GARDON WATER COMPANY

10/06/04 Met w/ Boyd Bowles, Paris Penfold, Shana and Claire Ann Hill. Discussed the 17 claims for Gardon Water Co. (1 omitted - needs written as 22-13325. All original decreed RTS were either claimed as combined RTS, by the priority date, or as individual claims. But, all RT/claims are now consecutively numbered 22-13309 through 22-13325. The assignment of consecutive numbers was done for simplicity of claim administration. All claims have the same POU, some 4223³ as which they agree to. Claim costs were discussed: the acreage fee was determined by subtracting the 'claim lawyer' thumb in ArcView from the POU served by Gardon Water Co. There were 4 or 5 areas that are questionable and warrant further investigation on my part.

The 16 claims on-hand were signed and notarized. However, they were advised not to send in the claims nor the RTS until I have a chance to further review and/or recalculate due to the 4 or 5 areas discussed above.

I will write 22-13325 (same elements (Priority, 1892) as others) - I'll mail it with a letter explaining the 'adjusted fees' i.e. reduced - Thus they can send in all claims with the fee payment —
