E. REASONS SUPPORTING OBJECTION(S):

(1) The United States of America, through the Bureau of Land Management, is the owner of the land upon which a portion of the use is claimed. The claimant's use includes a use of Federal land that is unauthorized. Claimant's water right should not include POUs describing federal public land. (2) Other POUs contain both private and public land. The description should be clarified such that it is clear only non-federal land is intended, such as by a remark under place of use, "The use of water under this right does not include a use on federal public land."
