Transfer #4105 was filed to change the point of diversion and place of use under Right Nos. 35-07562A and 35-07940, resulting in two separate systems whith their own points of diversion. Right No.35-07562A was renumbered as a result of the approved transfer to Right No. 31-07602
*** Date: 02/11/1994 User-ID: BODELL Subject: TRANSFER NO. 4297 (Approved 04-21-94) THE NEW PLACE OF USE HAS BETTER SOIL AND FEWER ROCKS THAN THE OLD PLACE OF USE
Transfer No.4297 was filed to change and add a point of diversion and change the place of use under Right No. 31-07602 (Updated 04-19-94 Skaggs) *** Date: 08/04/1994 User-ID: PSKAGGS Subject: TRANSFER NO. 4105 (Approved 05-04-93) Transfer No. 4105 was filed to change the place of use and point of diversion under a portion of Right No. 35-07562, splitting the right into parts A and B. Part B was renumbered following approval to Right No. 31-07569
Right No. 35-07562 was retained under Part A and was subsequently transferred to basin 31. For information about the original Right No. 35-07562, prior to Transfer No. 4105 and split, SEE right NO. 31-07602

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Re: Notice of Error Response

Dear Mr. Ball:

Recently you submitted Notices of Error on the preliminary adjudication recommendations for a number of water rights in the name of Ball Land LC, Ball Farms LTD, and Circle B Farms LTD Partnership. I have carefully reviewed the recommendations, along with your requested changes. This letter is a report of the changes I have made and an explanation of the changes I have not made.

ITEMS OF DISAGREEMENT

Season of Use

You disagreed with the proposed season of use on a number of the recommendations, and you have told me that your intent was to disagree on all your rights. You requested that the beginning of the authorized season be March 15, to allow early irrigation during dry, windy springs which sometimes occur in Hamer.

Annual Diversion Volume

Certain of your rights were proposed to be recommended with annual diversion volume of 3.0 acre feet per acre. You requested that all your rights be recommended at the current standard for your area of 3.5 acre feet per acre.

Diversion Rate

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 all partly overlap lands that were developed for flood irrigation in the 1950's, as evidenced by the licensing exam for original license 31-2356. The proposed recommendation only included the licensed diversion rates, but you requested that the additional diversion rate documented in the licensing exam be recommended.

Rights 31-7067, 31-7155, 31-7156, and 31-7219 were proposed to be recommended at the original licensed rates of less than 0.02 cfs/acre. You disagreed and requested that they be recommended for a full 0.02 cfs/acre.

Enlargement

Right 31-10969 was proposed for recommendation with a remark identifying it as an "enlargement." You disagreed, on the grounds that the development took place prior to 1963.

Acres

You disagreed with the total acres recommended under rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970.

RESPONSE

Season of Use

I am not able to change the recommendations for Season of Use, though this is an issue that you may wish to discuss with the judge, through a formal objection. Many of your older licensed rights (numbered 31-2XXX) were originally issued without a listed season of use. Rights based on beneficial use (numbered 31-10XXX) have never before been reviewed by the department, and have never had a formal season of use defined. With this class of rights, your burden before the court would be to demonstrate that the earlier date is reasonable, and has occurred historically.

License 31-2419, as well as all the licenses numbered 31-7XXX, were originally issued with a season of use beginning April 1. Besides demonstrating that March 15 is a reasonable and historical beginning date, you would have to explain why the original licenses were accepted without challenge.

Annual Diversion Volume

The annual diversion volume for 31-7036, 31-7040A, 31-7067, 31-7155, 31-7156, and 31-7219 has been adjusted to the current standard of 3.5 acre feet per acre.

Diversion Rate

The diversion rate of the group of partly overlapping water rights was adjusted as explained below. The other licensed diversion rates I did not adjust. These can only be adjusted by the Allocations Bureau of IDWR.

One adjustment process is to amend the original license. This is very difficult. It requires a finding that the original license was obviously in error, along with a finding that the claimed diversion capacity was in place at the time of the original licensing examination. At a minimum, this requires a written report by a Licensed Professional Engineer, along with receipts and documentation of the original diversion works. The other process is to request a new permit based on pre-moratorium development. This requires solid documentation that the claimed diversion capacity was in place and used for beneficial use prior to November, 1987.

I am not encouraging you to pursue either of these options, but explaining to you what your options are.

Enlargement

The remark identifying 31-10969 as an enlargement was removed.

Acres

The acres on the group of overlapping rights were adjusted to reflect the 1987 aerial photography. This is explained below.

Group of Overlapping Rights

Rights 31-2356A, 31-2356B, 31-2401, 31-10968, 31-10969, and 31-10970 cover lands in 7N 36E section 13 and 7N 37E section 18. The recommendations were changed significantly on these rights, based on a careful review of the history of development.

The first phase of development was a flood irrigation system in the east half of section 13, under license 31-2356. It used two wells in the approximate locations of current wells #1 and #3. This was licensed for 0.02 cfs (one miner's inch) per acre on 175 acres. This was the standard diversion rate at the time, though the licensing examiner found significantly more capacity. Based on analysis of similar soil types on nearby farms, I believe 0.03 cfs/acre is more appropriate for this original use, and the original capacity was

adequate for that rate. Right 31-10970 is recommended as a beneficial use right for additional diversion rate, with priority date 7/16/1958 (the date of the licensing exam).

The next phase of development appears to be the installation of a sprinkler system in the NE quarter of section 13, of about fifty acres. This is recommended as beneficial use right 31-10969, with a priority date of 1962, from the John Wood affidavit.

In the early 1960's, licensed right 31-2401 was developed, apparently out of well #2. The licensing exam was performed in 1967, but the right bears the permit priority date of 1962. The examiner's notes indicate that the system was developed in its current location of the SW 1/4 of section 18, but the original license describes the NW 1/4.

Finally, in 1968 additional lands of about 77 acres were developed with the addition of sprinklers and pivots. This filled in the SE 1/4 of section 13 and the pivot in the center of the south 1/2 of section 13. These are recommended as enlargement 31-10968.

In recommending these rights, I have coded "accomplished transfers" to the current wells and places of use. To balance the diversion rate per acre of these original rights on the currently irrigated lands, to reflect the original relationship between lands and wells, and to match the current configuration of the diversion systems, I have combined these rights into two blocks of "permissible place of use."

The north block is the pivot that operates from well #3. To this system is recommended all of beneficial use right 31-10969, plus enough of licensed right 31-2356 (as recommendation 31-2356A) to authorize a full 0.02 cfs/acre on the 109 acres identified by aerial photography.

The south block is the large pivot west of well #1, the small pivot east of well #2, and the field in between. It is recommended for a total of 6.06 cfs on 303 acres. It includes the remainder of right 31-2356 (31-2356B), licensed right 31-2401, beneficial use right 31-10970, and enlargement 31-10968. These rights have a number of combined use limitations added to clarify the relationship between the rights. The main effect of these limitations will be to define the original extent of the rights, to facilitate any possible future transfers.

This recommendation incorporates the historically developed diversion rate and allows a full 0.02 cfs/acre on the entire place of use, with annual diversion volume of 3.5 acre feet per acre. The recommendation authorizes irrigation of all currently irrigated acres, and allows the flexibility to balance the production of wells #1 and #2 as needed.

I have attached copies of preliminary reports for all the recommendations I modified, along with maps of the revised recommendations for the lands in section 13 and section 18. Please review these carefully and contact me if you have questions or concerns.

Sincerely,

Bryce A. Contor

SECTION III CERTIFICATION FOR CALIBRATION OF A WATER MEASUREMENT METER

See back page for instructions.

Measurement No. 1 (M_1) is the measured rate of flow from the permanently installed flow meter.

Measurement No. 2 (M_2) is the measured rate of flow from the measuring device being used to check the flow for the calibration. -This method or device must be accurate to within $\pm 5\%$ error. Describe below the method and equipment used to perform this measurement.

$$\text{Percent Difference} = (M_1 - M_2) \div M_2 \times 100 = \pm \% \quad (\text{Acceptable is within } \pm 10\%) \quad (\text{equation 1})$$

$$\text{Calibration Multiplier} = M_2 \div M_1 \quad (\text{equation 2})$$

Is flowmeter installed according to manufacturer's specifications? Yes / No / Unsure

Total number of acres irrigated:						136

CONDITIONS/REMARKS:

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

TRANSFER NO. 4297
WATER RIGHT NO. 31-07602

CONDITIONS/REMARKS:

4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. The total instantaneous diversion of water from all points of diversion under Transfer No. 4297 shall not exceed 2.51 cfs.

Dated this 21st day of April, 1994.

Chief, Water Alloc. Bureau

Total acres 1316

PART 1**6. General Information:**

a. Description of diversion system Wells, center pivot & handlines.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? X Yes No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

Transfer #4179, approved January 94 moved right on to
land in Sec 14. The property has not been irrigated
and if this transfer is approved it will remain
unirrigated pasture.

d. Remarks:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No.

And said application is hereby , subject to the following limitations and conditions:

Witness my hand this day of , 19

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT

PART 2

(Attach one copy for each right)

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by:

- a. Decree No. Decreed to
in case of vs.
dated in county of
- b. License No. 31-07602 issued by the Idaho Department of Water Resources.
- c. Claim No. on file with the Idaho Department of Water Resources.
- d. Transfer No. *4179 which produced this right.

2. Attach a copy of last year's tax notice for the property to which the water right is appurtenant or other documents which show ownership. Label document as attachment A. Check appropriate box below:

☐ Tax Notice☐ Warranty Deed☒ Other Transfer 41793. Source of water groundwater. tributary to 4. Date or priority 12/12/1975

5. Water is used for the following purpose:

amount 2.51 cfs. for Irrigation purposes from 4/15 to 10/15
(cfs/ac-ft)
amount for purposes from to
(cfs/ac-ft)
amount for purposes from to
(cfs/ac-ft)

6. Total amount of water under right 2.51 cubic feet per second and/or 476 acre-feet per annum.

7. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion
		NW	SW	14	7N	36E	JEFFERSON	

8. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	
7N	36E	14									34	34	34	34					136

Total acres 1369. Describe any other water rights used for the same purpose as described above NONE.

RE: CHANGE IN OWNERSHIP FOR A35-07562A (RENUMBERED TO
A31-07602)

Dear Mr. Ball:

The request for Change in Ownership concerning your
Notice(s) of Claim in the above reference has been
processed and the Notice(s) modified to reflect you as
the new owner.

Enclosed is a typed Notice with your name shown as the
current owner. Review the forms and if there are other
corrections or questions, feel free to contact this
office.

If there are no questions or corrections, please keep
this Notice for your records.

Respectfully submitted,

Jo Thompson
Secretary, Adjudications

Enclosure: Notice(s) of Claim

cc: Arrowhead Cattle Company/copy letter

Handwritten: APPROVED

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

TRANSFER NO. 4179
WATER RIGHT NO(S). 35-07562A/35-07940

POOR ORIGINAL

CONDITIONS/REMARKS:

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

WATER RIGHT LICENSE

License of Water Right No. 35-7562 Priority December 12, 1975 Amount 4.79 cfs

THIS IS TO CERTIFY, that ALPINE INVESTMENT, A PARTNERSHIP
of Idaho Falls, Idaho has complied with the terms and conditions of Permit
No. 35-7562 issued pursuant to Application for Permit dated December 12, 1975
and has submitted proof to the Department of Water Resources on June 11, 1976
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.79 cfs of water from a groundwater source
tributary to _____, and that the permit holder has applied to a beneficial use an
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to November 1</u>	<u>at 4.79 cfs and</u>	<u>1043 acre feet</u>
	<u>from _____ to _____</u>	<u>at _____ cfs and</u>	
	<u>from _____ to _____</u>	<u>at _____ cfs and</u>	

(both dates inclusive)

Subject, however, to the condition that no more than 4.79 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and apportioned is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1043 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 4N,
Rge. 35E, B.M. in the County of Jefferson

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Total
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
4N	35E	16									40	31	32	39	39	39	39	38	298

Total number of acres irrigated 298

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 29 day of
January, 19 80

Director
