1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The original decree is for 1.2 CFS. This has been changed to 0.88 CFS by IDWR.

2. Describe the changes you wish to make in the proposed recommendation:

We would like to keep the 1.2 CFS decree at the point of diversion.

3. Give a brief explanation as to why you disagree with these portions:

Through consultation with irrigation specialists, it is felt the 1.2 CFS is necessary to force the water through the ditch to receive the 0.88 cfs on the property.

I AGREE with this proposed recommendation: no changes need to be made.

The ditch from point of diversion runs thru another individuals property then to the property irrigated. The property irrigated is of the nature needing, the pull head of water to push it across the property to do a good job of irrigating. This decreases the ponding of water and water is needed for a shorter period of time.
