Re: Enlargement

In Notice of Error process Mr. Wood informed me that the entire NWNW of 35 is irrigated, along with the north part of the SWNW. This aerial photo was difficult to interpret. The land is irrigated pasture, which will appear different from tilled land in a photo.

The original license clearly included the NWNW, and it is currently irrigated, so it may be recommended.

In making the recommendations, I asserted an accomplished transfer to lands in the SWNE which were not licensed but clearly were irrigated in the aerial photo.

With the new information provided at NOE, I will recommend the NWNW based on the license and current use, and the SWNE as an enlargement per the aerial photo. This will bring the total to 292 acres.
