Re: Ownership of Water Right 31-7220

Dear Mr. Laird:

Alan Ruberry forward to me your letter concerning the ownership of water right 31-7220. That right has been split into water rights 31-7220B, 31-7220C, 31-7220D, 31-7220E, and 31-7220F by formal transfers. The reason he forwarded the letter is that I had done the recommendations of most of the rights split off that original right.

I found that the copies of the lease agreement in the file support what you said, that the rights are owned by Laird & Sons, Inc., and leased by Blaine Larsen. This also agrees with what I remember about these rights from working with them in the Water Measurement District.

Accordingly, I have changed the adjudication recommendations for all these rights except 31-7220E to show Blaine Larsen as "Lessee" and Laird & Sons, Inc., as "Current Owner." Copies of the preliminary recommendations for these rights are enclosed. I did not change 31-7220E as it is not in the name of Blaine Larsen and is not appurtenant to lands farmed by Mr. Larsen.

Please call Mr. Ruberry if you have further questions about right 31-7220E, or call me if you have questions about the other rights.

Sincerely,

Bryce A. Contor

Dear Mr. Ruberry,

Water Right No. 31-7220 for 5.22 cfs is owned in it's entirety by Laird & Sons, Inc. We have been leasing the water right to Blaine Larsen for the last 5 or 6 years but it has never been sold to him. We understand he has transferred parts of this water right to irrigate other ground he farms and that these transfers are shown under Water Right Nos. 31-7220B, 31-7220C, 31-7220D, and that the remainder, which remains at the original well location, is shown as 31-7220E (0.38 cfs). Obviously we don't want this Water Right No. 31-7220 being shown as water that Blaine Larsen owns; however we have no problem with him continuing to lease the water right and don't want to cause unnecessary paper work for him, your department or ourselves. So, I guess I am asking you how we can best resolve this issue?

On the attached aerial photo, the original "Place of Use" of the water pumped under Water Right No 31-7220 is shown in yellow. It also irrigated land south and west of the big main ditch during parts of the summer when the Camas Creek surface water rights were not available for one reason or another.

Very truly yours,

Joseph A. Laird, P.E. & L.S.
President
