BLISS ID 83314
Telephone Number: (208)837-4970

NORMAN S STANDAL JR
609 RIVER RD
BLISS ID 83314
Telephone Number: (208)837-4970

1. Describe the portion of the proposed recommendation with which you disagree (e.g., priority date, period of use, source):

Ownership Names Incorrect. Point of Injection and Re-division is not necessary, since water is piped

2. Describe the changes you wish to make in the proposed recommendation:

See Attached Change of Ownership Form. An un-interrupted pipe carries the water from the point of diversion in S27 SW NW NW to the place of use in S28 Lot 1 NENE. See Attached IDWR Letter 11-27-95

3. Give a brief explanation as to why you disagree with these portions:

☐ I AGREE with this proposed recommendation: no changes need to be made.

DATE: 5-26-05

SIGNATURE: N. Stanley Standal Jr

Please print your name: _____

IDWR State Office, 322 E. Front St., P.O. Box 83720, Boise, ID 83720-0098

The Right is not diverted from the upper power plant penstock, or is the water run through the penstock. the smaller pipeline bypasses the injection/re-division from the penstock

To Whom It May Concern

November 27, 1995

Dear Sirs;

Stanley Standal has asked me to write this letter concerning a change of point of diversion that he proposes for 1 cfs of surface water under Claim A37-04032. Since the new diversion point will be in the same quarter-quarter section as the original point, no water transfer is required. Due to water-quality problems, diverting this water closer to the spring source is desirable. There will still be only one diversion, according to Mr. Standal. No element of this claim will change due to moving the diversion point, so again no transfer is required.

If you have any questions, please feel free to contact me.

Sincerely,

James E. Stanton
