Dear Candice:

Re: In Re: SRBA
Case No.: 39576
Sub Case: 86-4233

This will confirm our telephone conversations of March 31 and April 5.

My clients have decided not to pursue their Motion to File a Late Objection to Water Right 86-4233. As you and I discussed, they would prefer that you add to the recommended water right required under state law for them in the explanatory material or conditions, that the Water Right 86-4233 is for irrigation and domestic use for eight homes or units. It is my understanding that you can do this administratively since it is not part of the elements that must be shown under the Snake River Basin Adjudication.

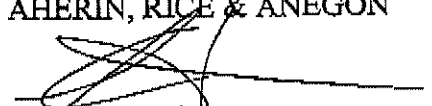

It is further my understanding that you will have Ken Knoblock confirm this in writing.

Your consideration and cooperation in this matter has been appreciated. If you have any other questions or if there are any further problems, please don't hesitate to contact me.

Thank you.

Sincerely,

AHERIN, RICE & ANEGON
