TO: Transfer files for A31-07290 and A31-04023

DATE: May 6, 1993

The onsite exam that Keith Wilson did on 22 April 1993 shows that only 17 acres could be considered irrigated in the SWSE of Sec. 4, Twp. 7N, Rge. 36E. This is being liberal as there was some high ground that was questionable in the 1/4 of 1/4. This contrasts the 25 acres originally claimed by A31-04023.

In the SESW only 13 acres was found under claim A31-07290. Should the protest be lifted on this transfer application the 13 acres should be our recommendation instead of the 25 acres listed on the transfer.

In the case of the field exam for 31-07290 the adjacent pivot was already in (see field exam drawing) and undoubtedly some land was either dropped from irrigation or was incorrectly assessed in the SESW of Sec. 4.

I would recommend that the adjudication recognize 17 acres irrigated under 31-04023. The cfs might be limited to 0.34 cfs which was the field exam (31-07290) amount for the well in the SESW of Sec. 4. This well was added as a point of diversion to A31-04023 in 1979 (claimants statement).
