Re: Amended claims

The attached amended claim was prepared per a phone request by Kirk Jacobs, last night to my home phone. The only adjustment is to claim a full 0.02 cfs/acre, and to increase the annual volume to 3.5 afa/acre on 31-7024B.

The purpose of this filing is to allow Mr. Jacobs to file an objection to the recommended diversion rate, in order to preserve his right to appear in court, if he is not successful in obtaining amended licenses.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

We question original method of measurement at licensing
We measure more now with same motor & pump.

2. Describe the changes you wish to make in the proposed recommendation:

We would like to amend license to continue the same
practices we've had for over 25 years. We need these
current amounts for our sandy soils.

3. Give a brief explanation as to why you disagree with these portions:

Early methods of water measurement have proven to be
inaccurate and it wasn't so critical to be that accurate
back then so there could have easily been mistakes.

☐ I AGREE with this proposed recommendation: no changes need to be made.
