Case No. 39576

)
) ORDER OF PARTIAL DECREE
)
) For Water Right 31-07270
)

On May 29, 2002, a *Special Master's Report and Recommendation* was filed for the above water right. No Challenges were filed to the *Special Master's Report and Recommendation* and the time for filing Challenges has now expired.

Pursuant to I.R.C.P. 53(e)(2) and *SRBA Administrative Order 1*, Section 13f, this Court has reviewed the Findings of Fact and Conclusions of Law contained in the *Special Master's Report* and wholly adopts them as its own.

Therefore, IT IS ORDERED that water right 31-07270 is hereby decreed as set forth in the attached *Partial Decree* Pursuant to I.R.C.P. 54(b).

DATED July 31, 2002

ROGER S. BURDICK
Presiding Judge
Snake River Basin Adjudication

AMENDED
STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Re: Phone conversations w/ Brent Dalling &
Wade Yearsley

I called Brent to discuss whether he had irrigated any lands in the SSE. If he had, he could sign an amended claim asserting accomplished transfer, and I could recommend the full licensed acres.

Brent said he had not irrigated those lands, but that his predecessor Wade Yearsley would know if they had been irrigated prior to Brent's purchase.

We also discussed the lack of an AT claim on the NWSW of section 27. This belongs to McGarry but Brent is interested because he is leasing the ground w/ an option to buy.

Brent stated that those lands had been irrigated by handlines out of Wade Yearsley's small well immediately to the North. I told Brent that McGarry had a post-87 transfer that may prevent asserting enlargement &/or accomplished transfer, but that I would look at the files Tuesday.

The important details of these conversations are:

- 1) 31-7141C has only been used in the SWSE of section 28. The entire parcel is 20 acres. The feedlot has been present almost from the beginning. Therefore the original finding of about 15 or 16 acres is probably correct.
- 2) The diversion rate claimed & licensed for 31-7141C is 0.38 cfs, which is more than 0.02/acre on the recommendable basis. If NWMD exam shows current capacity requires the full 0.38, I plan to recommend the 0.38 with an appropriate 14-day volume limitation based on the 0.02/acre rate. This will be on the grounds that the developed diversion rate was within the original license authorization and is required for the installed system. Any injury can be asserted in the objection period.
- 3) When Wade Yearstey installed his small well, he had a lease arrangement with McGarry for the 40 acres just south of his 50 acres. He installed a pump designed for $4\frac{1}{2}$ handlines, as he recalls the design flow was about 800 GPM.

Yearsley's well for water supply. Sometime later the current pivot was installed & the McGarry 40 has been irrigated from McGarry's well in SWSW of 27 via the pivot.

Based on the above, I need to carefully review the McGarry claims & recommendations and post-87 transfers. One concern I discussed with Brent is that the post-87 transfers may prevent asserting enlargement / accomplished transfers.

However, I need to review with Harold Jones the status of enlargements & transfers at the time the McGarry transfers were approved. It may be that at that time, transfers could not recognize enlargements.

It also may be that the transfer only involved the Hamer Canal right and not the 7000-series license.

If possible, my plan is to assert an enlargement / accomplished transfer of PD when Yearsley began irrigating the McGarry 40. Then, assert a second accomplished transfer of PD when the pivot was installed (back to the original licensed PD).

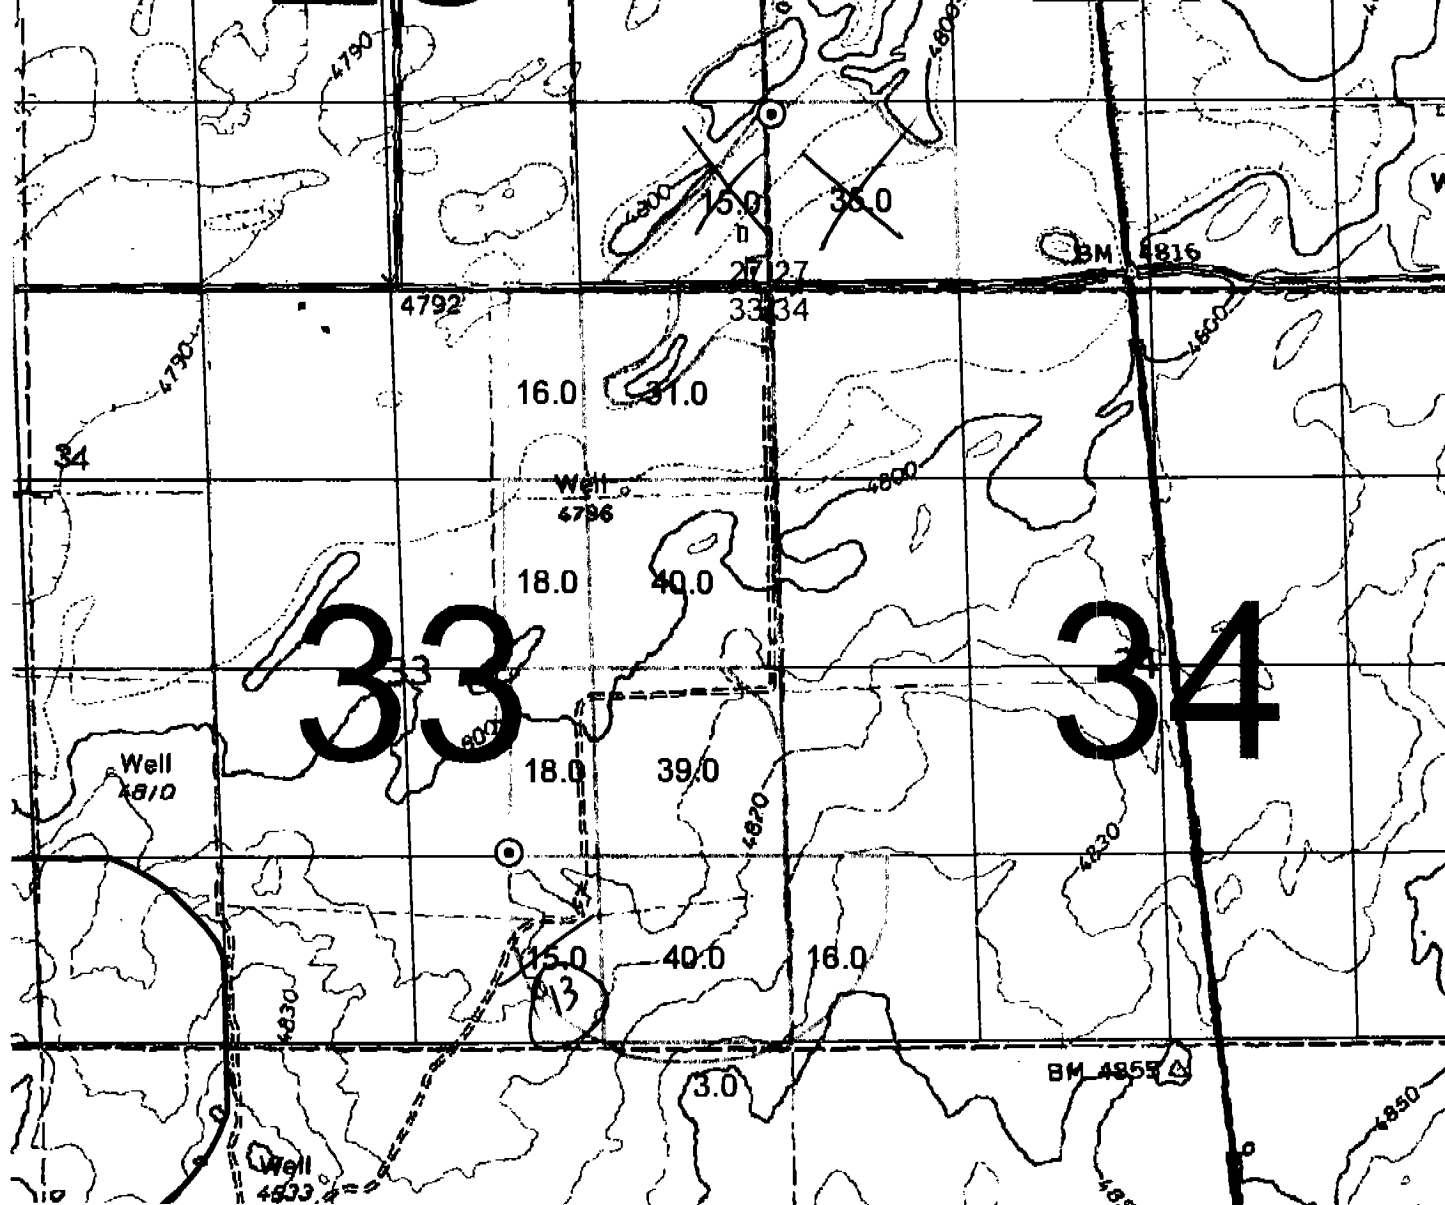

of McGarry's
4000-series
license

Bye A. Conton

Mr. Huskinson was in the office today. He indicated that the McGarry family exercised their option to re-purchase this property, so there will be no change of ownership.

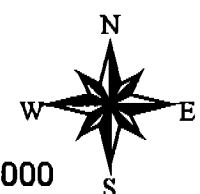

Today I talked w/ Scott Clawson, manager of Cornelison Farms. According to Scott, McGarry is still the owner of the POU of these rights, and Cornelison Farms has a long term lease - perhaps as long as 20 years.

The documentation submitted by Huskinson for the Change of Ownership appeared to include an option for McGarry to repurchase the property within a certain time period. If Mr. Clawson's information is correct, apparently this has happened.

Robert Huskinson
35 S Mill Hollow Road
Rexburg, ID 83440

Dear Mr. Huskinson:

I am returning the Notice of Change of Ownership you submitted in February for some of the Loren McGarry water rights. --

The deed attached to the Notice references the place of use associated with McGarry rights A31-00062A, A31-00063A, and A31-07270. However, the Notice asks for ownership to be changed on rights A31-00141 and A31-00142.

If you wish to have the ownership of A31-00062A, A31-00063A, and A31-07270 changed to your name, please add them to the water right list on the Notice, and return it with the copy of the deed attached.

If you wish to have the ownership of A31-00141 and A31-00142 changed to your name, please also attach a deed documenting that you have purchased the place of use of these water rights. I have enclosed printouts of the water right for your convenience.

Note that effective July 1, there will be a fee of \$25/water right for changes of ownership.

Please call me at 525-7161 if you have questions.

Sincerely,

Bryce A. Contor

of Haller, Idaho, has complied with the terms and conditions of Permit No. 31-7270 issued pursuant to Application for Permit dated October 4, 1977, and has submitted proof to the Department of Water Resources on January 25, 1983, that he has applied water to a beneficial use, an examination by the Department indicates that the works have a capacity for the diversion of 4.64 cfs of water from a groundwater source, tributary to _____, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>4.64</u> cfs and	<u>696.0</u> acre feet
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 4.64 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 696.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 33, Twp 7N, Rge 36E in the County of Jefferson

Description and location of place of use:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 31-7270, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 1983.

c. Other: For licensing purposes a scientific measurement of the diversion rate of the system as it is normally operated shall be provided by either properly installing an approved type of measuring device or by having a professional engineer certify the rate of diversion to the Department prior to submitting proof of beneficial use of water. (2) The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

Witness my hand this 29 day of January, 19 78.
