Re: Enlargement Claim 31-11409

Dear Mr. Gasser:

I am enclosing the enlargement claim that we talked about on Wednesday. It needs to be signed and notarized and returned with payment of \$89.00. \$50.00 claim fee, and a \$1.00 per acre for 39 acres.

Just to explain a little. This claim doesn't give you more diversion rate, only acres. The purpose of this claim is so that 31-04024 and 31-11409, used together, will allow you to continue your current irrigation practice. The result of the two will be 87 acres (this includes the pivot and corner to the NW the pivot), and a diversion rate of 1.7 cfs. This equals 0.02 cfs, or an inch to the acre.

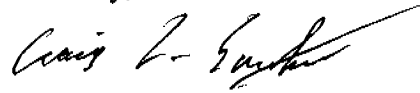

In our discussion, you mentioned the last time you ran water over to the SE side of the property below the pivot was in 1998. Could you write a simple statement stating what you told me and include it with the enlargement claim.

The last thing I forgot to ask you was, how many cattle do you estimate you water from the well SE of the pivot?

I am enclosing a map to give you an idea of what I potentially plan to recommend. Acreage's and acreage distribution may change slightly (1 or 2 acres) depending on the result of a survey problem we are currently having.

Please feel free to contact me if you have any questions. Thank you for your time and patience.

Sincerely,
