LUCKY PEAK POWER PLANT PROJECT)	STIPULATION FOR STAY OF
PETITION FOR DECLARATORY)	PROCEEDINGS
RULING ON THE STATUS OF WATER)	
RIGHT 63-367)	
_____)	

COMES NOW, the Petitioner, Lucky Peak Power Plant Project, and Respondent United States Department of Interior, Bureau of Reclamation, by and through their respective attorneys of record, and hereby stipulate and agree that the Department shall hold in abeyance any final action, including a ruling on the Petition for Declaratory Ruling filed by the Lucky Peak Power Plant Project with respect to Water Right No. 63-367, on the grounds that Petitioner and Respondent have been in active negotiations concerning the matters raised in this protest. The Petitioner and Respondent believe that they may be able to reach a resolution of this protest without requiring a decision from the Department of Water Resources. However, to preserve the parties' respective rights and duties, the Lucky Peak Power Plant Project has filed this protest prior to any

prior to any resumption of use of the water right by Respondent. Consequently, Petitioner and Respondent request the Department hold the matter in abeyance for a period of one year, or at least establish a lengthy discovery and ADR schedule prior to any hearing date.

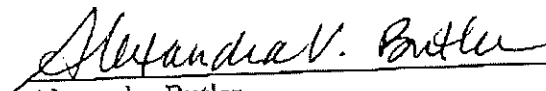

Either party may withdraw from the Stipulation at any time and seek action by the Department on the Petition by filing notice with the Department and the other party, requesting a hearing on the Petition.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF THE UNITED	)	
STATES BUREAU OF RECLAMATION	)	PETITION FOR DECLARATORY
WATER RIGHT NO. 63-367	)	RULING ON STATUS OF WATER
	)	RIGHT NO. 63-367
	)	

Petitioner LUCKY PEAK POWER PLANT PROJECT, a dba for: Boise-Kuna
Irrigation District, Nampa & Meridian Irrigation District, Wilder Irrigation District, and
Big Bend Irrigation District and Seattle City Light, the operator and power purchaser of
power from the Lucky Peak Power Plant Project, hereby petitions for a declaratory ruling
on the status of the United States Bureau of Reclamation's water right no. 63-367. The
Bureau of Reclamation originally held water right no. 63-367 for the use of up to 1,500
(cfs) from the Boise River for power purposes at its Diversion Dam power plant.

This petition is brought pursuant to the Idaho Administrative Procedure Act, I.C.
§ 67-5232, the Rules of Procedure of the Idaho Department of Water Resources, IDAPA
37.01.01, and all other applicable authority.

In support of this Petition, Petitioner alleges as follows:

1. LUCKY PEAK POWER PLANT PROJECT (“Lucky Peak”), located approximately two miles upstream from Diversion Dam, is licensed to and jointly operated by Boise-Kuna Irrigation, Nampa & Meridian Irrigation District, Wilder Irrigation District, and Big Bend Irrigation District. New York Irrigation District transferred its interest in the license and project to the other Districts in exchange for a royalty payment from the generation of the Lucky Peak Power Plant Project. Seattle City Light purchases the output and operates the Lucky Peak Power Plant Project under a Power Purchase and Sale agreement between the four districts and the City of Seattle. Representatives from the irrigation districts and the City of Seattle comprise of a Steering Committee that oversees the operation of the Lucky Peak Power Plant Project. In addition to their interests at the Lucky Peak Power Plant Project, the four irrigation districts and New York Irrigation District are responsible for the operation and maintenance of Diversion Dam, including the entire transferred works and the New York Canal. By contract with the United States, the operation and maintenance of the irrigation works is handled by the Boise Project Board of Control.

2. The United States originally constructed Diversion Dam in 1908, and completed the power plant in 1912. In order to operate the power plant at Diversion Dam, the Bureau acquired a state water right (no. 63-367) for power purposes with a priority date of June 15, 1909. In December 2001, the Bureau issued a draft environmental assessment (“EA”) on the proposed rehabilitation of the power plant at Diversion Dam. The Bureau proposes to rehabilitate and resume operation of the power plant in partnership with the Bonneville Power Administration (“BPA”). *See* EA at 1. As part of the proposed action, the Bureau plans to operate the rehabilitated Diversion

Dam structure by raising the elevation of the pool behind Diversion Dam approximately 2.4 feet. *See id.* at 7. Because of the close proximity between Lucky Peak and Diversion Dam, the tail water elevation of Lucky Peak will also be raised 2.4 feet. This proposed increase will significantly reduce the output from Lucky Peak, a 101 MW facility, in order to slightly increase production at Diversion Dam, a proposed 2275 kW facility. Although the Bureau anticipates resuming power production at Diversion Dam, plans for obtaining a water right to operate the power plant, or discussing the status of the power plant's prior water right (water right no. 63-367), are noticeably absent from the Bureau's EA. According to the EA, the Diversion Dam power plant was placed on "ready-reserve status" in 1982. *See id.*

3. The Idaho Administrative Procedure Act, I.C. § 67-5232, and the Department's rules of procedures, IDAPA 37.01.01.402.01, allow any person to petition the Department to issue a declaratory ruling on the applicability of statutory provisions that it administers. Idaho Code § 42-222(2) provides that a water right shall be lost and forfeited by failing to put it to beneficial use for a term of five (5) years. Water right no. 63-367 is no longer valid based upon I.C. § 42-222(2). By the Bureau's own admission, the prior water right for power purposes at Diversion Dam (water right no. 63-367) has not been put to beneficial use since at least 1982. *See EA* at 1. Nonuse of water right no. 63-367 for 20 years certainly presents a case for statutory forfeiture, and indicates elements of common law abandonment as well. While the Bureau is preparing to rehabilitate and operate the power plant at Diversion Dam, it has failed to even apply for a water right to cover the proposed use. Resumption of the use of this water right, at least at the elevations proposed by the Bureau, will harm the Districts and Lucky Peak.

4. Idaho Code § 67-5232(3) and IDAPA 37.01.01.402 require the Department to issue an order on this petition. Since the Bureau's proposed rehabilitation action is estimated to cost \$6.6 million, and construction is expected to begin in 2002, it is in the interest of all parties, including the Department, to have the validity of water right no. 63-367 resolved in a timely manner. Furthermore, Lucky Peak has a particular interest in this proceeding due to the potential impact on its generation. Whereas the decision on the water right's validity may ultimately affect the Bureau's proposed plan of action, a ruling on this petition will conserve time and resources that may be needlessly wasted should construction begin. At the least it will force the Bureau to follow state law and begin the process of filing an application for permit before it begins rehabilitation of a power plant for which it has no water right.

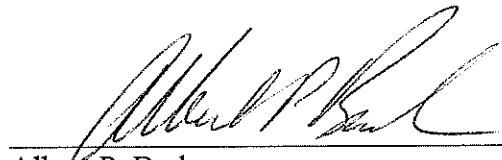

5. Lucky Peak requests that a hearing on this be held.

WHEREFORE Lucky Peak respectfully prays:

- 1) That the Department issue an order determining that water right no. 63-367 has been forfeited and/or abandoned; or
- 2) That the Department set a hearing date on this petition.

Respectfully submitted this 11th day of March, 2003.
