Department of Water Resources
Eastern Region

**RE: Water Right Numbers: 22-11417 (Steven Kearsley)
22-11418 (Blair & Allen Christensen)**

Dear Sir:

The purpose of this letter is to follow up on the conversation we had in your office in Idaho Falls on March 8, 2005.

It is my understanding that the preliminary Director's Report that I received for the property owned by Blair and Allen Christensen contained errors and you were going to readjudicate (see attached water rights and property location). As you will recall, our family had only received the preliminary Director's Report for the property associated with water right number 22-11418. However, you also indicated that you were going to pull the file for my brother-in-law, Steven Kearsley, and make sure both claims were adjudicated together. The source of these water rights are from Darby Creek with point of diversion being the Cherry Grove Canal.

At the present time I am assuming I don't need to do anything else and you will let me know the status of these water rights claims after you have completed the readjudication process.

If you have any questions, please feel free to call me at one of the telephone numbers shown above.

Sincerely,

Blair C. Christensen,
