraft diaries, it appears irrigation took place on the west side of the old Hamer Canal. The 1978 map was inconclusive to me, as was the 1980 black and white NAPP in the office (copy not included). I relied on the license exam sketch to add more acres in the NWNW of section 23, and I relied on the 1987 FSA photo to add more acres in NENE of section 22.

I called Steve at the FSA office in Rigby, because the copy Mrs. Ashcraft provided was difficult to interpret. Steve confirmed that Mrs. Ashcraft picked up a copy of the 1987 photo just a few days ago. We reviewed enough details of the map that I am confident that is what she provided to me.

Steve carefully described to me what was and was not irrigated in the NENE of 22. Mrs. Ashcraft had proposed that there was a rectangular area in the very NENENE that was irrigated, but Steve said his maps showed it as non cropped.

The final shape I propose recommending is 462 acres, as shown on the attached layout. The licenses and Hamer Canal rights with appropriate overlaps cover 407 acres, and the enlargement 31-10503 is for 45 acres. This adds up to only 452 acres, so an amended enlargement claim will be presented to Mrs. Ashcraft for signature.

Subject: Irrigation patterns on Hamer farm for the years 1976-1977, and 1980
Written by: Brent Ashcraft
Date: February 14th, 2001

During the years (1976-1977, and 1980 I was responsible for irrigating what we then called the Hamer farm, which is located just South West of Hamer Idaho. I was 17 years old in 1976 and was given this responsibility after the Teton Dam broke and the man responsible for the irrigation had to leave to take care of his personal needs (since his house had been in the Rexburg area and had been destroyed by the flood). My father, Grant Ashcraft, could not find another hired man to run the irrigation in such a short notice so he asked me if my friend (Calvin McDonald) and I could take care of it until he found someone. He never found anyone so we ran the irrigation all summer in 1976. In 1977, we added another friend (Howard Blaser) and watered in Hamer as well as moved hand lines at Indian creek near Dubois. In 1978, I left on a 2 year mission to Sweden. When I returned in 1980, I was again in responsible for irrigating the Hamer farm with the help of my younger sister Debra. A brief overview of how and what we watered follows:

Circle #1- The West circle, was East of the Farm house and corals. The circle went through the canal South of the house to water part of the field that was on the West side of the canal.

Circle #2- The East circle, watered the East end of the property on the East side of the power lines.

North wheel lines - watered the North end of the property from the canal to the East end of the property. The wheel lines could not water to the canal on the North end, because the canal curved back to the West as it went North. This curve was only in the first few pipe from the pump, then the canal straightened out and went parallel with the pipe lines. The section between the wheel lines and the canal was watered by a hand line (the same hand line that was used on the West side of the canal).

South Wheel lines - watered the South end of the property from the little irrigation ditch on the West side, to the power lines on the East side.

Hand lines were placed in the areas that could not be watered by the circles and wheel lines.

Lines #1 and #2 - watered North West of circle #1. Line #1 went North to the road, and Line #2 went South to the corals. They went as far West as farming would allow. Due to rocks, the line going to the North could not go as far West as the line going to the South. A house was being built in the North West corner of the property and we never watered as far West as the house. The line going to the North did have to water on both the West side and the East side of the canal because the canal curved and the wheel lines could not cover the entire East side of the canal. The line going to the South watered only on the West side of the canal.

Line # 3 - watered the North East corner of Circle #1

Line # 4 - watered South West of house catching the West end of Circle #1.

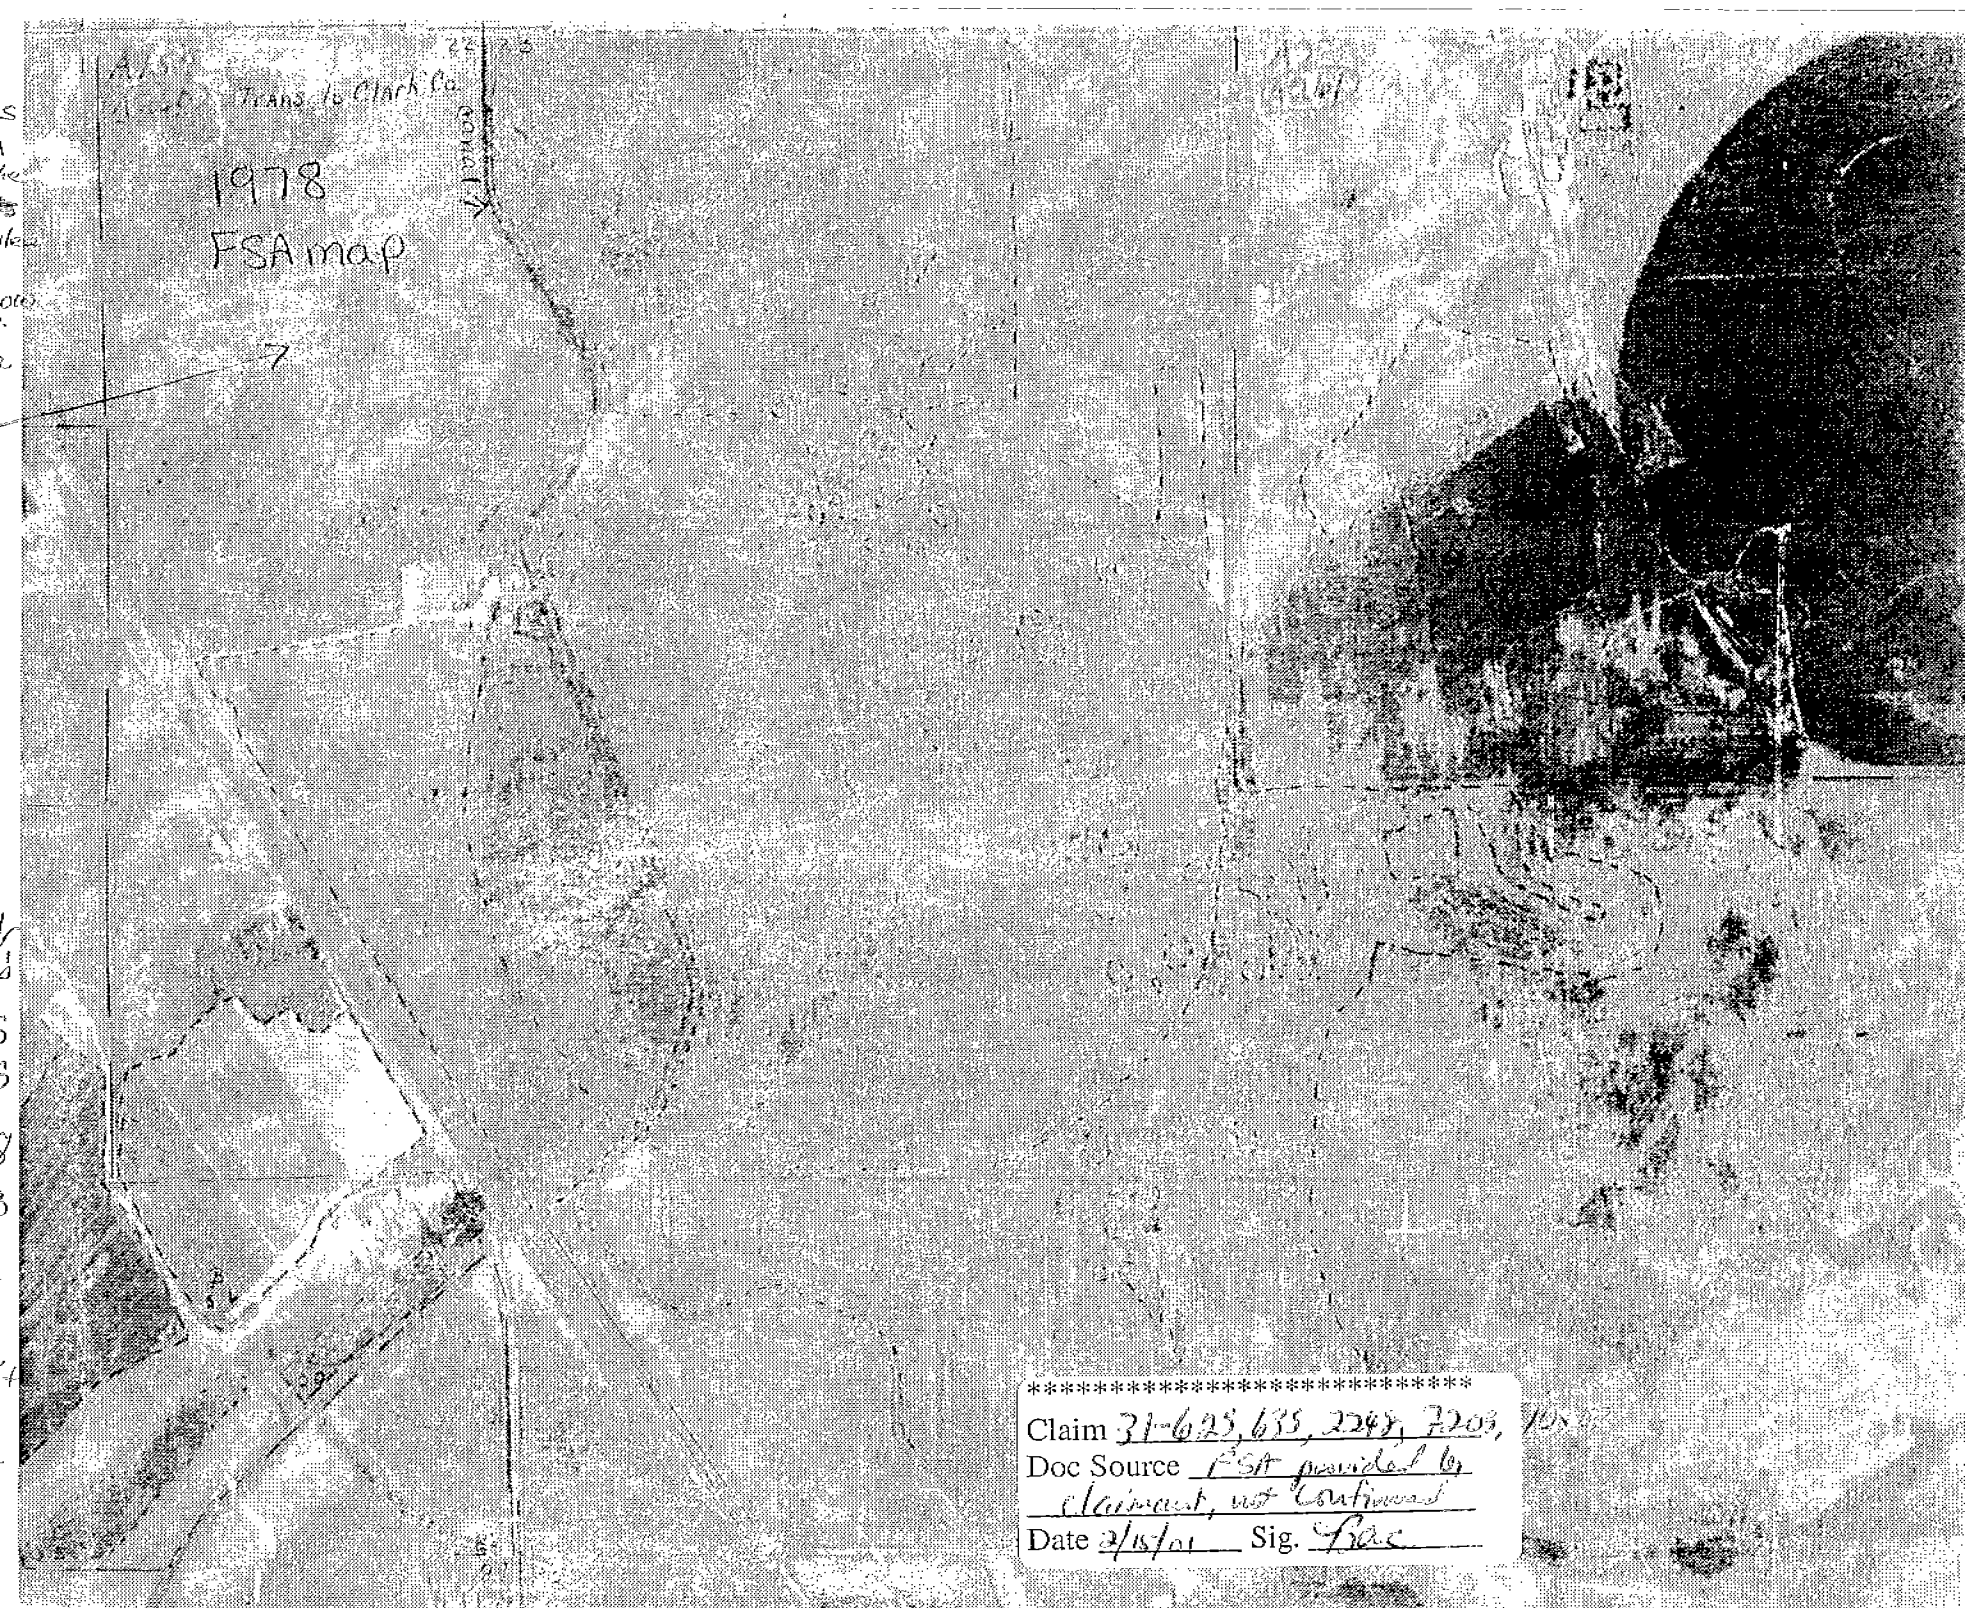

Line # 5 - watered the South West corner of the property. South of circle #1, between the West fence line and the little irrigation ditch where the wheel lines stopped.

MEMORANDUM OF UNDERSTANDING

This memorandum of understanding is entered into by and between Water District 1 (hereinafter District 1) and the waterusers of the Eastern Water Measurement District, (hereinafter EWMD) acting through the advisory committee.

WHEREAS, the statutes of the State of Idaho provide that "the appropriators or users of any public waters of the state of Idaho shall maintain to the satisfaction of the director of the IDWR suitable headgates and controlling works at the point where the water is diverted; and

WHEREAS, to determine the amount of water being diverted in unadjudicated areas the director is authorized to create water measurement districts to carry out the water measuring requirements found in state law; and

WHEREAS, the Eastern Water Measurement District was created pursuant to Idaho Code §42-607 and given the responsibility of reporting to the director the amounts of water diverted from the public waters within the boundaries of the district; and

WHEREAS, Water District 1 has proposed to provide the agreed upon inventory measurement services to the EWMD and has been elected as the hydrographer in charge for the year starting January 15, 1997 and ending November 3, 1997.

NOW, THEREFORE, upon election of the Snake River Watermaster as the hydrographer in charge of the EWMD, and the approval of the adopted budget, Water District 1 agrees to provide the services, on a year-to-year basis, as provided herein.

WATER DISTRICT 1 RESPONSIBILITIES

1) District 1 will, under the direction of the watermaster acquire, as needed, and provide for the benefit of the EWMD, all personnel, vehicles, equipment, facilities and supplies necessary to accomplish the work effort outlined in The Scope of Work. (See attachment.) All items obtained specifically for or allocated for the benefit of the EWMD will be billed at cost to the EWMD account, eg. leased vehicles, cellular telephones, fuel, field supplies employee salaries and benefits, advisory committee expenses,

Re: Enlargement Claim 31-10503

Dear Mrs. Ashcraft:

When we reviewed the maps and photos you brought in yesterday, we adjusted the acreage on the Hamer farm to 462 acres. However, the claims only add up to 452 acres.

In order for me to recommend the full 462 acres, I need you to mail the enclosed Amended Claim with a notarized signature and a check for \$10.00.

Please call me at 525-7161 if you or your sons have questions or concerns.

Re: Overlap analysis, Quantity and Acreage Limitations

These five claims are overlapping, and effectively are for a permissible place of use. The first four rights were addressed in the overlap review of 31-07203, and 31-10503 is an enlargement claim.

Since the four licensed or decreed rights were addressed in the overlap review and license for the most recent license, I will use the rate and volume limitations included on the license.

The POU sketch on the license exam closely parallels the GIS POU. However, the license is for 407 acres while the GIS totals 446, for an enlargement of 39 acres. The enlargement claim 31-10503 is for 45 acres, so recommendation can proceed w/o an amended claim.

I plan to limit the licensed rights to the original licensed acres. The splits of the Hamer Canal rights (A31-00062S and A31-00063S) have their origin in 20 shares referenced as owned by Ashcrafts in a 1980 stipulation and agreement, at 5 miners inch/share. This works out to 100 miners inches, or 100 acres at one inch per acre. This is quite rolling ground but it is conceivable that up to 100 acres could have historically been irrigated from the Hamer Canal. Therefore I plan to recommend the Hamer rights at 1 acre/0.02 cfs. based on the original 20 shares or 2.0 cfs.
