This is a detailed cadastral map of a land area, divided into numerous numbered plots (1-36). Each plot is labeled with its number and contains specific data including area measurements (e.g., 1000, 1200, 1500) and other numerical values. The plots are arranged in a grid-like fashion, with some plots being larger than others. The map is oriented with North at the top.

The map shows a complex arrangement of land parcels, each identified by a unique number. The parcels are separated by clear boundaries, and each contains a set of data, likely representing land area, ownership, or other relevant information. The numbers 1 through 36 are prominently displayed on the map, indicating the sequence or order of the parcels.

The data within each plot includes various numerical values, some of which are accompanied by units or abbreviations (e.g., "D/C", "D/C", "D/C"). These values likely represent specific measurements or characteristics of the land parcels. The map is a technical drawing, typical of land surveying or cadastral mapping, used for land management and ownership records.
