Counsel for the United States of America

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	)	Subcase No. 82-10418
	)	
Case Number: 39576	)	AFFIDAVIT OF DARCY J. PEDERSON
_____	)	

State of: IDAHO
County of: IDAHO

Darcy J. Pederson, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service ("Forest Service"), as the District Ranger on the Clearwater Ranger District of the Nez Perce National Forest. I have been employed by the Forest Service for 27 years.

2. As part of my assigned duties and responsibilities as the District Ranger, I am familiar with the use of Pilot Knob Lookout.

3. I have reviewed the reserved water right claim, attached as Exhibit 1, submitted by the Forest Service for the Pilot Knob Lookout ("Claim").

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and place of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Pilot Knob Lookout to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Pilot Knob Lookout, an administrative site located on the Nez Perce National Forest. The site is a traditional 14 by 14 foot fire lookout elevated on a 10 foot tower. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. The primary purpose is fire: fire detection and management of subsequent fire suppression activities on National Forest System lands, to improve and protect the forest from destruction by fire, thereby ensuring continuing health and sustainability of the forested

ecosystems on this part of the Nez Perce National Forest. Prevention of depredation by fire contributes directly to timber production and securing favorable conditions of water flow as well as other resource programs and conditions such as healthy watersheds and forests, wilderness character, trail maintenance, recreation access and public safety.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to, on-site inspection records, water has been historically, and is presently utilized at Pilot Knob Lookout in quantities up to and including 0.02 c.f.s. during the period of June 1 through September 30, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:

UNITED STATES OF AMERICA acting on behalf of the U.S.D.A. Forest
Service, 550 W. Fort Street, MSC033, Boise, ID 83724.

b. The source of water is:
