Re: Amended Claim 31-4017
Notice of Change of Ownership ✓
Stockwater claim 31-11657

Dear Mr. Shupe:

Enclosed is a copy of the revised recommendation for 31-4017, showing the addition of stockwater.

Also enclosed is a blank "Notice of Change of Ownership" to go along with the deed you brought me the other day. I should have had you sign one then, I didn't realize that our clerk had mailed the original back to you with the request for the deed from Larsen.

The enclosed report shows the only receipt we have on record for you since January, 2001. It was for the Rays Lake irrigation claim. The Department of Lands will mail back to me claim 31-11657, if you send me a check for \$25 then I can process it.

I'm sorry for the inconvenience. Please call me if you have questions.

Sincerely,

Bryce A. Contor

These rights will be recommended on a per-system basis, as split by ownership.

The attached GIS sketches show the systems that will be recommended, with the schematic layout of ditches and mainlines, showing the physical interconnection between POD's and POU's.

A detailed analysis of rights, splits, and recommendations is contained in the "AJ Special File Knight/Shupe/Jones/Ball." This summary is attached to each recommendation.

The "31-02309, 7102A" shape is currently claimed by Blaine Larsen, but an anticipated Notice of Change of Ownership will result in it being recommended to Lyle Shupe, or perhaps split, with part recommended to Lyle Shupe and part recommended to Allan Shupe. It is served solely by the well adjacent to the north edge of the POU.

"Knight Sprinkler Recommended" and "31-07102B" are on a common system from the well between the two POU's. This system is recommended as two separate places of use because of ownership. 31-07102B is now claimed by Blaine Larsen but will likely be recommended to Lyle Shupe following Notice of Change of Ownership. The "Knight Sprinkler" POU will be recommended to Arlin Knight.

The "Ball" POU is currently claimed by Jones, but likely will be recommended to Ball following Notice of Change of Ownership. Ball will be invited to submit a beneficial use claim for additional diversion rate (due to notes in license file 31-02291, see below). It can physically be served by either the Knight Flood POD in 28, or the Shupe Flood POD in section 20. It will be recommended from the Knight POD as claimed.

The "Shupe SE system" is served only by the well in the SW of 28 and is owned by Lyle Shupe.

The "Shupe Ben Use" and "Knight South" POU are served by four wells. It is recommended as two systems because Knight owns the 80 acres in gray. The section 20 sprinkler well and the section 29 well pressurize a common mainline serving three center pivots. The Knight flood well, the Shupe flood well in section 20, and the Shupe well in section 29 supply water to ditches to serve flood-irrigated corners. Knight has filed 31-10534 for extra acres as an enlargement of 31-02291B, but these are not needed in light of an apparent accomplished transfer. However, it appears that a beneficial use claim is needed to claim the diversion rate subtracted in the licensing of 31-02291 due to overlap analysis with a right which is not claimed in the AJ (see licensing exam in WR file). An amended claim will be presented to Knight for signature.

Due to rounding, recommendations total just slightly more than 0.02/acre. Apparent current capacity (approx 20 cfs) exceeds recommendations (17.95 cfs) but this is likely not a problem because it is unlikely that all four wells on the Shupe Ben Use/Knight South system will be all operated at full capacity simultaneously.
