=====

Transfer No. 5025 changes the point of diversion and place of use under a portion of the above referenced water rights. Right Nos. 31-02301 and 31-07302 were split into parts A and B as a result of the transfer. The transferred portions of Right Nos. 31-07034F/H/K/L & N were combined under a single part identified as 31-07034AA. The remaining unchanged portions were assigned Parts V-Z respectively.

The applicant will cease irrigation of corners around currently authorized pivots to combine on an existing pivot previously covered under a temporary transfer. The recommended rate of diversion under Right No. 31-07034V has been reduced in order to remove the point of diversion overlap condition. I discussed this adjustment with Craig Cantack and he is comfortable with the recommendation.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include irrigation overlap, measuring device/reporting, permissible place of use and standard transfer conditions.

Back of this page

A31-07034A was filed on a permit. On the WR database, the licensing process split this permit into "C" through "S," summing to 31.74 cfs on 2202 acres. Subsequent transfers 4688, 4689, 5018, and 5025 further split and recombine these into splits C, D, P, S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG. Considering acreage limitations within permissible places of use, these splits sum to 31.74 cfs on 2283 acres. This is a discrepancy of 81 acres.

On the WR database, split 31-07034AA has a remark "Right No. 31-02301AA is limited to the irrigation of 104.0 acres in the place of use described above in a single irrigation season." This remark is copied directly from the conditions of Transfer 5025. It appears that this is a typographical error on both the transfer and the WR record, and should apply to right 31-07034AA. This conclusion is based upon several factors:

1. There is no right 31-02301AA on the WR database.
2. Right 31-02301A is an independent right for 181 acres, with no need for a remark limiting acreage within a PPU.
3. There is no acreage limiting remark for 31-07034AA, even though it is included within a PPU with rights 31-02301B and 33-07302B.
4. If 31-07034AA is limited to 104 acres, then the sum of the individual limitations on the three rights in the PPU would sum to the acreage of the PPU (185).
5. If 31-07034AA is limited to 104 acres, the sum of limited acres of post-transfer splits of 31-07034A matches the sum of pre-transfer splits.

Based on the above, in preparing the post-transfer AJ database splits ("A" records"), I have corrected the remark to read "31-07034AA is limited to 104 acres within..." and have put no limitations on 31-02301A.

Water Right files agree with conclusion above.
