Note:-

The only well used in this period is the one found in operation at the time Permits 6-25668 & 25669 were obtained and which used up all the production at the well. Since the above mentioned permits were cancelled and the water is still being used on the lands of the cancelled permits. The capacity was found to be the same when Permit 6-25668 was obtained. Since the water is being used lawfully on 476 acres under three permits the capacity of the well is being placed to all the land at the rate of 1.0 acre per acre.

Permits 6-25668 & 6-25669 = 390 acres x 50" = 30000
