Re: Change of Ownership A31-04123, A31-07267A, A31-10964A

The attached Notice of Change of Ownership requests changing ownership of two claims, A31-07267A and A31-10964A. The sales contract references original claims A31-07267 and A31-10964, but acknowledges that a split will be necessary. The contract also references A31-04123, but contains the provision "to the extent that such claims pertain to water rights which are properly appurtenant to the Property."

In reviewing the electronic record of A31-04123, the purchaser Kirk Egbert and I thought that this claim was appurtenant to the home, lawns, and buildings on the lands retained by the seller in the NE portion of Lot 4, Section 5, T5N, R35E. A careful review of the original claim 31-04123 and the paper file A31-04123 more or less confirms this conclusion.

AJ claims A31-07267A and A31-10964A appear to claim slightly more irrigated acres in Lot 4 than were conveyed by the sales contract, but the attached GIS illustration shows that all the actual irrigated acres in Lot 4 were conveyed.

Therefore, I conclude that the ownership of A31-07267A and A31-10964A can be changed without a split, and that the ownership of A31-04123 should not be split.
