Steve:

Pursuant to our conversation this date, we still insist that water right **#37-2321 is missing**. I am attaching a page copied from the Shoshone water office which was received October 1988.

To this date, this water right #37-2321 is still listed on the water books and in effect. This right was filed by Rolly Baker (a relative) in 1915.

The perpetual water #37-1213 was filed by Earl Neidermeyer. The man was the one my parents purchased the ranch from.

There is no way that the perpetual water (#37-1213) superseded water right #37-2321!

Your most immediate attention to this matter would be greatly appreciated.

Please be advised that I mailed to you the following Notice of Error Reports. There is an error on water right #37-1067A. The Error Reply is attached.

The reason for this fax is that the cover letter in the mailed packet has the missing water right number **misprinted** (my fingers did some 'weird' walking!!) Therefore, please ignore the May 27, 2005 letter. The information should read as follows:

RE: NOTICE OF REPLY OF ERROR

Gentlemen:

Enclosed please find the signed 'error reports'. At this time, we are stating that there is one water right that is missing. The water right that is missing is #37-2321 with the priority date of 11/08/15 with a period of use from 4/1-11/1.

Please let us know when this is corrected.

Very truly yours,

**Moj Broadie for
