RE: Notice of Change of Water Right Ownership and Enlargement Claim

Dear Mr. Petrun:

You will recall we visited on July 24, 2001 discussing the adjudication water right claim 29-00149 on your property.

At that time, I spoke of a need for a change of ownership for the water right claim and left a form for that purpose. While at the same time, I said I would come back to GPS the place of use because the decree specifies only 0.27 acres but the claim filed by Herbert Morris was for 3 acres and amended to 5 acres. I did the GPS on July 26 and recorded the boundary of the irrigated acres, which calculates to 1.5 acres. I was unable to locate the additional 3.5 acres referred to by the amendment.

Currently, there are two issues that need resolution. First, the Notice of Change of Water Right Ownership must be completed and returned with a copy of the deed or other conveyance instrument. Second, if you intend to pursue the acres over 0.27, as defined by the decree, an Enlargement Claim will be required. The cost for which will be \$100.00.

Thank you for your attention in this matter, I look forward to your timely response. However, should you have questions regarding this or other water related matters please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry
Sr. Water Resource Agent
Adjudication Bureau
