FILE A36-10870 + A36-10826

RE: DOMESTIC WELL @ POTTER SPRINGS

DATE 12-18-91

NAME OF PARTY

DONNIE McFADDEN

837-6174

He returned my call. He confirmed that he has purchased the Potter Springs area property from Petersen.

I asked about the Domestic well - he said it is there but the house is gone and the well is capped. I told him there is a 5 year period before the right is abandon.

We discussed the use of spring water + the well location ~~and the well~~ It seems there was some duplication in the filings as claimed. The Idaho State Bank filed two claims one for the spring & one for the well; While Peterson filed one claim combining the spring & well as one source.

I told him we would recognize the well use for now since it was in use until Spring of 1991.

Steve Clelland

RECOMMENDED: A36-10826 for Domestic Well

A36-10827 Disallowed - duplication

A36-10870 instream stock water use
