NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: United States of America (Fish and Wildlife Service) Phone: 503-231-6145
Address: Division of Engineering
911 NE 11th Avenue
Portland, OR 97232-4181

2. Date of Priority: November 5, 1957

3. Source: Ground Water (Well #1) Trib. to: _____

4. Point of Diversion:

Township 8N Range 36E Section 28, NW1/4 of SW1/4, B.M.,
County of Jefferson

Additional Points of Diversion _____

5. Description of diverting works: 18" well, 50hp pump, 16" pipeline,
distribution canal.

6. Water is claimed for the following purposes:

Purpose	From	To	C.F.S. or A.F.A.
Wildlife	Mar. 16	Apr. 14	7.12
Wildlife	Apr. 15	Oct. 15	1.34
Wildlife	Oct. 16	Dec. 16	7.12

7. Total Quantity Claimed is:
7.12 C.F.S. (and/or) _____ A.F.A.

8. Total consumptive use claimed is 875 Acre Feet Per Annum.

United States of America
Fish and Wildlife Service

A311229

9. Non-irrigation uses: Wildlife.
10. Place of Use: Within the Camas National Wildlife Refuge (See Attachment 1).
11. Place of use, county(ies): Jefferson
12. Do you own the property listed above as place of use? Yes.
13. Other Water Rights Used: IDWR Water Right Numbers 31-0231, 31-0269, 31-0270, 31-0271, 31-0272, 31-0273, 31-0274, 31-0275, 31-0276, 31-0277, 31-0278, 31-0279, 31-0280, 31-0281, 31-0282, 31-0283, 31-0284, 31-2251, 31-2350, 31-2362, 31-2363, 31-4016, 31-4066, 31-7301.
14. Remarks: Use of water for Refuge purposes includes irrigation of meadows and marshes, and incidental use by cattle to promote wildlife refuge purposes.
- The Camas National Wildlife Refuge was established by Executive Order 7720 of October 12, 1937 as a refuge and breeding ground for migratory birds and other wildlife.
- Water under water right No. 31-2322 is diverted at the same location as water under this claim.

CLAIM REMARKS: GEN

USE OF WATER FOR REFUGE PURPOSES INCLUDES IRRIGATION OF
MEADOWS AND MARSHES, AND INCIDENTAL USE BY CATTLE TO PROMOTE
WILDLIFE REFUGE PURPOSES.

PLACE OF USE: WITHIN THE CAMAS NATIONAL WILDLIFE REFUGE
(SEE ATTACHMENT 1).

THE CAMAS NATIONAL WILDLIFE REFUGE WAS ESTABLISHED BY
EXECUTIVE ORDER 7720 OF OCTOBER 12, 1937 AS A REFUGE AND BREEDING
GROUND FOR MIGRATORY BIRDS AND OTHER WILDLIFE.

WATER UNDER WATER RIGHT NO. 31-2322 IS DIVERTED AT THE SAME
LOCATION AS WATER UNDER THIS CLAIM.

FOUND IN THE DECLARATION OF GERALD L. DEUTSCHER.

FIELD EXAMINATION INFORMATION

CONTACT PERSON: Jerry Deutscher

PHONE NUMBER: (202) 662-4

DATE OF FIELD EXAM: 10/3/00

APPOINTMENT MADE: Y() N()

TIME: : A() P()

ACCOMPANIED BY: _____

PHONE NUMBER: () -

RELATIONSHIP TO CLAIMANT: _____

DIRECTIONS TO PROPERTY / NOTES:

Ernie Carlsen and I met with Jerry Deutscher and Paul Rouch (spelling ?) on 10/3/00. Several meetings with FWS had taken place earlier, however, the purpose of this meeting was to do and on-site field exam to gain an understanding of what FWS considers wildlife use. We specifically looked at Well 1, 3, and 4 place of use.

Conversation Memo

Date: 3/15/01

From: Craig Saxton

Subject: Diversion Volume

Dave Langman and Tim Mayer called concerning the problems I had with making some of the changes they requested on the notice of error forms they submitted.

Claims: 31-02322 and 31-11229. FWS requested an increase of diversion volume from 900 AFA to 1260 AFA. My problem with that was that if they made that change it would decrease my evidence for 31-11229, thus I would need to decrease the diversion volume for that claim. Dave and Tim informed me that they no longer want to request that change. They asked if they needed to submit any information and I said no, and that I would write a Memo noting their request.

Claims: 31-02350 and 31-11230. This is the same situation as above, however, Dave and Tim do want me to make the changes on 31-02350 and thus decrease the diversion volume on 31-11230 to represent the historical evidence provided.

Claims: 31-11231 and 31-11232. In order to increase the volume on the beneficial use claims, I need an amended claim. They will send that to me by the end of next week (week of March 19-23).

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

☒ Place of Use

☒ Place of Use

2. Describe the changes you wish to make in the proposed recommendation:

☒ Delete the phrase "the irrigation of"

☒ 2) Change "THIS RIGHT IS LIMITED TO OF 183 ACRES . . .," to "THIS RIGHT IS LIMITED TO 183 ACRES . . ."

3. Give a brief explanation as to why you disagree with these portions:

☒ The "Purpose of Use" is wildlife. The description of use under the "Place of Use" should be consistent with this wildlife purpose and thus should not be limited to "irrigation" use.

☒ This appears to be a typographical error.

____ I AGREE with this proposed recommendation: no changes need to be made.

MEMEORANDUM

Date: February 15, 2001

From: Craig Saxton

Subject: FWS Well 2 Diversion Volume

The following is how the diversion volumes for 31-02322 and 31-11229 were calculated.

31-02322:

Licensed as irrigation for 360 acres. Standard volume for an irrigation claim would be $(360 \text{ ac})(3.5) = 1260 \text{ AFA}$. Water is now used for Wildlife purposes. Is this reasonable? Well:

$1260 \text{ AFA} / (5.78 \text{ cfs})(1.9835) = 109 \text{ days}$. So if the claimant ran his pump 24 hrs per day for 109 days, he would divert 1260 AFA. Since the season of use is 214 day's, this is a reasonable amount.

31-11229:

Evidence provided in a 1958 report indicates that 1956.4 AFA year round. Taking that historical volume and subtracting the annual volume for 31-02322 we have:

$1956.4 \text{ AFA} - 1260 \text{ AFA} = \underline{696.4 \text{ AFA}}$

use of water from the Snake River
Basin Water System,

Defendants.

CASE NO. 39576

DECLARATION OF
GERALD L. DEUTSCHER

Dec. of Deutscher

I, Gerald L. Deutscher do declare that:

1. I am the Refuge Manager of the Camas National Wildlife Refuge, Hamer, Idaho, United States Department of the Interior, Fish and Wildlife Service, Region 1.

2. I have been employed by the United States Fish and Wildlife Service since January 1975 except for two years during which I was employed by the United States Bureau of Land Management as described in the following section. I received a Bachelor of Science degree in Biology from Eastern Montana College in June 1973. I attended graduate school in Wildlife and Fisheries at South Dakota State University from September 1973 until I accepted a position with the United States Fish and Wildlife Service in January 1975.

Page 1 - DECLARATION OF GERALD L. DEUTSCHER

MICROFILMED
NOV 14 1996

3. I began my career with the United States Fish and Wildlife Service (Service) in South Dakota. I have worked as a biological technician, Assistant Refuge Manager, and Refuge Manager on migratory bird refuges in South Dakota, Colorado, Idaho, and Nevada. I worked two years as a waterfowl biologist for the Bureau of Land Management in Montana before being assigned as Refuge Manager at Camas National Wildlife Refuge (Refuge).

4. As Refuge Manager at the Camas National Wildlife Refuge I am in charge of daily operations, including habitat management through water diversion, pumping, and manipulation. I supervise one to three personnel. One of my responsibilities is to manage the use of water diverted from Camas Creek or pumped from ground water for use on the Refuge. Cooperation with Water District No. 31 is necessary to manage the Refuge's water supply.

5. I am familiar with the current operations of the Refuge and have studied and reviewed past operations through historic files and documents, interviews and discussions with Service employees and others knowledgeable about the Refuge and its surroundings, and on-site inspections.

6. The United States Department of the Interior, Fish and Wildlife Service, maintains the Camas National Wildlife Refuge. The use of water is necessary to fulfill these purposes.

7. The Camas National Wildlife Refuge was established by Executive Order Number 7720 dated October 12, 1937, as "a refuge and breeding ground for migratory birds and other wildlife".

8. To the best of my knowledge and belief, the Camas National Wildlife Refuge first put the water claimed as a beneficial use water right to beneficial use as follows:

- a. Water Right Claim No. 31-4016: The well supplying water under this claim was completed for irrigation use in June 1955, as evidenced by the driller's Well Log and Report to the State Reclamation Engineer of Idaho (Exhibit A).
- b. Water Right Claim No. 31-4066: Buildings, including frame houses, existed in 1936 and were occupied by Mr. Gerald Jones, as evidenced in the Description of the Idaho Livestock Lands, Inc. Tracts (33, -I, -II, a, b, -I) (Exhibit B). The large house occupied by Mr. Jones contained plumbing fixtures indicating domestic water use, as evidenced by November 6, 1937 correspondence (Exhibit C).
- c. Water Right Claim for Well No. 1: Water was used for wildlife purposes as early as March 16 and as late as mid-December, as evidenced by the 1957 Water Management Plan (Exhibit D) and the Annual Water Program Report dated September 23, 1958 (Exhibit E). The flow rate was 356 inches, as evidenced by the 1957 Water Management Plan (Exhibit D).
- d. Water Right Claim for Well No. 2: Water was used for wildlife purposes as early as January 7 and as late as December 28, as

evidenced by the well-pumping record for Well No. 2 for 1963 (Exhibit F), and the 1963 Annual Water Program (Exhibit G).

- e. Water Right Claim for Well No. 3: Water was used for wildlife purposes as early as March 20 and as late as November 16, as evidenced by the 1963 Annual Water Program (Exhibit G) and the well-pumping record for Well No. 3 for 1961 (Exhibit H). The flow rate was 15.7 cubic feet per second, as evidenced by the 1963 Annual Water Program (Exhibit G).

- f. Water Right Claim for Well Nos. 4, 5, and 6: Water was used for wildlife purposes as early as January 1 and as late as December 26, as evidenced by the Record of Pumped Water Use for 1963 (Exhibit I) and the 1963 Annual Water Program (Exhibit G). The flow rate was 43.3 cubic feet per second, as evidenced by the 1963 Annual Water Program (Exhibit G).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct. Executed on this 12 day of March, 1993.

CAMAS NATIONAL WILDLIFE REFUGE

HAMER, IDAHO

WATER MANAGEMENT PLAN - 1957

No radical departures from past practices is contemplated for the management of water on the Refuge for 1957. It is not planned to withhold water from any unit this year for repairs or cattail control.

Water will be taken from Camas creek as soon as available to fill ponds and to keep them full as long as possible. Maximum levels for ponds fed from Camas creek as follows: Big pond 4794', Center pond 4793', Two-way pond 4789', Red-head pond 4790.6', Marshy pond, Toomey pond 4786'.

The Unit 1 and Bramwell wells will be operated for crop irrigation, stockwater, and supplementary pond water, starting date will be on or about May 1. A well was completed in Unit 4 in 1956, pumping equipment has not been installed as yet. Four more wells will be drilled in the calendar year 1957.

The snow pack on the Camas creek for 1957 spring run-off is slightly above the normal in some sections of the watershed and at least normal overall. The flow from this run-off should assure our pond filling and perhaps a little longer flow during the summer for irrigation and pond use.

At least three pumps will be installed on the free flowing wells at Buck Springs as well as another well drilled in 1957. These wells furnish water for the Independent ditch that flows thru the Refuge to Mud Lake.

SUMMARY OF 1956 WATER USE.

The spring run-off from Camas creek filled all the ponds and lakes fed from this source to their maximum levels. The Camas creek flow ended in late June. Pond and lake levels deteriorated rapidly during the hot dry summer only Sandhole lake contained any water by late fall. Sub-water was practically non-existent in the spring and fall. 2417 c.f.s. of water was taken from Camas creek for pond and irrigation use.

The Unit 1 well was operated from May until mid-December. Due to the lack of rain during the summer months the entire flow was used for irrigation and stock watering purposes. In mid-September the flow was diverted into the pond units for waterfowl use. The was a steady 356 inches with an average lift of 19 feet.

7.12 cfs

The Bramwell well was operated intermittently from May until early December, used for irrigation, stockwater, and waterfowl. The water level at this well began dropping in June, a gate valve was installed to prevent damage to the pump and motor. Water produced dropped from 215 inches to 143 inches, the water level varied from 17 to 23 feet from ground level.

A small amount of water was pumped from the Unit 4 well with a gas pump for stock use.

MICROFILMED
NOV 14 1996

Official flow records were not kept by the Service this year on the Independent ditch that carries water from the Buck Springs development through the Refuge to Mud Lake. Readings on staff gages in the ditch indicate little if any change in the amount of water flowing through the ditch.

Precipitation for 1956 was about normal but the timing was bad, no rain was received during the spring and summer when most needed.

A note on our cattail control plans: we have abandoned plans for cattail control by water manipulation, until a sure source of pond water is available. In the past two years we have roto-mowed and ploughed cattails, flooded the area only to have the water fail at the crucial stage of the work.

Evidence in Support of Beneficial Use Claims
Of United States Fish & Wildlife Service

The following declarations are submitted in support of the beneficial use claims made by the U.S. Fish & Wildlife Service. Each declaration provides evidence regarding one or more claims, as shown in the cross-referencing index below. In addition, for each applicable claim, the last page of the claim refers to the declaration that supports it. In accord with IDWR practice and instructions, declarations have not been provided for small domestic and stockwater claims or for claims supported by a license.
